

Risk Assessment for International Dissemination of COVID-19 to the ASEAN Region

ASEAN Biodiaspora Virtual Center (ABVC)

as of October 28, 2020 (2:00 PM GMT+8)

COVID-19: Highlights and Situation Overview

- Worldwide, there have been over 44.1 million cases and more than 1.16 million deaths attributed to COVID-19.
- Despite several COVID-19 vaccine candidates now in late-stage trials, little is known as to whether any of the current candidates will also be safe and effective in children. Recently, the vaccine candidate developed by BioNTech and Pfizer has started to test its experimental vaccine in children as young as 12. This is the first candidate to be trialled in children. The young volunteers have been given their first doses of the two-dose vaccine and are being monitored carefully for any unusual side effects. Typically, vaccines are tested in adults first, then when the safety profiles are fully assessed and potential risks minimized, they are given to children. Currently, most vaccine developers have not yet launched trials with participants younger than 18. Aside from the BioNTech-Pfizer's candidate, the AstraZeneca, and SinoVac vaccine trials are planning on testing in children in upcoming trials.
- The COVID-19-related death toll in Indonesia has increased by 18% over the past week as social restrictions continue to be relaxed in several regions, according to the national COVID-19 task force. Task force spokesperson said his office had recorded 785 deaths linked to COVID-19 between October 19 and 26, an increase from the 665 deaths recorded in the previous week. Five provinces with the most significant increase in coronavirus-related fatalities are West Java with 89 recent deaths, West Sumatra (22), Central Java (16), Riau Islands (10), and West Nusa Tenggara (7), according to the task force data. Central Java is a particular cause for concern as the province has consistently ranked among the five regions with the highest rise in coronavirus deaths in the country for two consecutive weeks. The Health Ministry reported 3,520 new confirmed COVID-19 cases on October 28, bringing the total number of cases nationwide to 396,454.
- Philippine President Rodrigo Duterte said on Tuesday (Oct 27) that he prefers a government-to-government deal for the purchase of COVID-19 vaccines to prevent the risk of corruption. Philippine authorities are also evaluating COVID-19 vaccines of Russia's Gamaleya Research Institute and Johnson & Johnson's Janssen for late-stage trials and in talks with drugmaker Pfizer Inc and Moderna Inc as potential suppliers. The Philippines has initially allotted US\$400 million to buy 40 million doses for 20 million Filipinos, as part of Duterte's plan to inoculate the entire population. The President also announced that some areas will remain at General Community Quarantine (GCQ) until November 30. The areas include Metro Manila, Batangas, Iloilo City, Bacolod City, Tacloban City, Iligan City and Lanao del Sur.
- Malaysia extended movement restrictions in Kuala Lumpur, Putrajaya and the surrounding state of Selangor for another two weeks. The conditional movement control order (CMCO), initially planned for Oct 14 to Oct 27, will be extended until November 9.

Travel Advisories (new update/s)

- Indonesia: The Law and Human Rights Ministry has launched an online visa application for foreign citizens who wish to enter Indonesia. Those who intend to apply for the visa must fill in their personal information and purpose for travel on the website visa-online.imigrasi.go.id. This applicable to countries that Indonesia has made bureaucratic reforms.

- Myanmar: The country has extended the suspension on international commercial air traffic until November 30 according to the announcement issued by the Department of Civil Aviation (DCA).
- Vietnam and Japan have agreed to lift mandatory quarantine for short-term visits for businesspeople and officials from November 1. However, this will be done with strict health protocols including testing and medical surveillance. Details of the protocols and procedures are yet to be released.

Cases and Deaths as of 28 October 2020

- As of October 28 (2PM, GMT+8), worldwide, there were **44,169,929** confirmed cases, including **1,171,029** deaths. Globally, Case Fatality Rate (CFR) is **2.65**.
- In **China**, there were **91,782** confirmed cases with **4,746** deaths, including deaths in Hong Kong (105) and Taiwan (7). Confirmed cases in China include confirmed cases in Hong Kong (5,309), Macau (92), and Taiwan (550).
- **909,262 confirmed cases** of COVID-19 have been reported in the ASEAN region with a total of **22,075 deaths**.
