

# Risk Assessment for International Dissemination of COVID-19 to the ASEAN Region

ASEAN Biodiaspora Virtual Center (ABVC)

as of September 2, 2020 (2:00 PM GMT+8)

## COVID-19: Highlights and Situation Overview

- Worldwide, there have been over 25.8 million cases and more than 857,000 deaths attributed to COVID-19. The countries most affected by the virus globally include the United States (>6.2 million), Brazil (>3.9 million), and India (>3.7 million). Cases have been rising exponentially in India. The country took almost six months to reach 1 million cumulative cases, another three weeks to reach 2 million, and only 16 additional days to reach 3 million. In addition, on August 31, AstraZeneca announced they had started Phase 3 trials of a coronavirus vaccine in the United States, thereby becoming the third company to start late-stage trials of a SARS-CoV2 vaccine in the United States. AstraZeneca's Phase 3 trials are currently ongoing in Britain, Brazil, and South Africa with further trials planned for Japan and Russia. In addition, rivals Moderna and Pfizer/BioNTech have already begun Phase 3 trials of their vaccine candidates in the United States. Furthermore, another vaccine candidate developed by Sinovac Biotech, a private company in China, has been granted emergency use as part of a program in China to vaccinate high-risk groups such as medical staff.
- The Philippines' President announced on Monday night (August 31) that Metro Manila will remain under general community quarantine (GCQ) until September 30. Researchers studying the pandemic in the country observed that cases are still increasing in the country, though at an average of some 3,721 cases per day from August 23 to 29 is lower than the 4,000 new cases reported daily from August 2 to 22. Starting September 1, the community quarantine levels across the country will last for a month, instead of just two weeks. The GCQ that will be implemented starting September will be less strict than the GCQ implemented from August 19 to 31. Non-contact gyms, drive-in cinemas, internet cafes, as well as personal grooming services were once again allowed to operate in areas under GCQ since yesterday (September 1). The Philippines now has 224,264 confirmed cases of the coronavirus disease – the highest in Southeast Asia – as the Department of Health (DOH) reported 3,483 new cases on Tuesday, September 1.
- Myanmar's Ministry of Health and Sports has reported 32 new COVID-19 cases on September 1, bringing the total number of cases to 919. The ministry has announced on September 1 that 7 townships in the commercial capital (Thingangyun, Insein, North Okkalapa, Thaketa, Hlaing, Pazundaung and Mingaladon) will have to follow stay-home-orders which will be effective today at 8:00AM.
- South Korean health authorities said on September 2 that more than 40% of new COVID-19 cases in South Korea are being found in people over the age of 60, contributing in part to a surge in the number of COVID-19 patients who are severely or critically ill. The Korea Centers for Disease Control and Prevention reported 267 new cases as of midnight on Tuesday, a slight increase over the day before. Overall, South Korea has reported 20,449 cases. The number of severely or critically ill patients stood at 124 on Wednesday.
- Wuhan, ground zero for COVID-19 epidemic, has now reopen all schools. Students were advised to wear masks to and from school and avoid public buses or trains if possible. Nearly 1.4 million students resumed classes at around 2,800 kindergartens, primary and middle schools across the city on September 1. City officials said last week that schools have drawn up plans to switch back

to online teaching should new outbreaks emerge. Students were advised to wear masks to and from school and avoid public buses or trains if possible.

#### Travel Advisories (new update/s)

- Malaysia: Malaysia announced on Tuesday, September 1, that travelers with long-term passes coming from the Philippines will be barred from entering the country. The decision, which takes effect on September 7, covers long-term pass holders including those with permanent resident status, Malaysia My Second Home pass holders, as well as expatriates and professional visit pass holders. Foreign students and spousal visa holders are also covered by the ban. Malaysia's latest travel restrictions were also imposed on Indonesia and India after both countries reported increasing infections.
- Singapore and Brunei agreed on 'green lane' for business and official travel. This was announced in a joint press statement on Tuesday (September 1) by the foreign affairs ministries of Singapore and Brunei. Travellers from Singapore and Brunei must have remained in the respective countries for at least 14 days before departure, and they must take a COVID-19 test at least once 72 hours before the flight. For travellers from Brunei, they will have to apply for a SafeTravel Pass through the receiving enterprise or government agency in Singapore.

#### Cases and Deaths as of 2 September 2020

- As of September 2 (2PM, GMT+8), worldwide, there were **25,411,401** confirmed cases, including **181,900** deaths. Globally, Case Fatality Ratio (CFR)\* is **3.34**.
- In **China**, there were **90,432** confirmed cases with **4,730** deaths, including deaths in Hong Kong (89) and Taiwan (7). Confirmed cases in China include confirmed cases in Hong Kong (4,811), Macau (92), and Taiwan (488).
- **473,863 confirmed cases** of COVID-19 have been reported in the ASEAN region with a total of **11,353 deaths**.
