

Risk Assessment for International Dissemination of COVID-19 to the ASEAN Region

ASEAN Biodiaspora Virtual Center (ABVC)

as of July 29, 2020 (2:00 PM GMT+8)

COVID-19: Highlights and Situation Overview

- Worldwide, there have been over 16.7 million reported cases, and more than 660,000 deaths attributed to COVID-19. Globally, many countries are seeing a second rise in case numbers. In North America, the resurgence of infections was seen in recent weeks, mostly driven by new outbreaks in the US. In Europe, Spain's resurgence in cases has sparked fears of a more widespread rise in cases. In Asia, Japan's capital, Tokyo is driving a second increase in cases nationwide. In Latin America and Africa, cases continue to rise as South Africa, Egypt, and Brazil remain the largest regional hotspots.
- Six vaccine candidates have entered Phase 3 and Phase 2/3 combined clinical trials, involving large-scale efficacy tests. In the United States, the phase 3 mRNA-1273 study is targeting 30,000 healthy volunteers across 89 sites in the US. The BNT162b2 candidate in Phase 2/3 is recruiting 30,000 healthy volunteers from the US, Argentina, Brazil, and Germany. Two inactivated vaccine candidates developed in China are undergoing studies in Brazil and the United Arab Emirates, with an estimated recruitment number of around 10,000. In the UK, the AZD1222 candidate is now in Phase 2/3 in England and Phase 3 in Brazil and South Africa. Study locations were chosen on the basis of there being large ongoing outbreaks with the consequent potential ability to determine a significant protective effect of the vaccine candidate under trial within a suitable timeframe. In Australia, the live-attenuated BCG vaccine previously approved for tuberculosis is now under Phase 3 trial for COVID-19, with estimated recruitment of 10,000 healthcare workers in Australia.
- Indonesia's official tally of COVID-19 cases has reached 102,051 (the highest in the ASEAN Region) after the government recorded 1,748 new cases on Tuesday (July 28). The latest figures continue the trend of increasing numbers of confirmed cases in Jakarta in recent weeks following the city's decision to gradually relax restrictions and reopen businesses and offices under health protocols from June 4. However, the national COVID-19 task force head said on Monday that the government would allow the reopening of schools outside green zones or the areas with the lowest risk of COVID-19 transmission. Education and Culture Ministry will further announce which areas would be permitted to reopen their schools.
- Philippines' health authorities warned hospitals and infirmaries' risk getting overwhelmed as admissions are rising for COVID-19, including other illnesses. According to Department of Health's authority, COVID and non-COVID beds are close to 50% capacity nationwide, falling in the Health Department's "warning zone". While bed occupancy and ventilator usage nationwide are "manageable," intensive care and ward beds are in the higher "danger zone" category for the capital region and neighboring provinces south of Manila with occupancy above 70%. As of July 28, the Philippines added 1,678 new cases, bringing total count to 83,673, the second-highest in the ASEAN region.
- Thailand's Minister of Tourism and Sports is reassuring Thais by explaining that all foreigners, regardless of their status or origins, will have to serve a mandatory 14-day quarantine, at least "in the foreseeable future". Thailand officials are currently preparing Phase 6 of the re-opening of the country, loosening the restrictions imposed in April. The next phase, posed for introduction in early August, will allow migrant workers, film production crews and Thailand Elite Visa holders to return to the country amongst other categories that have previously been approved for a return to the country. Thailand has recorded no locally

transmitted cases of COVID-19 for over 2 months but continues to identify newly infected Thai repatriates who have flown back from overseas. All are being identified whilst serving their 14-day quarantine.

- Vietnam's government today (July 29) warned health authorities in the capital Hanoi to prepare for a potential outbreak of COVID-19 after media reported the first suspected coronavirus case in months. A staff member at a pizza restaurant in Hanoi who recently returned from Danang tested positive for COVID-19 according to a media report. It added that authorities had locked down the restaurant and disinfected the premises.

Travel Advisories (new update/s)

- Indonesia: State-owned train operator PT Kereta Api Indonesia (PT KAI) has started providing rapid testing at several train stations in a bid to boost ridership and ensure safe protocols for passengers. Passengers of long-distance trains are required to bring negative COVID-19 polymerase chain reaction (PCR) or non-reactive rapid test results that are valid for 14 days at the time of the trip.
- The Malaysian and Singapore governments have agreed to re-open the Straits of Johor border (the land bridges linking Malaysia and Singapore) from August 17. These agreements allow up to 2,500 commuters to travel between both countries for the purpose of work or official business. Those who fall into Reciprocal Green Lane and Periodic Commuting Arrangement categories can submit applications from August 10, with travel commencing on August 17.
- Vietnam: As of July 28, Vietnam government has suspended all flights to and from Danang for 15 days after at least 14 cases of COVID-19 have been detected in the city. All bus and train services to and from Danang have also been suspended.

Cases and Deaths as of 29 July 2020

- As of July 29 (2PM, GMT+8), worldwide, there were **16,771,667** confirmed cases, including **665,519** deaths. Globally, Case Fatality Ratio (CFR)* is **3.97**.
- In **China**, there were **87,357** confirmed cases with **4,664** deaths, including deaths in Hong Kong (23) and Taiwan (7). Confirmed cases in China include confirmed cases in Hong Kong (2,885), Macau (46), and Taiwan (467).
- **248,588 confirmed cases** of COVID-19 have been reported in the ASEAN region with a total of **7,003 deaths**.
