7.2 Ratio of Paved Road to Total Road Length .................................... 49
7.3 Visitor Arrivals ............................................ 50
The ASEAN Economic Community (AEC) Chartbook 2016, provides statistical updates on the various dimensions of the ASEAN economic community based primarily on data submitted by the ASEAN Member States (AMS). It covers the period of 2007, the year the Declaration on the ASEAN Economic Community Blueprint was signed, to 2015.

The AEC Chartbook, now in its 10th edition, aims to walk its readers through the different developments taking place in the ASEAN region ranging from demography, economy, international trade, investment to infrastructure, in eight sections as follows:

1. ASEAN in the Global Economy situates the region in the global economy in terms of its population, economic size and growth, trade, and investment.
2. ASEAN Economy looks into key macroeconomic trends and developments within the region.
3. ASEAN Trade in Goods examines the trends of exports and imports of goods, composition and direction of trade within the region and with the rest of the world.
4. ASEAN Trade with Dialogue Partners maps out the region’s trade position and the concentration and dependencies of traded commodities with its dialogue partners
5. ASEAN Trade in Services describes the trends of exports and imports of services within ASEAN and with the rest of the world.
6. Investment in ASEAN highlights the inflows of foreign direct investment into the region.
7. Other Developments in the ASEAN Economic Community examines other important elements characterising the regional economy, i.e. information and communications technology, infrastructure, and tourism.

The charts presented in this publication are based on data available in the various databases being maintained by the ASEAN Secretariat as submitted through relevant ASEAN working groups and/or data sharing schemes and/or as gathered from official publications and websites of the ASEAN Member States and international organisations, as of 31 August 2016.

Some data were derived/estimated using basic statistical approaches employed by the ASEAN Secretariat. Unless otherwise stated, these figures are in no way considered as the official statistics, and are used only to give indicative information.
In 2015, ASEAN’s population increased by 11.1% from 2007. ASEAN’s population was the third largest in the world, after China and India. Indonesia’s population accounted for about 40% of the region’s total population.

Source: ASEAN Secretariat and IMF World Economic Outlook April 2016.
In 2015, ASEAN overtook France as the sixth richest economy in the world. ASEAN was also third among the Asian countries, after China and Japan.
ASEAN in the Global Economy

1.3 GDP per capita, at current price

In US dollars

Source: ASEAN Secretariat and IMF World Economic Outlook April 2016.

ASEAN GDP per capita increased by 63.2% from US$2,369 in 2007 to US$3,867 in 2015. Singapore was one of the top ten countries with the highest GDP per capita in the world.
GDP per capita, at PPP* 1.4

ASEAN in the Global Economy

* Purchasing Power Parity; PPP dollar takes into account the differences in the purchasing power of the US dollar in the countries. PPP $1 in a country, say Cambodia, has the same purchasing power as PPP $1 in all other countries in the world.

Source: ASEAN Secretariat and IMF World Economic Outlook April 2016.

The region’s GDP per capita (PPP) increased by 56.1% from US$7,052 in 2007 to US$11,009 in 2015. Singapore and Brunei Darussalam were among the top 5 economies with the highest GDP per capita (PPP) in the world.
In 2015, ASEAN’s total trade stood at US$2.3 trillion, accounting for 7.6% share of the world’s total trade; and placed fourth after China (13.8%), USA (13.6%) and Germany (8.0%).
In 2015, ASEAN was the fourth biggest recipient of FDI in the world, after USA (21.6%), Hong Kong (9.9%) and China (7.7%).
The region’s GDP grew at 4.7% in 2015, lower by 2.1 percentage points from 2007. GDP growth in CLMV remained higher than in ASEAN-6 during the same period.
Member States’ GDP per capita varied widely. In 2015, GDP per capita in Singapore and Brunei Darussalam reached more than US$50,000 and US$30,000 respectively; while GDP per capita in Cambodia and Myanmar stood at US$1,198 and $1,246, respectively. Indonesia, Malaysia, Philippines and Thailand’s GDP per capita ranged from US$2,800 to US$9,600.

Source: ASEAN Secretariat.
2.3 Consumer Price Index in ASEAN-6 (base year = 2005)

Source: ASEAN Secretariat.

In 2015, overall prices in the ASEAN-6 grew between 1.4% and 6.4%, Increase in food prices was relatively higher in Philippines, Thailand, and Indonesia, ranging from 2.5% to 5.0% during the same year.
Source: ASEAN Secretariat.

Transport prices in all ASEAN-6 countries declined, owing to the drop in oil prices in 2015. On the other hand, housing prices grew in all countries except Philippines and Singapore which experienced a decrease of 1.3% and 3.5% respectively.
2.5 Currencies-to-US Dollar (period average)

A positive (+) rate of change connotes currency depreciation while a negative (-) rate of change indicates currency appreciation.

Source: ASEAN Secretariat.

All ASEAN Member States’ currencies depreciated vis-à-vis the US dollar between 2014 and 2015. The Indonesian rupiah and Malaysian ringgit depreciated the most by 28.4% and 20.2%, respectively.
Between 2007 and 2015, the Indonesian rupiah depreciated the most vis-à-vis the US dollar to reach 13,458 per US dollar in 2015 compared to 9,164 in 2007, followed by Vietnamese dong (from 16,120 per US dollar to 21,679) and Malaysian ringgit (from 3.4 per US dollar to 3.9).

Source: ASEAN Secretariat.
In 2015, the region’s total trade in goods fell by 10% from US$2,529 billion in the previous year to US$2,270 billion; both extra-ASEAN and intra-ASEAN trade in goods were down by about 10%.

Source: ASEAN Secretariat.
In 2015, total trade in goods accounted for 93.3% of GDP; intra-ASEAN share to GDP remained relatively stable at 22.4%.

Source: ASEAN Secretariat.
In 2015, intra-ASEAN trade in goods remained stable at approximately 24% of the region’s total trade in goods.

3 ASEAN Trade in Goods

3.7 Top Ten Import Commodities, 2015

In percent share

- Mineral fuels, mineral oils and products of their distillation; bituminous substances; mineral waxes 14.7%
- Nuclear reactors, boilers, machinery and mechanical appliances; parts thereof 13.3%
- Plastics and articles thereof 3.8%
- Vehicles other than railway or tramway rolling stock, and parts and accessories thereof 3.6%
- Iron and steel 3.2%
- Optical, photographic, cinematographic, measuring, checking, precision, medical or surgical instruments and apparatus; parts and accessories thereof 2.5%
- Natural or cultured pearls, precious or semi-precious stones, precious metals, metals clad with precious metal, and articles thereof; imitation jewellery; coin 2.4%
- Articles of iron or steel 2.1%
- Organic chemicals 2.0%
- Others 29.4%
- Electrical machinery and equipment and parts thereof; sound recorders and reproducers, television image and sound recorders and reproducers, and parts and accessories of such articles 22.8%
- Others 29.4%

Note: Based on 2-digit Harmonized System Code
Source: ASEAN Secretariat.

Mineral fuels/oils and their related products, electrical-related products and nuclears-related equipments/appliances accounted for more than 50% of ASEAN imports.
Intra-ASEAN Top 5 Trade Commodities, 2015

Electrical machinery and equipment and parts thereof; sound recorders and reproducers, television image and sound recorders and reproducers, and parts and accessories of such articles accounted for 21.4% of exports and 22.3% of imports. Other major trade commodities included mineral fuels, mineral oils and products of their distillation; bituminous substances; mineral waxes (19.5% for exports and 11.0% for imports), vehicles other than railway or tramway rolling stock, and parts and accessories thereof (5.0% for exports and 12.9% for imports), and plastics and articles thereof (4.3% for exports and 4.5% for imports).

Note: Based on 2-digit Harmonized System Code
Source: ASEAN Secretariat.

Electrical machinery and equipment and their related products were the major intra-ASEAN export and import commodity items, accounting for 21.4% and 22.3% of the total, respectively.
3 ASEAN Trade in Goods

3.9 Extra-ASEAN Top 5 Trade Commodities, 2015

In percent share

Exports

- Electrical machinery and equipment and parts thereof; sound recorders and reproducers, television image and sound recorders and reproducers, and parts and accessories of such articles 26.3%
- Nuclear reactors, boilers, machinery and mechanical appliances; parts thereof 11.2%
- Mineral fuels, mineral oils and products of their distillation; bituminous substances; mineral waxes 8.9%
- Optical, photographic, cinematographic, measuring, checking, precision, medical or surgical instruments and apparatus; parts and accessories thereof 3.3%
- Animal or vegetable fats and oils and their cleavage products; prepared edible fats; animal or vegetable waxes 3.3%
- Others 47.1%

Imports

- Electrical machinery and equipment and parts thereof; sound recorders and reproducers, television image and sound recorders and reproducers, and parts and accessories of such articles 23.0%
- Mineral fuels, mineral oils and products of their distillation; bituminous substances; mineral waxes 12.6%
- Iron and steel 3.9%
- Nuclear reactors, boilers, machinery and mechanical appliances; parts thereof 14.0%
- Others 42.8%

Note: Based on 2-digit Harmonized System Code
Source: ASEAN Secretariat.

The top ‘traded’ commodity item outside the region was electrical-related products (26.3%); while leading import commodities were electrical-related products (23.0%) and nuclear reactors, boilers, etc (14.0%).
In 2015, China remained as ASEAN's top trading partner, with total trade in goods amounting to US$345 billion. While ASEAN trade with most partners declined, trade with Japan and EU-28 recorded positive growth at 4.0% and 8.6%, respectively.

Source: ASEAN Secretariat.
4 ASEAN Trade in Goods with Dialogue Partners

4.2 Total Trade in Goods

In percent share

Note: ANZ = Australia-New Zealand; ROK = Republic of Korea; Russia = Russian Federation.
Source: ASEAN Secretariat.

China, EU-28, Japan and USA's combined shares to ASEAN’s total trade in goods grew from 40.3% in 2014 to 45.1% in 2015.
In 2015, China was the top export destination of ASEAN, accounting for 11.3% of the region’s total exports, followed by USA (10.9%), EU-28 (10.8%), and Japan (9.6%).
ASEAN’s imports of Chinese-made products moderated in 2015; while shipments from EU-28, Japan and USA expanded during the same year.
In 2015, among its dialogue partners, ASEAN registered trade surpluses with Australia, New Zealand, Canada, EU-28, India, and USA; while trade deficits were recorded with China, Korea, Japan and Russia.

Note: A positive value indicates trade surplus; the region is a net exporter.
Source: ASEAN Secretariat.
4 ASEAN Trade in Goods with Dialogue Partners

4.6 Top 5 Traded Commodities with Australia-New Zealand, 2015

In percent share

Exports

Mineral fuels, mineral oils and products of their distillation; bituminous substances; mineral waxes 23.4%

Natural or cultured pearls, precious or semi-precious stones, precious metals, metals clad with precious metal, and articles thereof; imitation jewellery; coin 4.9%

Cereals 8.3%

Dairy produce; birds’ eggs; natural honey; edible products of animal origin, not elsewhere specified or included 10.5%

Mineral fuels, oils and related products 23.4%

Imports

Others 54.4%

Mineral fuels, oils and related products 8.3%

Dairy produce; birds’ eggs; natural honey; edible products of animal origin, not elsewhere specified or included 10.5%

Mineral fuels, oils and related products were the major traded items for both exports and imports, with Australia and New Zealand.

Note: Based on 2-digit Harmonized System code.
Source: ASEAN Secretariat.
Exports to Canada were mainly electrical machinery/equipment and articles of apparel and clothing accessories. Imports consisted of cereals, fertilizers and nuclear reactors, boilers and mechanical appliances.

Note: Based on 2-digit Harmonized System code.
Source: ASEAN Secretariat.
4. **ASEAN Trade in Goods with Dialogue Partners**

4.8 **Top 5 Traded Commodities with China, 2015**

In percent share

**Exports**
- Rubber and articles thereof 4.7%
- Plastics and articles thereof 6.1%
- Nuclear reactors, boilers, machinery and mechanical appliances; parts thereof 9.4%
- Mineral fuels, mineral oils and products of their distillation; bituminous substances; mineral waxes 11.5%
- Others 38.9%
- Electrical machinery and equipment and parts thereof; sound recorders and reproducers, television image and sound recorders and reproducers, and parts and accessories of such articles 29.4%

**Imports**
- Rubber and articles thereof 4.7%
- Plastics and articles thereof 3.1%
- Articles of iron or steel 3.7%
- Iron and steel 6.2%
- Nuclear reactors, boilers, machinery and mechanical appliances; parts thereof 17.8%
- Others 39.6%
- Electrical machinery and equipment and parts thereof; sound recorders and reproducers, television image and sound recorders and reproducers, and parts and accessories of such articles 29.6%

*Note: Based on 2-digit Harmonized System code.*

*Source: ASEAN Secretariat.*

Electrical machinery/equipment, television image and sound recorders and reproducers, and parts thereof accounted for nearly 30% of the region’s trade with China.
Top 5 Traded Commodities with EU-28, 2015

Trade with EU-28 consisted largely of electrical machinery/equipment, television image and sound recorders and reproducers, and parts as well as nuclear reactors, boilers and mechanical appliances.

Note: Based on 2-digit Harmonized System code.
Source: ASEAN Secretariat.
The region’s leading export items to India mostly consisted of mineral fuels, oils and related products including animal or vegetable fats and oils and their cleavage products; prepared edible fats; animal or vegetable waxes. Imported goods were mainly mineral fuels, mineral oils and products of their distillation; bituminous substances; mineral waxes.
Top 5 Traded Commodities with Japan, 2015

**Exports**
- Electrical machinery and equipment and parts thereof; sound recorders and reproducers, television image and sound recorders and reproducers, and parts and accessories of such articles (21.5%)
- Nuclear reactors, boilers, machinery and mechanical appliances; parts thereof (9.8%)
- Mineral fuels, mineral oils and products of their distillation; bituminous substances; mineral waxes (16.5%)
- Wood and articles of wood; wood charcoal (4.6%)
- Vehicles other than railway or tramway rolling stock, and parts and accessories thereof (5.7%)
- Others (41.9%)

**Imports**
- Electrical machinery and equipment and parts thereof; sound recorders and reproducers, television image and sound recorders and reproducers, and parts and accessories of such articles (19.4%)
- Vehicles other than railway or tramway rolling stock, and parts and accessories thereof (9.8%)
- Nuclear reactors, boilers, machinery and mechanical appliances; parts thereof (20.8%)
- Mineral fuels, oils and related products (16.5%)
- Iron and steel (7.7%)
- Plastics and articles thereof (5.0%)
- Others (37.2%)

**Note:** Based on 2-digit Harmonized System code.

**Source:** ASEAN Secretariat.

Electrical machinery and equipment and parts thereof; sound recorders and reproducers, television image and sound recorders and reproducers, and parts and accessories of such articles together with nuclear reactors, boilers, machinery and mechanical appliances; parts and mineral fuels, oils and related products comprised the region’s most traded commodities with Japan.
4 ASEAN Trade in Goods with Dialogue Partners

4.12 Top 5 Traded Commodities with Republic of Korea, 2015

In percent share

Exports

- Optical, photographic, cinematographic, measuring, checking, precision, medical or surgical instruments and apparatus; parts and accessories thereof 2.8%
- Articles of apparel and clothing accessories, not knitted or crocheted 4.0%
- Nuclear reactors, boilers, machinery and mechanical appliances; parts thereof 8.4%
- Mineral fuels, mineral oils and products of their distillation; bituminous substances; mineral waxes 18.0%
- Electrical machinery and equipment and parts thereof; sound recorders and reproducers, television image and sound recorders and reproducers, and parts and accessories thereof 28.8%
- Others 38.0%

Imports

- Optical, photographic, cinematographic, measuring, checking, precision, medical or surgical instruments and apparatus; parts and accessories thereof 2.8%
- Articles of apparel and clothing accessories, not knitted or crocheted 4.0%
- Nuclear reactors, boilers, machinery and mechanical appliances; parts thereof 8.4%
- Mineral fuels, mineral oils and products of their distillation; bituminous substances; mineral waxes 18.0%
- Electrical machinery and equipment and parts thereof; sound recorders and reproducers, television image and sound recorders and reproducers, and parts and accessories thereof 28.8%
- Others 37.1%

Note: Based on 2-digit Harmonized System code.
Source: ASEAN Secretariat.

Electrical machinery and equipment and parts thereof; sound recorders and reproducers, television image and sound recorders and reproducers, and parts and accessories of such articles and mineral fuels, oils and related products accounted for nearly 50% of the region’s trade with the Republic of Korea.
The region's chief export products to Russian Federation were electrical machinery/equipment, television image and sound recorders and reproducers, and parts thereof. On the other hand, mineral fuels, oils and related products accounted for three-fourths of ASEAN’s imported goods from the Russian Federation.
