

# Risk Assessment for International Dissemination of COVID-19 to the ASEAN Region

ASEAN Biodiaspora Virtual Center (ABVC)

as of September 28, 2020 (2:00 PM GMT+8)

## COVID-19: Highlights and Situation Overview

- Worldwide, there have been over 33.1 million cases. Global COVID-19 death toll passes 1 million on September 27. The United States has the highest death toll with more than 200,000 fatalities followed by Brazil, India, Mexico and Britain.
- Japan has reported a downward trend in the seven-day rolling average of new cases, reporting 346 as of September 26, compared to the peaks per day of 1,442, on August 10. Following these trends, health authorities have announced that Japan will reopen its borders to selected foreign visitors, effective on October 1. The relaxation of restrictions allows the entry of foreign nationals with permits to stay for three months or longer for purposes including engaging in medical, cultural, sports-related activities and business trips; however, tourism is still prohibited. Travellers will be required to have a COVID-19 negative test before entering Japan. After arrival, all individuals must enter under a self-quarantine for 14 days. On September 19, health authorities began lifting restrictions, increasing gathering sizes at sporting and cultural venues. Sporting events may go ahead with venues at 50% capacity, and larger cinemas and theatres are permitted reopen at 50% capacity. The majority of nonessential businesses have been permitted to reopen in the country. The use of face masks and physical distancing remains mandatory in public areas.
- Myanmar military (Tatmadaw) is preparing additional hospital facilities to provide treatment for approximately 1500 civilian patients in the region. Due to the recent spike in COVID-19 cases in the Yangon Region, health authorities are running out of space to isolate patients under investigation (PUI). With the Tatmadaw now involved, the Defence Service Institute will be converted to a hospital with 372 rooms.
- Philippines' Department of Health (DOH) has noted a downward trend in the weekly average number of new coronavirus disease 2019 (COVID-19) cases in the country. Health Undersecretary on Monday (September 28) said the average number of new cases has gone down to 1,000 to 1,200 compared to the previous average of 3,000 per week. The health authority, however, said the public should not be complacent as there are select areas that still experience spikes in COVID-19 cases. Public are still advised to follow the minimum health standards and remain vigilant. Philippines has surpassed 300,000 COVID-19 cases in the country as of September 27. A total of 2,995 new cases were reported, bringing the country's total number of cases to 304,226. Metro Manila remained the top source of new cases, with 1,065, followed by nearby provinces Cavite (297), Bulacan(180), Batangas (157), and Laguna (143).

### Travel Advisories (new update/s)

- Myanmar: According to Union of Myanmar Federation of Chamber of Commerce and Industry, under stay-at-home order, only registered vehicle and staff are allowed to travel between townships in Yangon. ID and QR passes will be required to pass from one town to another.

### Cases and Deaths as of 28 September 2020

- As of September 28 (2PM, GMT+8), worldwide, there were **33,175,789** confirmed cases, including **999,990** deaths. Globally, Case Fatality Rate (CFR) is **3.01**.

- In **China**, there were **91,012** confirmed cases with **4,746** deaths, including deaths in Hong Kong (105) and Taiwan (7). Confirmed cases in China include confirmed cases in Hong Kong (5,066), Macau (92), and Taiwan (510).
- **663,834 confirmed cases** of COVID-19 have been reported in the ASEAN region with a total of **16,178 deaths**.
