

# Risk Assessment for International Dissemination of COVID-19 to the ASEAN Region

ASEAN Biodiaspora Virtual Center (ABVC)

as of January 20, 2021 (2:00 PM GMT+8)

## COVID-19: Highlights and Situation Overview

- Worldwide, there have been over 96.4 million cases and more than 2.05 million deaths attributed to COVID-19.
- Malaysia's Senior Minister Ismail Sabri Yaakob said on Tuesday (January 19) that all states in Malaysia, with the exception of Sarawak, will be placed under Movement Control Order (MCO). In a press conference, the minister said that MCO will be implemented in six states, including Kedah, Perak, Pahang, Terengganu, Perlis and Negeri Sembilan effective this Friday (January 22) until February 4.
- The Philippines' Department of Health reported today today (January 20) that a total of 11 individuals who came in contact with the 29-year-old Filipino who tested positive for the more contagious variant of COVID-19, B.1.1.7, have tested positive for COVID-19. The Philippine Genome Center is expected to release this week the result of the sequencing study on the samples, which would determine whether the contacts who tested positive for the disease also carry the UK variant.
- Brunei entered its 6<sup>th</sup> day without new COVID-19 cases as of January 20, keeping its total number of cases at 174 with 2 active cases receiving treatment at the National Isolation Centre. The country also recorded no local transmission of the virus for 257 consecutive days.
- According to the Japan Health Ministry on Monday (January 18), Japanese doctors have detected a fast-spreading coronavirus variant first discovered in Britain in three people who had not travelled there. The three, aged from their 20s to their 60s and living in Shizuoka prefecture, about 200km west of Tokyo, first had symptoms in early January. A health ministry official said that the authorities are looking into how the three became infected but that there was no proof yet that the variant first detected in Britain was spreading in Shizuoka now. Meanwhile, Japan's southernmost prefecture, Okinawa, declared a state of emergency on Tuesday (January 19) over the COVID-19 pandemic, as the country grapples with a surge in infections six months before it is set to host the Summer Olympics. Okinawa Governor Denny Tamaki said emergency measures include asking restaurants and bars to close by 8 p.m. and residents to refrain from non-urgent outings after 8 p.m. The emergency is scheduled to last until February 7.

### Vaccine Update

- The Philippines has allowed China's Sinovac Biotech Ltd to hold clinical trials for its coronavirus vaccine. The Philippine Food and Drug Administration is still waiting for Sinovac to submit documents on late-stage trials before processing its separate application for emergency use in the country.
- Thailand's Food and Drug Administration (FDA) is expected to approve the Oxford-AstraZeneca COVID-19 vaccine for emergency use this week. The FDA is examining documents as part of the registration process and to declare the vaccine's efficacy and safety. The local roll out would start with vulnerable groups who are in the 5 coastal provinces under maximum control to contain the coronavirus – Samut Sakhon, Trat, Chon Buri, Chanthaburi and Rayong.

### Travel Advisories (new update/s)

- Thailand: According to the Phuket Governor on Monday (January 18), travellers arriving Phuket from "high risk" areas are required to take a swab test by the staff at emergency operation centres (EOC) or show the test result document endorsed by the EOC staff made within 72 hours of their arrival. The revised order is effective from January 18 until January 31. Meanwhile, travellers who are on a brief business trip to Phuket need to show certificates from their employers describing the reason and necessity of their trips. If they want to leave their accommodations, they have to make a request to the EOC and clearly explain the reason as well as the time and destination.

## Cases and Deaths as of 20 January 2021

- As of 20 January (2PM, GMT+8), worldwide, there were **96,669,204** confirmed cases, including **2,063,912** deaths. Globally, Case Fatality Rate (CFR) is **2.1**.
- In **China**, there were **99,095** confirmed cases with **4,806** deaths, including deaths in Hong Kong (164) and Taiwan (7). Confirmed cases in China include confirmed cases in Hong Kong (9,721), Macau (46), and Taiwan (868).
- 1,806,025 confirmed cases** of COVID-19 have been reported in the ASEAN region with a total of **40,310 deaths**, with a CFR of **2.2**.

\*The calculated CFR is based on reported deaths and reported case counts, and does not account for recovered cases over time or rate of testing in a particular region

\*\*Rt Transmission Rate: the average number of secondary cases caused by each infectious individual, based on the daily incidence of new cases over the previous seven days

# COVID-19 Epi curve among ASEAN Countries
