

Risk Assessment for International Dissemination of COVID-19 to the ASEAN Region

ASEAN Biodiaspora Virtual Center (ABVC)

as of July 8, 2020 (2:00 PM GMT+8)

COVID-19: Highlights and Situation Overview

- Worldwide, there have been more than 11.7 million cases, and over 540,000 deaths attributed to COVID-19. South Africa currently has the highest total confirmed cases on the African continent. The United States continues to lead in the highest number of infections globally, followed by Brazil, India, and Russia. The Americas represent the highest proportion of cases with close to 6 million cases, followed by Europe with almost 3 million and the Eastern Mediterranean region with over 1 million cases.
- WHO encourages Member States to invest in and build longer-term health emergency preparedness during the COVID-19 pandemic. This document is to help Member States build on actions taken during the COVID-19 pandemic to improve national medium- to long-term preparedness for future threats. It maps COVID-19 preparedness and response actions to the building of sustainable International Health Regulations (2005) core capacities; locates relevant supporting WHO resources that are not specific to the pandemic; and advocates for the conscious and effective allocation of COVID-19 funds to also meet countries' longer-term needs (WHO Situation Report 169).
- As a major United Nations forum prepares to assess progress towards a fairer future for people and the planet, UN Secretary-General António Guterres has warned that each of the Goals of the 2030 Agenda for Sustainable Development is being impacted by the COVID-19 pandemic. The report notes that the global crisis resulting from the spread of COVID-19, has had a major effect on these targets, with health systems overwhelmed, businesses shut down, and 1.6 billion students kept out of school; the poor and vulnerable have borne the brunt of the pandemic, and tens of millions are expected to experience extreme hunger and poverty (WHO Situation Report 168).
- Indonesia's Education and Culture Ministry and Tourism and Creative Economy Ministry have released joint guidelines for the cultural and creative industries as they resume activities amid the COVID-19 pandemic. The joint ministerial decree (SKB) allows public places such as museums, movie theaters and galleries to reopen and for production houses, actors and performers to resume their normal activities with the permission of the local government.
- Lao and Vietnamese leaders discussed post-pandemic cooperation. Lao's Prime Minister Thongloun Sisoulith headed the delegation that traveled to Danang from 5-6 July 2020 at the invitation of Vietnamese Prime Minister, Nguyen Xuan Phuc. The two prime ministers said they greatly appreciated the longstanding special friendship, solidarity, and trust between parties, governments, and nations of Laos and Vietnam. They spoke and agreed cooperation in the immediate future, stating that trade in goods and services and people-to-people exchanges, while air routes should be reopened at the earliest possible time. The two sides have agreed to accelerate the successful implementation of signed agreements and to strengthen bilateral cooperation in the areas of defense, security, environment, trade, investment, and finance.
- A resurgence in COVID-19 cases is threatening to derail efforts by the Philippines to restart its economic activities. The Philippines has seen infections rising again since lockdown curbs were eased on June 1, to more than 2,000 in recent days from about 500 when the country was still on lockdown. On Tuesday (July 7), the Health Ministry reported 1,540 new COVID-19 cases, bringing the country's total to 47,873. It now has the second highest number of cases in South-east Asia, next to Indonesia.

- Singapore's Minister for National Development said on July 7 that about half of the unlinked COVID-19 community cases detected after the "circuit breaker" was lifted are from the construction sector or linked to construction-related activities. According to the minister, about 60 percent of the community cases since Phase 1 of Singapore's reopening are linked cases, while about 40 percent are unlinked. The vast majority of the unlinked cases that were from the construction sector were identified through "active surveillance".
- A week after the re-opening of Thailand's schools and nightlife venues, the government says it's feeling more confident as the country records no new locally-spread cases of Covid-19. The final phase of re-opening was seen as the riskiest, involving venues such as pubs and nightclubs, where social distancing might prove more of a challenge. Thailand has now gone more than 43 days without a case of community transmission, only finding new cases in state quarantine among those repatriated from overseas.

Travel Advisories (new update/s)

- Laos: The National Taskforce Committee for Covid-19 Prevention and Control has declared on July 8 that all travelers, whether residents or Lao citizens, must carry a medical certificate before visiting another country. According to the taskforce, travelers who fail to present a valid medical certificate could be denied entry at their destination.
- Philippines: On July 7, the Philippine government has lifted the travel restrictions on non-essential outbound travels for Filipinos amid the COVID-19 pandemic. Departing Filipinos need to submit confirmed round-trip tickets for those traveling on tourist visas, and must have adequate travel health insurance to cover rebooking and accommodation expenses, should they end up stranded abroad. In addition, departing Filipinos must also make sure that they are allowed entry by the destination country, in accordance with their travel, health, and quarantine restrictions. They also need to execute a declaration acknowledging the risks involved in traveling. Upon their return to the Philippines, Filipino travelers will be required to take a reverse-transcription polymerase chain reaction (RT-PCR) or swab test for the COVID-19 and a mandatory facility-based quarantine. In addition, a commuter railway line in the Philippine capital will be shut for five days starting Tuesday (July 7) after nearly 200 employees, including 15 ticket sellers, tested positive for the coronavirus.
- Thailand: The Civil Aviation Authority of Thailand has announced the delay after several countries that were considered for the "bubble travel" scheme, have now seen resurgences of the virus. The CAAT's director-general says even though talks about travel bubble arrangements are ongoing with countries including China, Japan, and South Korea, the scheme will be put on hold due to a spike in infections.

Cases and Deaths as of 08 July 2020

- As of July 08 (2PM, GMT+8), worldwide, there were **11,824,837** confirmed cases, including **543,228** deaths. Globally, Case Fatality Ratio (CFR)* is **4.59**.
- In **China**, there were **85,360** confirmed cases with **4,648** deaths, including deaths in Hong Kong (7) and Taiwan (7). Confirmed cases in China include confirmed cases in Hong Kong (1,300), Macau (46), and Taiwan (449).

- **172,094 confirmed cases** of COVID-19 have been reported in the ASEAN region with a total of **4,832 deaths**.

REGION	COUNTRY	FIRST CONFIRMED CASE(S)	LATEST REPORT ON CONFIRMED CASE(S)	TOTAL CONFIRMED CASES (NEW CASES)	TOTAL DEATHS (NEW DEATHS)	CASE FATALITY RATIO
