ASEAN ECONOMIC COMMUNITY

54. We expressed concern over the significant challenges faced by the region’s economy in the face of COVID-19. Within the region, we noted that ASEAN’s economic growth slowed down to 4.6% in 2019 from 5.2% the previous year, amounting to a combined GDP of USD3.2 trillion. We noted ASEAN’s total merchandise trade reached USD2.8 trillion in 2019, of which 22.5 per cent was intra-ASEAN; and ASEAN’s total services trade reached USD844.6 billion in 2019, of which 14.8 per cent was intra-ASEAN. On investment, we noted that inflows of foreign direct investments (FDI) to ASEAN reached USD160.6 billion in 2019, of which 13.9 per cent was intra-ASEAN. We noted with concern, however, that an unprecedented recession is projected in 2020 due to the pandemic, with pressures expected on trade and investment as shown by preliminary data. Despite these challenges, we are confident that our macroeconomic fundamentals remain strong, and we are committed to work together to mitigate the economic impact of COVID-19, keep markets open, and continue building our region’s collective resilience and competitiveness towards a swift recovery by 2021.

55. We welcomed the good progress made in the achievement of the 13 Priority Economic Deliverables for Viet Nam’s ASEAN Chairmanship under the three strategic thrusts of (i) Promoting Intra-ASEAN Economic integration and connectivity; (ii) Deepening ASEAN’s Engagement with the Global community for Peace and Sustainable Development and (iii) Enhancing the Responsiveness and Institutional capacity of ASEAN. We noted that the ASEAN Ministers on Energy Meeting are framing the region’s energy transitions to a lower carbon path through the forthcoming release of the 6th ASEAN Energy Outlook and adoption of the ASEAN Plan of Action for Energy Cooperation Phase 2 (2021-2025), which focuses on accelerating energy transition and strengthening energy resilience through greater innovation and cooperation. In addition, it will include new regional targets for reducing energy intensity and for increasing renewables share in power generation by 2025 and assess potential business models for privately financed national transmission infrastructure to complement efforts to expand regional power integration and electricity trade. We also noted the progress in the development of a Roadmap and Action Plan to promote smart manufacturing development in ASEAN, the Best practice Guidelines for 5G Ecosystem Development in ASEAN, the on-going discussions to work towards lowering international mobile roaming (IMR) in ASEAN, and the Roadmap on Combating Illegal, Unreported and Unregulated (IUU) fishing in the ASEAN Region for the period 2020-2025.

We also welcomed the endorsement of the Guideline on ASEAN Local Currency Settlement Framework that has resulted in the conclusion of a number of bilateral local currency settlement arrangements between interested ASEAN Member States. More importantly, we commended the expansion of the Local Currency Settlement Framework between Indonesia, Malaysia and Thailand which will be effective by the end of 2020. We agreed that information sharing on the use of local currencies in intra-ASEAN commercial activities should be continuously conducted to encourage bilateral local currency settlement, thus, eventually contributing to increasing the volume of intra-ASEAN trade and investment in the future. We noted the progress made in the establishment of the ASEAN Cybersecurity Resilience and Information Sharing Platform (CRISP) as a platform for sharing of threat intelligence and best practices related to cybersecurity as well as efforts to finalise a Memorandum of Understanding (MOU) to operationalise information sharing amongst the Digital and Network (DTN) members. We noted the adoption of the ARF Statement on Enhancing Cooperation to Prevent and Respond to Infectious Disease Outbreaks, ARF Statement on the Treatment of Children Recruited by or Associated with Terrorist Groups, and
ARF Statement on Cooperation in the Field of Security of and in the Use of ICTs in the Context of International Security. We also noted with satisfaction that the Guide to ARF Processes, Procedures, Practices and Protocol was approved by the 53rd AMM and encouraged all ARF Participants to support its implementation to further improve the effectiveness of the ARF process.

ASEAN Outlook on the Indo-Pacific

82. We reaffirmed the importance of the ASEAN Outlook on the Indo-Pacific as a guide for ASEAN’s engagement in the wider Asia-Pacific and Indian Ocean regions. We also agreed to continue promoting the objectives and principles contained in the Outlook, and encouraged external partners to support and undertake cooperation with ASEAN, in accordance with these principles, on the four key areas of maritime cooperation, connectivity, Sustainable Development Goals (SDGs) and economic and other possible areas of cooperation, including through practical projects to promote win-win cooperation as well as mutual trust, mutual respect, and mutual benefit through ASEAN-led mechanisms.

Timor-Leste’s Application for ASEAN Membership

83. We were encouraged to note that despite the pandemic, progress continued to be made in the process of ASEAN’s consideration on Timor-Leste’s application for ASEAN Membership through the finalization of the Assessment Report of the APSC Fact-Finding Missions (FFM) to Timor-Leste as well as the convening of virtual consultations between the ASCC Pillar with Timor-Leste. We looked forward to the conduct of the FFMs to Timor-Leste by the AEC and ASCC Pillars when circumstances allow, after which a comprehensive assessment on Timor-Leste’s application for ASEAN membership would be undertaken. We also noted the progress made with regard to the deliberations on the provision of capacity building assistance to Timor-Leste, as well as their participation in non-policy making meetings/activities of ASEAN.

REGIONAL AND INTERNATIONAL ISSUES

South China Sea

84. We reaffirmed the importance of maintaining and promoting peace, stability, security, safety, and freedom of navigation in and overflight above the South China Sea and recognised the benefits of having the South China Sea as a sea of peace, stability, and prosperity, especially during this time in the common fight against COVID-19. We underscored the importance of the full and effective implementation of the 2002 Declaration on the Conduct of Parties in the South China Sea (DOC) in its entirety. We warmly welcomed the continuously improving cooperation between ASEAN and China, and were encouraged by the progress of the substantive negotiations towards the early conclusion of an effective and substantive Code of Conduct in the South China Sea (COC) consistent with international law, including the 1982 UNCLOS within a mutually-agreed timeline. We noted efforts undertaken to continue the second reading of the Single Draft COC Negotiating Text (SDNT)
despite evolving pandemic situation. We emphasised the need to maintain and promote an environment conducive to the COC negotiations, and thus welcomed practical measures that could reduce tensions and the risk of accidents, misunderstandings and miscalculation. We stressed the importance of undertaking confidence building and preventive measures as well as practical and mutually beneficial cooperation to enhance, among others, trust and confidence amongst parties; and we reaffirmed the importance of upholding international law, including the 1982 UNCLOS.

85. We discussed the situation in the South China Sea, during which concerns were raised by some Leaders on the developments, including land reclamations, activities and serious incidents in the area, which have eroded trust and confidence, increased tensions, and may undermine peace, security, and stability in the region. We reaffirmed the need to enhance mutual trust and confidence, exercise self-restraint in the conduct of activities that would complicate or escalate disputes and affect peace and stability and avoid actions that may further complicate the situation. We further reaffirmed the need to pursue peaceful resolution of disputes in accordance with the universally recognised principles of international law, including the 1982 UNCLOS. We reaffirmed that the 1982 UNCLOS is the basis for determining maritime entitlements, sovereign rights, jurisdiction and legitimate interests over maritime zones, and the 1982 UNCLOS sets out the legal framework within which all activities in the oceans and seas must be carried out. We emphasized the importance of non-militarization and self-restraint in the conduct of all activities by claimants and all other states, including those mentioned in the DOC that could further complicate the situation and escalate tensions in the South China Sea.

Developments in the Korean Peninsula

86. We stressed the importance of continued peaceful dialogue amongst all concerned parties in order to realise lasting peace and stability in a denuclearised Korean Peninsula. We urged all concerned parties to resume peaceful dialogue and continue working towards the realisation of lasting peace and stability in a denuclearised Korean Peninsula, including through the full and expeditious implementation of the Panmunjom Declaration, the Pyongyang Joint Declaration and the Joint Statement by the US and DPRK leaders. We reiterated our commitment to the full implementation of all relevant United Nations Security Council Resolutions and noted international efforts to bring about the complete, verifiable, and irreversible denuclearisation of the Korean Peninsula. We reiterated our readiness to play a constructive role, including through utilising ASEAN-led platforms such as the ARF in promoting a conducive atmosphere to peaceful dialogue amongst the concerned parties.

Situation in the Middle East

87. We noted the developments in the Middle East region. We reiterated the need for a comprehensive, just, and sustainable solution to the Israeli-Palestinian conflict in order to achieve peace and stability in the Middle East region. We urged both sides to actively take positive steps to allow for negotiations to gain traction and work together towards the resumption of negotiations to achieve an enduring
peace. We fully support the legitimate rights of the Palestinian people for an independent State of Palestine with the realisation of two states, Palestine and Israel living side by side in peace and security based on pre-1967 borders, with East Jerusalem as its capital.
