

Project Title	Strategies of Case Management: Challenges, Solutions and Innovation
Project Area	Enabling Action
Beneficiary Countries	CLMV
Source of Funding	Singapore
Approved Budget	77,000
Project Description	This course will present the various approaches to case management aimed at training participants to identify and apply various case management strategies as according to the needs of their jurisdiction. In particular, it will look at the Singapore Judiciary's experience in eliminating the backlogs in the early 1990s and its proactive and differentiated case management. IT systems in their own judiciary to better manage the registration, filing, retrieval and data mining of court cases.
Objective	This course aims to provide training to CLMV countries to incorporate good regulatory practices which they are already adopting, and match them with strong legal and judicial practices and systems. It will contribute towards the development of useful systems in CLMV countries that will support the attainment of legal and judicial excellence and facilitate integration with the systems of other ASEAN countries.
Implementation Status	The trainings are going to be conducted on 9-12 October 2018; 23-26 October 2018; 20-23 November 2018; and 4-7 December 2018.
