### Smart City Action Plan

#### VISION

To improve the urban environment to enhance citizen's quality of life.

#### FOCUS AREAS

- Build efficient and green infrastructure for current and future growth
- Adopt best practices in public space design to create a healthy environment and boost economic growth
- Develop a civic engagement through social media or applications to crowd source suggestions for the improvement of public space and public transport

#### STRATEGIC TARGETS

- Improve pedestrianisation with repurposed walkable paths
- Redesign public spaces for enhanced public accessibility by people and businesses
- Improve the efficiency of Phnom Penh Public Bus Services by 50% modal share
- 

#### Smart City Project 1

### 11 Sidewalks Rejuvenation Project

#### OVERVIEW

Phnom Penh aims to increase pedestrianisation through the rejuvenation, restoration and repurposing of the sidewalks for 11 boulevards. The project is expected to deliver traffic de-congestion and public space benefits by managing unlicensed street vendors and illegal parking.

**SUPPORT REQUIRED**

- Traffic systems expertise, able to work within limited traffic data conditions
- Funding, including to incentivise street vendors to relocate.
- Stakeholder engagement management, including with all key stakeholders- Ministry of Finance, Transport Authority, Local Authorities, local community and shared mobility providers

**Smart City Project 2**  
**Improving efficiency of Phnom Penh Public Transit**

**OVERVIEW**

Improve urban public transport mobility and active mobility (pedestrian paths)

**SUPPORT REQUIRED**

- Funding
- Technical support for urban mobility
