

Project Title	Enabling Private Sector Growth and Attracting FDIs
Project Area	MSME
Beneficiary Countries	CM
Source of Funding	Singapore
Approved Budget	USD 39,666
Project Description	<p>This course will provide participants with a comprehensive understanding of the strategies in growing the private sector and attracting foreign direct investments (FDIs) through sharing of Singapore's experience and policy framework. The topics to be covered include introduction to FDIs and national policies to attract inward FDIs, growth strategy for industrial sector, private sector and SMEs developments, FTAs to increase growth in domestic sectors, sustainable development goals and public-private partnership (PPP).</p> <p>The course will be conducted through a series of lectures, sharing sessions, case studies and group work and discussions to allow participants to contextualize and apply knowledge learnt to address participants' countries own local requirements and challenges.</p>
Objective	The course aims to provide participants responsible for development of policies for entrepreneurship, FDIs and MSMEs in their country with knowledge of frameworks and strategies that government and government agencies can adopt to develop policy solutions and engage the private sector to attract FDIs and meet national MSME development needs.
Implementation Status	The trainings were conducted on April 2018 and May 2018.
