

Risk Assessment for International Dissemination of COVID-19 to the ASEAN Region

ASEAN Biodiaspora Virtual Center (ABVC)

as of November 23, 2020 (2:00 PM GMT+8)

Canada

COVID-19: Highlights and Situation Overview

- Worldwide, there have been over 58.9 million cases and more than 1.39 million deaths attributed to COVID-19.
- As the central government in Indonesia plans to reopen schools for the remainder of the 2020-2021 school year, the National Child Protection Commission (KPAI) is urging it to focus on preparing infrastructure and protocols for students returning to classes amid the COVID-19 pandemic. The KPAI believes the government is unprepared and has evaded its responsibility by making regional administrations responsible for taking care of the necessary preparations. The central government issued a joint ministerial decree (SKB) on Friday that allowed regional administrations in all zones to reopen schools. The regional administrations were given the authority to reopen schools as the central government believes they understand the situations in their respective regions best. Furthermore, the local administrations will also have to fund the infrastructure preparation and swab test kits from their own budgets. The Health Ministry reported 4,360 new confirmed COVID-19 cases on Sunday (November 22), bringing the total number of cases nationwide to 497,668.

Vaccine Update

- PT Bio Farma has announced that the state-owned pharmaceutical company plans to submit its interim results from the third and final trial phase of the Sinovac vaccine to the Indonesian Food and Drug Monitoring Agency (BPOM) in January 2021. The interim report is to include the results of the phase three clinical trials of the vaccine conducted in China and Brazil, which started prior to the trials in Indonesia. The interim results are intended to provide a basis for the BPOM to approve the issuance of emergency use authorization (EUA) for the vaccine.
- India's health minister said on Sunday (Nov 22) a locally developed COVID-19 vaccine candidate could complete its final trials in a month or two, raising hopes for a rapid roll-out in a country with the world's second-highest number of infections. The state-run Indian Council of Medical Research (ICMR) and privately held Bharat Biotech this month started third-stage trials of COVAXIN, in a process that would involve 26,000 volunteers. Indian officials have said they expect to rely on COVAXIN and four other locally-tested candidates to control COVID-19, as they do not expect early access to sufficient quantities of those developed by Pfizer and Moderna.

Travel Advisories (new update/s)

- Singapore: A travel bubble between Hong Kong and Singapore, due to launch on Sunday, will be postponed for two weeks after the Chinese controlled city reported a jump in daily COVID-19 cases. The travel bubble, which allows a limited number of passengers to fly both ways without having to go through quarantine, will be revisited in early December. Under the "travel bubble" arrangement, people would be allowed to travel between the two cities without observing quarantine but must take a COVID-19 test before departure and upon arrival. There would be no restrictions on the purpose of travel.

- Malaysia: The Malaysian government has approved a domestic travel bubble programme involving green zones and the conditional movement control order (CMCO) is set to be lifted in four states. Senior Minister Yaakob said in a press conference on Friday (November 20) said that the National Security Council (NSC) has decided to end the CMCO in Johor, Kedah, Melaka and Terengganu, with the exception of a few districts.

Cases and Deaths as of 23 November 2020

- As of November 23 (2PM, GMT+8), worldwide, there were **59,001,651** confirmed cases, including **1,393,966** deaths. Globally, Case Fatality Rate (CFR) is **2.36**.
- In **China**, there were **92,723** confirmed cases with **4,749** deaths, including deaths in Hong Kong (108) and Taiwan (7). Confirmed cases in China include confirmed cases in Hong Kong (5,629), Macau (46), and Taiwan (617).
- 1,114,366 confirmed cases** of COVID-19 have been reported in the ASEAN region with a total of **26,207 deaths**.
