

# Risk Assessment for International Dissemination of COVID-19 to the ASEAN Region

ASEAN Biodiaspora Virtual Center (ABVC)

as of October 14, 2020 (2:00 PM GMT+8)

## COVID-19: Highlights and Situation Overview

- Worldwide, there have been over 38.2 million cases and more than 1.08 million deaths attributed to COVID-19.
- Johnson & Johnson announced on October 12 that the phase 3 clinical trial for a vaccine candidate has been paused due to an unexplained illness in a United States' study participant. According to Johnson & Johnson, the illness is being reviewed by an independent data and safety monitoring board, as well as by the U.S. group's clinical and safety physicians. The company declined to elaborate on the illness due to privacy concerns, adding that some participants in studies receive placebos and it is not always clear whether a person suffering a serious adverse event in a trial has received a placebo or the treatment. One month ago, AstraZeneca also suspended phase 3 clinical trials due to an unexplained illness but resumed trials after six days in the United Kingdom, Brazil, and South Africa under regulatory approval. Both Johnson & Johnson and AstraZeneca's vaccines are based on a type of adenovirus, and are part of the U.S. government's Operation Warp Speed program to support vaccine development.
- Following a rapid increase in the number of COVID-19 cases, the Malaysian government announced last Monday (October 12) that Kuala Lumpur, Selangor and Putrajaya will be put under a Conditional Movement Control Order (CMCO). The tightened restrictions will be enforced starting today (October 14) until October 27. During a press conference, the Senior Minister said that a special meeting with the National Security Council (NSC) has found that the cases in the three places have increased at an "alarming rate". Meanwhile, China has agreed to include Malaysia on a list of priority recipients for a COVID-19 vaccine once it is successfully developed. This was announced on Tuesday (October 13) by Malaysia's Foreign Affairs Minister during a joint news conference with the Chinese counterpart.
- Indonesia government said in a news that it has secured commitments for the delivery of 271.3 million doses of COVID-19 vaccines. Of that number, 30 million doses are expected to be ready by the end of this year. Coordinating Economic Minister Airlangga Hartarto, who also helms the national economic recovery and COVID-19 response team, said the ordered vaccines were produced by Chinese firms Cansino, Sinovac and Sinopharm. Airlangga also said that the government was in the process of securing 100 million doses of a COVID-19 vaccine from Britain's pharmaceutical firm AstraZeneca. He added that there was an order of priority for the vaccination of different groups of people, as stated in Presidential Regulation No. 99/2020 on vaccine procurement and vaccination to mitigate the COVID-19 pandemic. According to the regulation, frontline workers, from health workers and contact-tracing paramedics to military and law enforcement personnel, would be prioritized for vaccination. The second-priority group are religious and community leaders, local authorities at district, village, community and neighborhood units. The third priority group include teachers at various levels of education. The fourth group is government officials and legislatures council members. The fifth group is members of the Healthcare and Social Security Agency (BPJS Kesehatan) whose fees are paid by the government. The last group of more than 57 million is the general public. The Health Ministry announced 3,906 new confirmed COVID-19 cases on Tuesday, bringing the total number COVID-19 cases nationwide to 340,622.

- Philippines President's spokesperson said in the news today (October 14) that the Cabinet has approved recommendations to consider a "more incremental opening of businesses" by shortening curfew hours and arranging work shifts. Also approved, he said, was the "further gradual expansion of business capacity to 75 to 100 percent" to allow more people to return to work and consumers to buy more goods. It was also mentioned that the Cabinet agreed to identify "priority areas" to manage COVID-19 cases through prevention, detection, isolation and treatment of patients. The Philippine government also approved the gradual expansion of the age bracket of people who could go out, with the COVID-19 task force determining the age group that would be allowed to leave their homes. The implementation of these relaxed rules will still be accompanied by strict enforcement of health measures—wearing of masks, face shields, no eating and no talking, no symptomatic passengers, adequate ventilation and frequent disinfection. On Tuesday (October 13), the Department of Health (DOH) reported 1,990 additional coronavirus infections bringing the total number of COVID-19 cases to 344,713.

#### Travel Advisories (new update/s)

- Malaysia: Conditional Movement Control Order (CMCO) will be enforced in Kuala Lumpur, Selangor and Putrajaya effective 12.01 AM (Malaysia Time) on October 14 until October 27. Prohibited activities include inter-district travel and those who needed to make the journey will need to have letters from their employers or a working pass.
- Philippines: The government has approved a "one-seat-apart" rule on mass transport and allowed the expansion of the age bracket of people who can go out as part of efforts to reopen the economy amid the COVID-19 pandemic.

#### Cases and Deaths as of 14 October 2020

- As of October 14 (2PM, GMT+8), worldwide, there were **38,346,863** confirmed cases, including **1,097,148** deaths. Globally, Case Fatality Rate (CFR) is **2.86**.
- In **China**, there were **91,415** confirmed cases with **4,746** deaths, including deaths in Hong Kong (105) and Taiwan (7). Confirmed cases in China include confirmed cases in Hong Kong (5,202), Macau (92), and Taiwan (530).
- 795,744 confirmed cases** of COVID-19 have been reported in the ASEAN region with a total of **19,380 deaths**.
