Message from the Secretary-General of ASEAN

This publication intends to provide users with graphical information on important developments, characteristics and patterns of ASEAN economic integration as we endeavours to establish an ASEAN Economic Community by 2015.

This third issue of the ASEAN Economic Community Chartbook portrays the ASEAN economy -- the general macroeconomic makeup and trends, the dynamics of trade and investment within ASEAN, and important development in information and communication technology -- as well as its economic relations with selected trade partners and the rest of the world. It also provides the general trends in the seven priority integration sectors of ASEAN in goods.

I hope this Chartbook help readers in understanding better the ASEAN macro-economy, trade, and investment profile and development. If you have any feedback and advice for us to improve this publication, please contact ASEAN stats at stats@asean.org.

Dr. Surin Pitsuwan
Secretary-General of ASEAN

ASEAN ECONOMIC COMMUNITY CHARTBOOK 2009

INTRODUCTION

As ASEAN progresses toward the envisioned ASEAN Community, it helps once in a while to take a pause, see how far it has gone from where it started, get a better vision of where it is heading, and think of how to get there faster.

This ASEAN Economic Community (AEC) Chartbook is a visual chronicle of the ASEAN economy and its relations with major regions/partner countries and the rest of the world. It aims to provide information on the state of the ASEAN economy at some milestone years in the past and at present, and on discernible trends in key economic areas in the immediate future.

CONTENTS

The graphical information in this Chartbook is presented in the following 8 major sections:

1. **ASEAN in the Global Economy** situates the region in the global economic community in terms of population and economic sizes, growth and welfare.
2. **ASEAN Economy** looks into some macroeconomic trends and developments within the region.
3. **ASEAN Trade Liberalization** reports on the stages of facilitation for freer flow of goods within the region through tariff reduction.
4. **ASEAN Trade Performance** takes a closer look at the movement of goods within and outside of the region – trends of exports and imports, and composition and directions of trade.
5. **ASEAN Trade with Selected Trade Partners** charts the region's bilateral trade position with selected dialogue partners and describes the concentration and dependencies of selected traded commodities.
6. **Investments in ASEAN** gives a broad time series profile of foreign direct investment inflow to the region, including the major sources of such investments.
7. **ASEAN Priority Integration Sectors** shows the trends of export of goods in the 7 priority sectors identified to help accelerate progress toward the AEC.
8. **Other Developments in the ASEAN Economic Community** presents information on a few of other important elements that sustain the regional economy – export of energy, access to communication, and tourism activity.

The charts presented herein are based on data available in the various databases being maintained by the ASEAN Secretariat, which is submitted through relevant ASEAN working groups and/or data sharing schemes, and/or as gathered from official publications and websites of data sources in the ASEAN Member States (AMS') and international organizations as of 31 July 2009.

Some data were derived/estimated using basic statistical practices employed by the ASEAN Secretariat. Unless otherwise stated, these figures are in no way being claimed to be the official data, and are used only to give indicative information.

Note: For 2009, Cambodia use the ASEAN Harmonised Tariff Nomenclature (AHTN) 2002 while the others use AHTN 2007

* CEPT - Common Effective Preferential Tariff

Source of data: ASEAN Tariff Database

3.ASEAN Trade Liberalisation

3.2 Percent of tariff lines in the CEPT* Inclusion List (IL)

The percentage of tariff lines in the CEPT inclusion list of CLMV have increased steadily, and progressively narrowed the gap between ASEAN6 and CLMV over the years. As of 2009, both ASEAN6 and CLMV have placed more than 98% of their tariff lines under the CEPT Scheme

Note: For 2009, Cambodia use the ASEAN Harmonised Tariff Nomenclature (AHTN) 2002 while the others use AHTN 2007

* CEPT - Common Effective Preferential Tariff

Source of data: ASEAN Tariff Database

3.ASEAN Trade Liberalisation

3.3 Percent of items in the CEPT* Inclusion List (IL) with 0 tariff

The number of items in the CEPT inclusion list with zero tariff in ASEAN6 increased significantly in 2003 and continued to increase until 2009. The growth in CLMV was more modest. In percentage terms, the growth in ASEAN6 showed a break in 2005 and 2006; but it was due to the rapid increase of the number of items in the CEPT IL

Note: For 2009, Cambodia use the ASEAN Harmonised Tariff Nomenclature (AHTN) 2002 while the others use AHTN 2007

* CEPT - Common Effective Preferential Tariff
