ASEAN ECONOMIC COMMUNITY

38. We were pleased that ASEAN's combined GDP stood at USD2.55 trillion in 2016 with a robust year-on-year real GDP growth rate of 4.7% despite the challenging global environment. We noted that growth in the region's economy is expected to accelerate to 4.8% in 2017 supported by solid growth of private consumption and investment as well as expansionary fiscal policy. We emphasized the importance of continuing to promote initiatives that directly benefit the people of ASEAN, including the need to redouble efforts to increase intra-regional trade and investment.

39. We reaffirmed our commitment to effectively implement the AEC Blueprint 2025. To this end, we welcomed the adoption of the AEC 2025 Consolidated Strategic Action Plan (CSAP) by the ASEAN Economic Ministers (AEM) and the AEC Council, which serves as a single reference of key action lines drawn from the AEC sectoral work plans for the implementation of the AEC Blueprint 2025. We noted that the AEC 2025 CSAP has been made available to the public and will be periodically reviewed to ensure its relevance. We also welcomed on-going efforts to operationalize the AEC 2025 Monitoring and Evaluation (M&E) Framework, including with support from the ASEAN Community Statistical System (ACSS). The framework serves as a key reference for institutionalizing and implementing monitoring and evaluation mechanisms in the AEC to help ensure timely and effective implementation of the AEC Blueprint 2025. We also welcomed the establishment of the ASEAN Coordinating Committee on Electronic Commerce (ACCEC), which would support implementation of this important element in the AEC Blueprint 2025. To this end, we further welcomed the adoption by the ASEAN Economic Ministers (AEM) and the endorsement by the ASEAN Economic Community Council (AECC) of the ASEAN Work Plan on Good Regulatory Practice (2016-2025) and the adoption by the ASEAN Finance Ministers of the Strategic Action Plan 2016-2025 for ASEAN Taxation Cooperation.

Acknowledging that the global economy is undergoing a transformational phase brought about by rapid technological and scientific advancements, we recognized the need for ASEAN to be well prepared and able to maximize the opportunities from the "4th Industrial Revolution", so as to foster the region's economic growth, and promote inclusive and equitable economic development.

41. We applauded the overall thematic priority of "Inclusive, Innovation-led Growth" for the AEC under the Philippines' ASEAN Chairmanship, which would be pursued through three strategic measures, namely, increasing trade and investment, integrating micro, small and medium enterprises (MSMEs) in the Digital Economy, and developing an innovation-driven economy. Noting the lessons learned from Brexit, we underscored that the benefits of ASEAN community building must be felt by its citizens.

42. We were pleased with the progress made in the implementation of trade facilitation measures and initiatives in ASEAN with a view to reduce cost and time of doing business in the region. We welcomed the entry into force of the World Trade Organization Agreement on Trade Facilitation on 22 February 2017, which creates a new momentum for ASEAN to further enhance our trade facilitation regimes in line with international best practices. We strongly encouraged ASEAN to continue strengthening public and private sector engagement, promoting transparency of non-tariff measures, streamlining and simplifying customs procedures, trade regulatory regimes, and reducing technical barriers to trade while ensuring quality and building confidence in ASEAN products. In this regard, we welcomed the target set by the AEM at the 23rd AEM Retreat in March 2017 to reduce 10% of trade transaction costs by 2020. The timely realization of this target will contribute to the achievement of a highly integrated and cohesive ASEAN economy as envisioned in the AEC Blueprint 2025.

43. We welcomed the outcomes of the 21st ASEAN Finance Ministers' Meeting (AFMM) and the 3rd ASEAN Finance Ministers' and Central Bank Governors' Meeting (AFMGM). 44. We welcomed the significant interest of the private sector as key stakeholders to partner with ASEAN working bodies in the implementation of relevant AEC sectoral work plans. Consistent with the AEC Blueprint 2025, we urged relevant ASEAN bodies to take concrete steps to institutionalize within each relevant body a consultative process with lead private sector entities (business associations and business councils) as well as the ASEAN Business Advisory Council (ASEAN-BAC) representatives to support the implementation of initiatives under the sectoral work plans.

45. We were pleased with the stronger focus on MSME development in this year's ASEAN economic agenda. Increased emphasis on ASEAN MSMEs as drivers of inclusive and innovative growth in the region demonstrates the significance placed by ASEAN on the strong potential and well-being of this sector, in particular the micro enterprise stakeholders, which comprise up to 99% of registered businesses and generate a large proportion of total employment in the region. This recognition will translate into pro-active steps in line with the Strategic Goals incorporated in the ASEAN Strategic Action Plan for SME Development 2016-2025 (SAPSMED 2025) towards promoting ASEAN branding for MSMEs and enhancing the ecosystem for MSME development, which is expected to help enhance MSMEs' competitiveness to participate in and take advantage of domestic, regional and global market opportunities and have increased access to financing. We noted that various MSME

development initiatives are on-going and have been prioritized for delivery throughout the year.

46. We congratulated the ASEAN Business Advisory Council (ASEAN-BAC) as the apex private sector body for the successful organization of the “Prosperity for All” Summit, which brought together key institutional and professional enablers to collaborate and champion the cause of MSME empowerment towards inclusive growth across ASEAN. This huge challenge of ensuring that the fruits of the AEC reach the citizens of ASEAN is what we, the ASEAN governments, and the business sector must address together as a team.

47. We commended the ASEAN Women Entrepreneurs Network (AWEN) and the Women’s Business Council of the Philippines (WBCP) for bringing together women leaders and prominent business leaders from the region at their “Science, Technology, Engineering, Arts, and Mathematics (S.T.E.A.M.) Ahead in ASEAN,” held on 16-17 March 2017 in Manila.

We were pleased with the progress in strengthening ASEAN competition regimes and welcomed the development of an ASEAN Regional Capacity Building Roadmap for Competition Policy and Law (2017-2020) as part of on-going efforts to build and strengthen the necessary capacities for effective enforcement of competition law in ASEAN. Changing consumption trends and the rise of the digital economy will require the realignment of consumer rights and policies to ensure compatibility with such developments within society and the economy. We urged the expeditious finalization of the ASEAN High-Level Principles on Consumer Protection to provide a broad framework for consumer protection in tandem with the economic developments in the Community.

49. We were pleased to note that the revamped ASEAN IP Portal (<https://www.aseanip.org/>) has provided a consolidated platform to access IP information, including the databases on trademarks, geographical indications and case law. We commended the increasing use of the ASEAN Patent Examination Cooperation (ASPEC) platform, with work-sharing requests having doubled since its launch in 2012. We looked forward to the completion of the diagnostics study across all areas of intellectual property to support the implementation of strategic policies for enhanced delivery of services.

50. We welcomed the progress made in the realization of ASEAN RO-RO shipping network, particularly the maiden voyage of the ASEAN Roll-on Roll-off (RORO) Sea Linkage Route between Davao–General Santos (the Philippines)–Bitung (Indonesia), which is set to be launched on 30 April 2017 in Davao City, Philippines and is among the economic priority deliverables under the Philippines’ ASEAN Chairmanship. The initiative would enhance the connectivity of archipelagic ASEAN and further facilitate trade and tourism, as well as provide greater impetus to the implementation of multimodal transport in the ASEAN region.

51. We welcomed the adoption of the Framework of Cooperation on certification of competency for Near Coastal Voyages (NCV) issued by ASEAN Member States, which aims to address the issue of disparities in areas of trading limits and syllabus requirements between ASEAN Member States on NCV certificates. We commended

ASEAN's efforts to maximize road network efficiency capacity as well as to improve traffic flow with the adoption of the ASEAN Intelligent Transport Systems (ITS) Policy Framework 2.0, which sets out guiding principles for ASEAN Member States in identifying, planning, evaluating and facilitating ITS applications in their respective countries. On transport facilitation, we welcomed the progress made in the implementation of the ASEAN Customs Transit System (ACTS) Pilot to further enhance cross-border trade in three participating ASEAN Member States – namely Malaysia, Singapore and Thailand, with the completion of its System and Parallel Tests Run.

52. We welcomed the adoption of the Brunei Darussalam Declaration on Connected Innovative Community by the ASEAN Telecommunications and Information Technology Ministers Meeting (TELMIN) to advance ASEAN's vision of establishing an innovative and inclusive community whereby the stakeholders, be it businesses or end users, will be able to fully capitalize on the technological advancement to further improve their well-being. We commended the efforts by the Ministers to steer ASEAN towards a more dynamic, creative and innovative region in an interconnected and interoperable digital economy by utilizing ICT to further support and drive the AEC, which include strengthening personal data protection and enhancing cybersecurity through the adoption of the ASEAN Framework on Personal Data Protection, and the in-principle support of the ASEAN Cybersecurity Cooperation Strategy.

53. We were pleased with the steady growth of the tourism sector in 2016, bringing in 6.5% more international visitors compared to 2015. We welcomed the various initiatives by the ASEAN Tourism Ministers in the implementation of the ASEAN Tourism Strategic Plan (ATSP) 2016-2025 with a view to sustaining the sector's development as well as to contributing to the ASEAN Community Vision 2025, including the development of new tourism products and experiences in the areas of yachting, river cruises, youth and sports tourism; further enhancing the development of cruise tourism; promoting sustainable tourism development through the ASEAN Sustainable Tourism Awards. We also noted that substantial works have been done to implement the *Visit ASEAN@50: Golden Celebration* campaign to showcase the region's rich natural and cultural diversity in welcoming international visitors to celebrate the 50th anniversary of ASEAN together with us.

54. Recognizing the role of science, technology and innovation (STI) as a key driver in economic growth, we welcomed the adoption of the Implementation Plan by the ASEAN Science and Technology Ministers to operationalize the adopted ASEAN Plan of Action on Science, Technology and Innovation (APASTI) 2016-2025. We appreciated the progress made towards the drafting of the ASEAN Declaration on Innovation, which encompasses the guiding principles and strategies to strengthen the ASEAN innovation ecosystem. We welcome the initiative on the establishment of the ASEAN STI Partnership Contributions and were pleased to note that the Philippines and Thailand had individually pledged USD 1 million towards this Contribution.

55. We commended the achievements made in ASEAN cooperation in Food, Agriculture and Forestry, particularly the harmonization of agricultural standards to facilitate ASEAN trade of the agricultural products as well as to improve quality

assurance, enhance quality of products, and minimize hazards in food safety and environmental impacts. We noted that the Intra-ASEAN Phytosanitary Guidelines for mango and corn and the ASEAN Good Animal Husbandry Practices (GAHP) for Animal Welfare and Environmental Sustainability were endorsed by the ASEAN Ministerial Meeting on Agriculture and Forestry (AMAF) in October 2016. We were also pleased with the progress made in the implementation of the ASEAN Integrated Food Security (AIFS) Framework and the Strategic Plan of Action on ASEAN Food Security (SPA-FS) 2015-2020, particularly the development of the Matrix of Key Areas of Cooperation and Joint Activities for ASEAN Multi-Sectoral Cooperation on Food Security and Nutrition to enhance the cross-sectoral coordination in ensuring supply of sufficient, affordable, safe and nutritious food.

56. We noted the signing of the Agreement on the Establishment of ASEAN Coordinating Centre for Animal Health and Zoonoses (ACCAHZ) also in October 2016 for the purpose of facilitating and providing a framework of cooperation and coordination among ASEAN Member States, with relevant ASEAN Dialogue Partners, Development Partners and other stakeholders to enhance the prevention, control and eradication of transboundary animal and zoonotic diseases in ASEAN.

57. We welcomed the efforts made to enhance our ASEAN Plus One Free Trade Agreements (FTA). We noted the good progress in the negotiations of the ASEAN-Hong Kong, China FTA towards the targeted conclusion within the year. We also welcomed the launch of formal region-to-region talks on a framework setting out the parameters of a future Free Trade Agreement between ASEAN and the European Union.

58. We welcomed the progress made in the Regional Comprehensive Economic Partnership (RCEP) negotiations. We emphasized that the sluggish economic environment and trends toward protectionism increases the need to achieve a modern, comprehensive, high-quality and mutually beneficial RCEP Agreement, which has the potential to boost global economic growth, deepen regional economic integration and facilitate equitable economic development for all RCEP Participating Countries (RPCs). We instructed our Ministers and negotiators to redouble efforts building on the good momentum achieved thus far and reiterated our call to uphold ASEAN Centrality in finding resolutions to outstanding issues. We reiterated our commitment to work together in a cooperative manner in line with the Guiding Principles and Objectives for Negotiating the RCEP towards the swift conclusion of the RCEP negotiations.

59.
