

Risk Assessment for International Dissemination of COVID-19 to the ASEAN Region

ASEAN Biodiaspora Virtual Center (ABVC)

as of October 9, 2020 (2:00 PM GMT+8)

COVID-19: Highlights and Situation Overview

- Worldwide, there have been over 36.6 million cases and more than 1.06 million deaths attributed to COVID-19.
- World Health Organization (WHO) Director-General said that a vaccine against COVID-19 may be ready by year-end. The Director-General called for solidarity and political commitment by all leaders to ensure equal distribution of vaccines when they become available. Nine experimental vaccines are in the pipeline of the WHO's COVAX global vaccine facility that aims to distribute 2 billion doses by the end of 2021.
- China said on Friday (October 9) it has formally joined the global COVID-19 vaccine facility known as COVAX, becoming the biggest economy to back the initiative to date. Chinese Foreign Ministry spokeswoman Hua Chunying said in a statement that China has ample COVID-19 vaccine manufacturing capabilities and will prioritize supplying developing countries when vaccines are ready. The COVAX facility, led by the World Health Organization (WHO), aims to deliver at least 2 billion doses of vaccines by the end of 2021. China will continue to focus on ensuring that developing countries have "equal access to appropriate, safe and effective vaccines". China also pledged to strengthen vaccine cooperation with relevant countries through the COVAX network.
- Indonesia's National COVID-19 Task Force Chief has inaugurated on Thursday (October 8) the regional hospital to treat COVID-19 patients in isolation in Biak Numfor, Papua. The hospital has a capacity of 50 patients with a maximum of 10 slots allotted for special treatment at any given time. It will serve the people of Biak Island and its surrounding areas, such as Japen Island. The Health Ministry announced 4,850 new confirmed COVID-19 cases on Thursday (October 8), bringing the total number of COVID-19 nationwide to 320,564.
- Singapore Ministry of Manpower (MOM) and Health Promotion Board (HPB) said on Thursday (October 8), Singapore will set up more COVID-19 regional screening centres and testing facilities in dormitories, as well as offer night swabs for workers to "accommodate their work cycles." There are currently 20 regional screening centres across Singapore, with 14 centres facilitating the rostered routine testing of migrant workers living in dormitories, as well as workers from the construction, marine and process sectors.
- Thailand's Health Ministry is seeking to reduce the mandatory quarantine period for foreign tourists, currently mandated at 14 days, to 10 days. The reduction would be assessed after one month and, if successful, quarantine could be further reduced to 7 days. However, this reduction would only apply to those arriving from countries considered "safe" from Covid-19. Those arriving from high-risk countries would still be subject to 14 days' quarantine. It's understood the ministry plans to submit its proposal to the Centre for COVID-19 Situation Administration within the next 2 weeks, and has asked the Disease Control Department to compare differing quarantine periods of 7, 10, and 12 days, to determine their effectiveness.

Travel Advisories (new update/s)

- Japan plans to remove a ban on overseas travel next month to 12 countries and regions, including China and Singapore according to a media on October 8. Other countries include Taiwan, Australia, New Zealand, South Korea, Vietnam and Malaysia. The country will scale back a requirement of two weeks of self-quarantine for some business travellers. The new rules apply to returning

Japanese and holders of long-term visas, some of whom will be exempted from quarantine requirements, depending on airport testing capacity. Japan has already eased two-way travel curbs with nations such as South Korea and Vietnam, while allowing entry from October for long-term residents from any country.

Cases and Deaths as of 09 October 2020

- As of October 09 (2PM, GMT+8), worldwide, there were **36,332,704** confirmed cases, including **1,059,382** deaths. Globally, Case Fatality Rate (CFR) is **2.91**.
- In **China**, there were **91,248** confirmed cases with **4,746** deaths, including deaths in Hong Kong (105) and Taiwan (7). Confirmed cases in China include confirmed cases in Hong Kong (5,144), Macau (92), and Taiwan (523).
- **752,066 confirmed cases** of COVID-19 have been reported in the ASEAN region with a total of **18,454 deaths**.
