EXECUTIVE SUMMARY

Many policy decisions and political commitments made by the Heads of Governments of the Association of Southeast Asian Nations (ASEAN) were implemented during the year under review. These took place as ASEAN Member Countries began to respond to new challenges and opportunities offered by the developments in the political and economic spheres. ASEAN's accomplishments signalled a significant movement towards regional solidarity in the midst of rapid and complex changes in the world environment.

Political and Security Cooperation

ASEAN moved to a higher plane of political and security cooperation as it began to be involved in the evolution of post Cold War security dialogue in the region. In 1992-1993, ASEAN succeeded in establishing the mechanisms for effective consultations on matters that have region-wide repercussions. More specifically, ASEAN took the following important initiatives:

- Following the decision of the Fourth Summit, political and security issues were included in the Agenda of the 25th ASEAN Ministerial Meeting/Post Ministerial Conferences (AMM/PMC).
- As part of its commitment to the peaceful settlement of disputes and conflicts in the region, ASEAN issued the ASEAN Declaration on the South China Sea.
- The First Meeting of ASEAN Senior Officials and their counterparts from the Dialogue Partners was held in May 1993. The Senior Officials Meeting for the Post Ministerial Conferences (SOM-PMC) agreed to hold consultations at least once a year.

Economic Cooperation

In the area of economic cooperation, the most significant event that took place was the launching of the Common Effective Preferential Trade (CEPT) Scheme for the ASEAN Free Trade Area (AFTA) in January 1993. To support the smooth implementation of the CEPT, as well as to improve the infrastructure support for AFTA, the following activities were undertaken:

- The AFTA Council finalized the CEPT interpretative notes, as well as the operational procedures for implementing the CEPT.
- The ASEAN Consultative Committee on Standards and Quality (ACCSQ) was formed in February 1993 to look after the harmonization of product standards, and the testing and accreditation of laboratories, among others.
- The Senior Economic Officials Meeting (SEOM) agreed on a three-stage programme for the harmonization of ASEAN tariff nomenclature as follows: (1) consolidation of CEPT submissions by tariff lines; (2) identification of problem areas; and (3) resolution of problems and agreement on a harmonized ASEAN tariff nomenclature.

The year under review also saw the restructuring of the ASEAN machinery for economic cooperation. Following the Fourth Summit directives, the five Economic Committees were abolished and SEOM was institutionalized as the mechanism to oversee all aspects of economic cooperation. The Handover Notes of the five Economic Committees have been turned over to SEOM.

Functional Cooperation

ASEAN made notable achievements in the field of functional cooperation. Among some of the most significant accomplishments in this field are as follows :

- ASEAN-developed technologies, particularly in the field of microelectronics have begun to be commercialized and transferred.*
- Strategies for the implementation of environmentally sound and sustainable development are being formulated.*
- The ASEAN Women's Programme (AWP) reached a milestone with the adoption of the Guidelines to Operationalize the Declaration on the Advancement of Women in ASEAN.*
- Efforts to curb drug abuse and trafficking has been intensified through international collaboration between ASEAN and non-member countries.*

External Relations

ASEAN continued to intensify its cooperative relations with its Dialogue Partners and to speak with one voice in various international, political and economic issues. ASEAN also continued to engage in consultative relationships with other interested countries and international organizations. Among the significant developments in ASEAN's external relations are the following:

- The agenda of some Dialogue Meetings included political and regional security issues for the first time.*
- ASEAN continued to press for an early conclusion of the Uruguay Round; at the same time, ASEAN continued to engage its Dialogue Partners in an exchange of views on AFTA and other regional trading arrangements.*
- ASEAN began to be more actively involved in the formulation of development cooperation programmes and projects on the basis of mutuality of interests.*

The process of establishing the ASEAN-India Sectoral Dialogue was started during the year in the areas of trade, investment and tourism. ASEAN has also decided to explore the possibilities of enhancing relations with the People's Republic of China. ASEAN continues to study various proposals coming from regional organizations proposing to establish relations with ASEAN.

Restructuring of ASEAN Institutions

In January 1993, the restructured ASEAN Secretariat became operational. Staffing of the Secretariat, which has moved from national nomination to open recruitment was completed during the first quarter of 1993. A total of 24 professional staff has been recruited to carry out the Secretariat's expanded set of responsibilities.

25 Years of ASEAN Cooperation

ASEAN celebrated the 25th year of its founding in 1992. Several commemorative activities were undertaken to mark this landmark event in the history of ASEAN.

THE YEAR IN PERSPECTIVE : AN OVERVIEW

THE YEAR IN PERSPECTIVE: AN OVERVIEW

For ASEAN, the year 1992-1993 was a period of actualization. Most policy decisions and political commitments made by the ASEAN Heads of Government at the Fourth Summit Meeting held in Singapore in January 1992 began to be operationalized. It was a time when renewed enthusiasm was transformed into concrete steps towards greater regional solidarity and institutional development. The year saw the determination of ASEAN Member Countries to respond to new challenges and opportunities offered by the developments in the global political and economic spheres.

□ DEVELOPMENTS IN POLITICAL AND SECURITY COOPERATION

Dramatic changes are taking place in the political and security situation in the Asia-Pacific region. The end of the Cold War unleashed great opportunities among nations to redefine their relationships towards closer positive cooperation. The prospects for multipolarity in global and regional politics have increased as more and more nations break their dependence on major powers and develop wider relationships with new or emerging power centres. Open regionalism has gained adherents as a new framework for constructive cooperation among nations or group of nations.

Within this context, ASEAN is moving towards a higher plane of political and economic cooperation to secure regional peace and prosperity. ASEAN succeeded in establishing the mechanism for effective consultations on matters that have region-wide repercussions. Over time, it is hoped that these mechanisms can mature into effective regional institutions.

At the Fourth ASEAN Summit in Singapore, a decision was made to use established fora to promote external dialogues on enhancing security in the region. To this end, ASEAN would intensify its external dialogues on political and security matters using the ASEAN Post-Ministerial Conferences (ASEAN-PMC). As a first step in implementing the Summit decision, political and security issues were put on the Agenda of the 25th AMM/PMC in Manila.

As a further step in strengthening the PMC process, a Senior Officials Meeting for the ASEAN PMC was held on 20-21 May 1993 in Singapore. It was the first such meeting of Senior Officials from ASEAN, Australia, Canada, European Community, Japan, New Zealand, United States and the Republic of Korea to engage in multilateral political and security consultation. The Meeting agreed to hold consultations at least once a year. A work program was adopted by the Senior Officials to guide their future activities.

“ASEAN has made major strides in building cooperative ties with states of the Asia-Pacific region and shall continue to accord them high priority.”

▪ *Singapore Declaration of 1992*

As part of confidence-building measures, ASEAN continued to reaffirm its commitment to the peaceful settlement of disputes and conflicts among nations. ASEAN initiated the resolution on the Treaty of Amity and Cooperation (TAC) in Southeast Asia which was adopted by consensus at the 47th Session of the United Nations (UN) General Assembly. The Treaty is expected to complement the role of the United Nations as it provides the only regional diplomatic instrument so far for dispute resolution in Southeast Asia. At the 25th AMM in July 1992, Laos and Vietnam acceded to the TAC. On the same occasion, Laos and Vietnam was accorded Observer Status in ASEAN.

During the 25th AMM, the ASEAN Foreign Ministers issued the ASEAN Declaration on the South China Sea urging parties to the Spratly Island issue "to apply the principles contained in the Treaty of Amity and Cooperation in Southeast Asia as the basis for establishing a code of international conduct over the South China Sea". The ASEAN position has been endorsed by ASEAN's Dialogue Partners as it conforms with international norms of peaceful coexistence. Three ASEAN Member Countries (Brunei, Malaysia and the Philippines) are among the six claimants of the disputed islands.

Over the years, ASEAN has been playing an active role in promoting national reconciliation in Cambodia. In their joint statement issued on 18 May 1993, the ASEAN Foreign Ministers called on all the Cambodian parties "to live up to the spirit of national reconciliation" and to comply fully with all their obligations under the Paris Agreements. They also reiterated support to the UN Transitional Authority in Cambodia (UNTAC). The statement was widely welcomed as a timely impetus to the holding of peaceful Cambodian elections on 23-28 May 1993.

□ DEVELOPMENTS IN ECONOMIC COOPERATION

In the area of ASEAN economic cooperation, the most significant event that took place was the launching of the CEPT Scheme for AFTA in January 1993. This was preceded by a simultaneous announcement by ASEAN Member Countries of their indicative lists of products for inclusion and exclusion in the CEPT in December 1992. Based on the indicative submissions, CEPT inclusions average 87% on ASEAN Member Countries' tariff lines.

The period under review also saw the restructuring of the ASEAN machinery for economic cooperation. The five Economic Committees were abolished and SEOM was institutionalized as the mechanism to oversee all aspects of economic cooperation. At the 24th ASEAN Economic Ministers' Meeting (AEM), the Handover Notes of the five Economic Committees were turned over to SEOM.

"To further accelerate joint efforts in enhancing intra-ASEAN economic cooperation, ASEAN shall adopt new economic measures as contained in the Framework Agreement for Enhancing ASEAN Economic Cooperation directed towards sustaining ASEAN economic growth and development which are essential to the stability and prosperity of the region."

▪ *Singapore Declaration of 1992*

"...Preferential trading arrangements among ASEAN Member States will act as a stimulus to the strengthening of national and economic resilience and develop the national economies of Member States by expanding investment and production opportunities, trade, and foreign exchange earnings..."

- *Agreement on the Common Effective Preferential Tariff Scheme (CEPT) for the ASEAN Free Trade Area (AFTA) January, 1992*
-

Cooperation in Trade

The 24th AEM held in Manila on 22-23 October 1992 prepared the way for the implementation of the CEPT Scheme for AFTA by 1 January 1993. The Meeting discussed the implementing details of the AFTA Agreement, including the rules of origin, principles and lists of products for accelerated tariff reduction, operational procedures, and products for inclusion. It directed the AFTA Council to finalize the operational details of the CEPT Scheme.

The AFTA Council, which was established by the Fourth Summit to supervise, coordinate, and review the implementation of the CEPT Scheme for AFTA, met thrice in 1992 to set the stage for the launching of AFTA. In the Third Meeting of the AFTA Council in Jakarta on 11 December 1992, the operational details of the CEPT Scheme for AFTA were finalized and the profile of the CEPT product inclusions and exclusions were announced based on the indicative lists exchanged among Member Countries.

The SEOM Meetings held after the Third AFTA Council Meeting in December 1992 were directed towards finalizing the list of CEPT products. To ensure the successful implementation of the CEPT Scheme, work towards the harmonization of product nomenclature, as well as the standardization of product quality was initiated.

Cooperation in Industry, Finance and Investment

The ASEAN Economic Ministers (AEM), at its 24th Meeting in Manila, called on the establishment of a collective body for long-term coordination on product standards and quality. As a result, the ASEAN Consultative Committee on Standards and Quality (ACCSQ) was formed in February 1993. The first Meeting of ACCSQ framed a Terms of Reference for their long-term work and established four Task Forces on the following areas: (a) harmonization of standards, (b) testing and accreditation of laboratories, (c) conformity assessment, and (d) technical information.

To ensure the smooth implementation of AFTA, it was necessary to harmonize the tariff nomenclature beyond the currently internationally accepted 6 digits of the Harmonised System (HS). Towards this end, the SEOM agreed at its meeting on 12-13 July 1993, to begin a three-stage programme for the harmonization of ASEAN tariff nomenclature as follows: (1) consolidation of tariff submissions by tariff lines; (2) identification of problem areas; and (3) resolution of problems and agreement on a harmonized ASEAN tariff nomenclature by ASEAN tariff customs officials.

The Second Protocol to amend the revised Basic Agreement on ASEAN Industrial Joint Ventures (BAIJV) incorporating further improvements to the ASEAN Industrial Joint Ventures (AIJV) Scheme was initialed by the AEM at their 24th Meeting of October 1992 in Manila. The Protocol is expected to be

signed by all ASEAN Foreign Ministers in July 1993. Amendments to the legal agreements became necessary on account of the dissolution of the five Economic Committees including the Committee on Industry, Minerals, and Energy (COIME).

ASEAN Cooperation in Intellectual Property was also initiated by the ASEAN Standing Committee (ASC). The cooperative arrangements resulted from the first consultative meeting held in Geneva in January 1993 at the World Intellectual Property Organization (WIPO) headquarters.

On investments, the 25th AMM in July 1992 agreed that officials responsible for investment promotion should conduct regular consultations with a view to increasing the inflow of foreign direct investments in ASEAN. Following this directive, the Investment Coordinating Board of Indonesia convened a Consultative Forum for the Promotion of Foreign Direct Investment in ASEAN countries. The Forum signed a Memorandum of Understanding incorporating mechanisms, objectives, and plans of action to guide the ASEAN Member Countries. The Forum, which decided to meet yearly, agreed to undertake studies on the feasibility of establishing ASEAN Promotion Centres in various parts of the world.

The 12th ASEAN Centre (Tokyo) Council Meeting held in Tokyo, Japan, in December 1992 decided to organize an ASEAN Fair in Osaka in 1995 with the theme "Japan-ASEAN Cooperation Towards the 21st Century through Trade, Investment and Tourism". The project is a new initiative of the ASEAN Centre to feature ASEAN, introduce high quality products, attractive investment incentives and interesting tourism destinations in the region.

Cooperation in Energy and Minerals

To enhance further economic development in the region, the cooperation in the area of energy and energy conservation have been given increasing attention. The AEM on Energy Cooperation, at their meeting of 28 January 1993 in Bangkok, approved the undertaking of a study on designing a master plan on natural gas development and utilization with funding from the European Community (EC). The Meeting also approved the formation of an Experts Group on Energy Conservation to further enhance ASEAN economic cooperation in energy.

In the area of coal development, the 3rd Intra-ASEAN Coal Workshop was held in the Philippines on 20-23 October 1992 to promote cooperation in coal development through exchange of information in coal resources, sharing of existing facilities and enhancement of intra-ASEAN coal trade and joint venture coal projects.

On electricity, considerable progress has been achieved through activities undertaken under the auspices of the Forum of Heads of ASEAN Power Utilities. These included the agreement on the Terms of Reference for future activities on

"ASEAN shall increase investments, industrial linkages and complementarity by adopting new and innovative measures, as well as strengthening existing arrangements in ASEAN and providing flexibility for new forms of industrial cooperation."

- *Framework Agreement for Enhancing ASEAN Economic Cooperation.*
Singapore, 1992
-

micro/mini-hydro power plant development. The activities included exchanges of information and experience on planning, design and construction of micro/mini-hydro development. On interconnections, the Terms of Reference for the feasibility studies on the four medium-term projects had been identified and submitted to potential sources of technical assistance. Technical assistance from Australia had been secured for the prefeasibility study of the Sarawak-Brunei Darussalam-Sabah Interconnection Project.

On minerals, the ASEAN Secretariat has proposed to ASEAN Member Countries to examine ASEAN cooperation in the area of industrial minerals. The establishment of a Regional Development Centre on Mineral Resources (ARDCMR) has been suggested for consideration. Meanwhile the establishment of focal points on industrial minerals development would be initiated by the ASEAN Secretariat for consideration by Member Countries.

Cooperation in Food, Agriculture and Forestry

Agriculture still remains the major employer of the labor force in ASEAN. Cooperation in this area has always been active with recent initiatives being undertaken within the Framework Agreement on Enhancing ASEAN Economic Cooperation adopted by the Fourth Summit. The 14th Meeting of ASEAN Ministers on Agriculture and Forestry (AMAF) held in Bandung on 8–10 October 1992 identified the specific areas of cooperation in food, agriculture and forestry governed by the Framework Agreement. These included, among others, increasing agricultural output to meet regional and international demand, conserving natural resources, and improving agricultural and forestry sustainability.

To increase the availability of food and make the condition of food satisfy the need of the market, cooperation in food handling featured importantly among the ASEAN Member Countries. Many new developments took place during this period. The ASEAN-Australia Postharvest System Improvement Programme (AAPSIP) started operations in 1992. A number of regional training programmes, consultancies and study tours in the area of livestock and horticulture have been conducted. While ASEAN countries have made progress in improving grain post-harvest systems, there is still a need to tackle new emerging postharvest problems in the ASEAN region. In view of this, the 14th Meeting of AMAF in October 1992 supported the establishment of the ASEAN Grain Postharvest Technology Centre (AGPTC) to undertake studies on grain postharvest systems, particularly on the programme to strengthen the food security status in Member Countries.

In fisheries, activities of the ASEAN Aquaculture Development and Coordination Programme (AADCP) were satisfactorily implemented by the collaborating ASEAN-EC institutions. The activities included training, workshops, fellowships and exchange missions in ASEAN and EC countries. A mid-term evaluation team was fielded by EC in June 1993. A report from the evaluation team would be expected after the period under review. Under the ASEAN-

“ASEAN Member States agree to strengthen regional cooperation in the areas of development, production, and promotion of agricultural products for ensuring food security and upgrading information exchanges in ASEAN.”

- *Framework Agreement for Enhancing ASEAN Economic Cooperation.*
Singapore, 1992
-

Canada Fisheries Postharvest Technology Project Phase II, the Regional Workshop on Fish Inspection was conducted in Jakarta on 30 November to 3 December 1992 to develop a self-regulatory quality control programme. The pilot project in Brunei Darussalam, Philippines and Thailand has also been initiated.

To continue ASEAN's efforts to counter the Anti-Tropical Timber Campaign, the ASEAN Institute of Forest Management (AIFM) disseminated the brochure entitled "Forest Conservation, Sustainable Management and Development - an ASEAN Commitment" to all Member Countries. The brochure was also distributed during the Joint Indonesia-Malaysia Mission to Japan in September 1992. Phase II of the AIFM was inaugurated on 26 July 1992 with the signing of the Memorandum of Understanding between Malaysia and the Government of Canada in Manila. Under Phase II, the activities of the project would be expanded to include forest protection, integrated forest resource management, silviculture and reforestation. With the combined assistance of the EC, Malaysia and other ASEAN Member Countries, the ASEAN Timber Technology Centre (ATTC) successfully implemented Phase I activities in providing services to ASEAN Member Countries and other countries on timber industry. The EC has agreed to provide bridging assistance to the project until the end of 1993 as the Project Agreement for Phase II was still under preparation.

Cooperation in Transportation and Communication

The period under review saw the completion of the Second Integrated Work Programme in Transportation and Communications (IWPTC), 1987-91, and the launching of the Programme of Action in Transportation and Communications (POATC), 1992-96, endorsed by the AEM.

With a view to contributing towards the achievement of ASEAN's ultimate goal of establishing the ASEAN Transportation and Communications Networks, the Programme of Action seeks to further enhance regional collaboration in the provision of safe, efficient and innovative transportation and communications infrastructure network, system and services. The projects and/or programme activities addressed five main areas determined by the Programme of Action, namely, (a) policy, (b) economic and technical studies, (c) human resources development, (d) institutional building, and (e) exchange of information and sharing of expertise.

Among the major projects which have been approved and submitted for financial and technical support include the Multimodal Transport and New Information Technology, ASEAN Transport and Communications Policy Studies, and Contingency/ Response Plan for Hazardous Cargo Emergencies. Projects at the sub-sector level had been selected to help achieve the objectives of the land, shipping and ports, and civil aviation and related services subsectors, as well as those of posts and telecommunications. Some of on-going projects in telecommunications include ASEAN Optical Fibre Submarine Cable Network, Satellite Communication Development, and Ku-band Propagation Measurement Programme on Earth Space Paths.

"ASEAN shall further enhance regional cooperation to provide safe, efficient and innovative transportation and communications infrastructure network."

- *Framework Agreement for Enhancing ASEAN Economic Cooperation.*
Singapore, 1992.
-

Cooperation in Tourism

Cooperation in tourism is aimed to promote regional tourism interaction among the peoples of ASEAN and to develop viable and competitive tourist industries in the region. Projects during 1992/93 were aimed at promoting the attractiveness of ASEAN as tourist destinations for visitors from Japan, Europe, the Americas, Oceania and Asia.

Projects included those dealing with the promotional, marketing, manpower development and research aspects of tourism. Among these were projects like European Tourism Demand and Marketing Strategy for ASEAN, Familiarisation Programme for Korean Tour Operators, Korean Language Training Programme for Tour Guides, Assistance for Visit ASEAN Year 1992, Campaign for the Korean Market, and Assistance for Visit ASEAN Year 1992 Campaign for the Korean Market Public Relations Programme.

❑ DEVELOPMENTS IN FUNCTIONAL COOPERATION

Cooperation in Science and Technology

During the year under review, the 26th and 27th Committee on Science and Technology (COST) meetings were held in Singapore on 17-18 September 1992 and in Indonesia on 3-5 February 1993, respectively. The 5th Meeting of the Ministers of Science and Technology took place in Singapore on 21-22 September 1992 along with the 7th and 8th Senior Officials Meetings on Science and Technology which were also held in Singapore on 16 July and 19 September 1992, respectively.

On materials science and technology, the ASEAN-Japan Cooperation Project on Materials Science and Technology was completed in 1992. The Sub-committee on Materials Science and Technology is preparing an evaluation report of the project activities for submission to the 28th meeting of COST. The Sub-committee agreed to develop network mechanisms to collect information related to expertise, equipment availability and common standards on material evaluation within the ASEAN Member Countries.

On meteorology and geophysics, the ASEAN Specialized Meteorological Centre based in Singapore became operational in January 1993. Singapore provided the infrastructure facilities while each ASEAN Member Country would second up to two scientists for assignment at the Centre for a period of up to four years.

"ASEAN shall continue to step up cooperation in other economic related areas, such as science and technology transfer and human resource development."

- *Framework Agreement for Enhancing ASEAN Economic Cooperation, Singapore, 1992*
-

“ASEAN Member Countries shall intensify cooperation in environmental management and protection in their common pursuit of sustainable development. In this regard, Member Countries shall work collectively towards the improvement of environmental quality, harmonization of standards, and jointly promote the application, transfer, and development of appropriate environmental technologies.

- *Singapore Resolution on Environment and Development. Singapore, 1992*
-

On microelectronics and computers, several of the sub-project activities under the ASEAN-Australian Economic Cooperation Program Microelectronics Project have reached prototype stage and are ready for commercialization. These included the HCOM keyboard for handicapped persons, the SRU paging system and the portable ECG machine and expert system. Several workshops and seminars were organized by the Sub-committee on Microelectronics and Computers to facilitate exchanges of information and technology transfer in this regard.

Cooperation in Environment

ASEAN adopted the “Singapore Resolution on Environment and Development” during the Fifth ASEAN Ministerial Meeting on Environment in 1992. The resolution embodied the commitment of ASEAN countries to intensify cooperation in environmental management and protection in their common pursuit of sustainable development. In this regard, ASEAN Member Countries continued to work collectively towards the improvement of environmental quality, harmonization of standards and promotion of the application, transfer and development of appropriate environmental technologies.

Cooperation in Culture and Information

ASEAN-COCI carried out the decision of the Fourth Summit on Functional Cooperation by convening an ad hoc Task Force to formulate the Global Thrusts and Priorities during its 27th Meeting held in Singapore on 1-5 February 1993. The Task Force, guided by the Fourth Summit directives, recommended that all COCI projects focus on one or more of these themes: environment, cultural traditions, women, children, drugs and AIDS. Activities selected were in promotion, training and development, research and documentation, conservation and revitalization. ASEAN-COCI agreed to use the Task Force’s recommendations as guidelines for discussion at the Combined Meeting of the Culture and Information Working Groups, held in Bali, Indonesia on 10-13 May 1993 to formulate the Global Thrusts and Priorities of the ASEAN-Committee on Culture and Information (COCI) which would be finalized at the 28th ASEAN-COCI meeting in Chiang-Rai, Thailand on 16-20 August 1993.

A number of projects were completed during the period under review. Projects in Literary and ASEAN Studies completed during this period include the ASEAN Writers’ Conference Workshop which was held on 3-9 December 1992. The Workshop was attended by writers from all Member Countries and discussed issues ranging from the establishment of a translation bureau, an ASEAN library of language and literature, and a compilation of an anthology of ASEAN women writers.

A number of activities were also completed in the area of Visual and Performing Arts. The Joint ASEAN Performing Troupe was completed in this

period. The Third ASEAN Theater Festival was hosted by Thailand on 21-29 November 1992. This year's theme was "ASEAN Theater: New Forms and Directions". Activities included theater performances from all Member Countries, lectures on stage craft and theater productions, and discussions on directing, playwriting and acting. The Second ASEAN Composers Forum on Traditional Music was held on 11-24 April 1993 at the Centre for Music Activities in the National University of Singapore. It was attended by composers, ethnomusicologists and musicians with research backgrounds in Western and/or traditional music.

Cooperation in Social Development

The ASEAN Committee on Social Development (COSD) and its sub-committees/subsidiary bodies continued to play a pivotal role in promoting ASEAN's cooperative programmes on social development and in translating the Fourth Summit directives into relevant activities. COSD held its 17th Meeting on 24-27 November 1992 in Jakarta.

During the period under review, the AWP reached a milestone in its efforts to promote the Declaration on the Advancement of Women in ASEAN signed by the ASEAN Foreign Ministers in July 1988. At its 12th Meeting held in Singapore on 21-23 April 1993, AWP, after two years of deliberations and consultations, adopted the Guidelines to Operationalize the Declaration on the Advancement of Women in ASEAN and the Recommendations for the Mainstreaming of Women in ASEAN. The Guidelines outline the different measures and steps to be taken at the national, regional and international levels to promote the equitable and effective participation of women in the political, economic, social and cultural fields.

The ASEAN Sub-committee on Education (ASCOE) is a newly established subsidiary body of COSD. ASCOE met for the first time in Jakarta on 10-12 September 1992. High on the agenda of that first meeting were the Fourth Summit directives concerning the expansion of ASEAN studies in school and university curricula, the introduction of ASEAN student exchange programmes at secondary and tertiary levels of education, and the proposal to establish an ASEAN University.

On labour, the complex world economic environment and greater global competition, the emergence of regional trading blocs, the rising tide of new forms of protectionism, and the formation of AFTA constitute some of the more formidable challenges now confronting labour relations and labour management relations in ASEAN. It was against this backdrop that the 9th Meeting of the ASEAN Labour Ministers was held in Manila on 26-27 November 1992. At this meeting, the ASEAN Labour Ministers expressed their concern over such issues as the forms of restrictions and unfair practices in the field of trade and the linkage of labour and human rights with trade issues.

"ASEAN functional cooperation shall be designed for a wider involvement and increased participation by women in the development of ASEAN countries in order to meet their needs and aspirations. This cooperation shall also extend to the development of children to realize their full potentials."

▪ *Singapore Declaration of 1992*

Cooperation in Drugs and Narcotics Control

Although funding for projects of the ASEAN Senior Officials on Drugs (ASOD) has been difficult to obtain in the period under review, the past year has been a fruitful one in fostering more intensive international collaboration on narcotics control between ASEAN and non-member countries. In line with the Fourth Summit Declaration that "ASEAN shall intensify its cooperation in overcoming the serious problem of drug abuse and illicit trafficking at the national, regional and international levels", ASOD invited a representative from INTERPOL to its 15th Meeting held in Kuala Lumpur on 27-30 July 1992. ASOD also sought and obtained approval from the 26th ASC held on 7-9 October 1992 to invite observers from Laos, Vietnam and Papua New Guinea to its 16th ASOD Meeting scheduled for October 1993.

The 15th Meeting of ASOD was held in Kuala Lumpur on 27-30 July 1992. The meeting reviewed the status of its projects, its cooperation programmes with Dialogue Partners and took note of the latest developments related to drug abuse in the Member Countries. Working group sessions were also convened during the meeting in major areas of concern, among others, preventive drug education, treatment and rehabilitation, and law enforcement and research.

Cooperation in Civil Service Matters

Since the establishment of the ASEAN Conference on Civil Service Matters (ACCSM) in 1987, exchange of views and visits between Member Countries have taken place to promote cooperation in this area.

▣ DEVELOPMENTS IN EXTERNAL RELATIONS

The agenda of most Dialogue meetings included political and regional matters for the first time. Capping this development was the holding of the first SOM-PMC in Singapore on 20-21 May, 1993. The SOM-PMC agreed to hold consultations at least once a year and adopted a work programme to guide its future activities.

ASEAN continued to expand its cooperative ties with other countries and regional organizations. The meeting between ASEAN and Indian Senior Officials on the establishment of the ASEAN-India Sectoral Dialogue was held in New Delhi on 16-17 March 1993. Discussions on ASEAN-People's Republic of China (PRC) consultative relationship have been initiated.

Several regional organisations have expressed interest to establish relations with ASEAN. These include the South Asia Association for Regional Cooperation

"While ASEAN's cooperative relationships with the Dialogue Partners have made significant progress, ASEAN should strengthen existing dialogue mechanisms and develop new ones where necessary for the enhancement of economic relations with these countries, especially ASEAN's major economic partners.

▪ *Singapore Declaration of 1992*

“To complement and enhance economic cooperation among Member States, and to respond to the rapidly changing external conditions and trends in both the economic and political fields, Member States agree to establish and/or strengthen cooperation with other countries, as well as regional and international organizations and arrangements.”

- *Framework Agreement for Enhancing ASEAN Economic Cooperation.*
Singapore, 1992
-

(SAARC), the Rio Group, the Gulf Cooperation Council, and the Economic Cooperation Organisation (ECO). ASEAN is currently studying the various proposals from these regional organisations.

Rapid global changes and the growing interdependence of the world economy has made responsive action toward the resolution of international economic issues more compelling. During the Dialogue meetings, ASEAN continued to press for an early conclusion of the Uruguay Round and put forward the expectation that its outcome would be balanced and beneficial to all participants. ASEAN also continued to engage its Dialogue Partners in an exchange of views on AFTA and other regional trading arrangements such as the North American Free Trade Area (NAFTA) and the Single European Market. ASEAN requested the support of its Dialogue Partners for the CEPT Scheme in General Agreement on Tariffs and Trade (GATT).

Development cooperation between ASEAN and its Dialogue Partners continued to be developed on the basis of mutuality of interest - shifting away from the traditional donor-recipient relationship. ASEAN became increasingly involved in the participation, design, implementation and review of development cooperation projects. The period under review saw a number of Dialogue Partners redefining or shifting their priorities towards cross-sectoral areas, technology transfer mechanisms and the environment. In a number of programmes, development cooperation has become inextricably linked with commercial and industrial cooperation which are being shaped increasingly in partnership with the private sector.

ASEAN Member Countries continued to participate and coordinate their positions in the Asia-Pacific Economic Cooperation (APEC) process. The Fourth APEC Ministerial Meeting was held in Bangkok on 10-11 September 1992. In keeping with APEC's fundamental objective of sustaining growth and dynamism of the Asia-Pacific region, and recognising the critical importance of the Uruguay Round in this regard, APEC Ministers issued an APEC Statement on the Uruguay Round to add urgency and impart greater momentum to the early and successful conclusion of the Round. In addition, the APEC Ministers also issued the Bangkok Declaration on APEC Institutional Arrangements setting up an APEC Secretariat as a permanent support mechanism and a central APEC Fund to finance the implementation of APEC activities. In recognition of ASEAN's role as the core of APEC, it was agreed that the APEC Secretariat be based in Singapore.

ASEAN-Australia

The 15th Meeting of the ASEAN-Australia Forum was held in Bangkok on 19-20 January 1993. For the first time, the ASEAN-Australia Forum discussed regional political and security matters.

The Mid-Term Review of ASEAN-Australia Economic Cooperation Programme (AAECP) Phase II was completed. The recommendations of the

Report will be used as the basis for improving the Programme in the two remaining years of the current Phase II. Moreover, a third phase of the AAECF was approved to which the Australian Government will commit A\$ 32 million over four years. This new phase, commencing in July 1994, is expected to provide further opportunity for scientific and technical co-operation between ASEAN and Australia, human resource development, and promotion of trade and investment links. Under the new phase, private sector firms in both ASEAN and Australia will be encouraged to participate. Areas of cooperation such as energy, telecommunications and information technology, biotechnology, environment, transport and agro-based industries have been identified as potential areas of cooperation.

ASEAN-Canada

The 8th Meeting of the ASEAN-Canada Joint Cooperation Committee (JCC) was held in Jakarta on 6-8 April 1993. In that meeting, the draft Successor Framework Agreement on ASEAN-Canada Economic Cooperation was finalized. The draft Successor Agreement intends to bring ASEAN and Canada into a new era of partnership based on mutuality of interests and the recognition of the important role that the private sector has to play in promoting ASEAN-Canada cooperation. The Successor Agreement, which replaces the expired 1981 Agreement will be signed at the Post-Ministerial Conference in July 1993.

ASEAN and Canada agreed on close consultations with regard to the operationalization of the regional policy framework for development cooperation. It is the first time that Canada is developing such a framework which will define more strategic approaches to development cooperation in the region. Canada identified new priority areas for cooperation as follows: 1) economic cooperation; 2) policy development and support; 3) environment; and 4) governance and administrative reform.

ASEAN-European Community

The 10th ASEAN-EC Ministerial Meeting was held in Manila on 29-30 October 1992. The Ministerial Meeting held the view that the end of the Cold War presented unprecedented opportunities for enhanced cooperation between developed and developing nations. They called for renewed international cooperation to address the multifarious concerns of developing nations such as the eradication of poverty, debt relief, access to markets, transfer of technology and environmental protection.

The meeting underscored the importance of the Fourth ASEAN Summit decisions, in particular the decision to establish AFTA, which would contribute to the strengthening of the open multilateral trading system and would further expand trade and investment flows between the two regions. In this respect, ASEAN welcomed the offer of the EC to share the latter's experiences from the European economic integration process.

ASEAN-Japan

The 13th ASEAN-Japan Forum was held in Tokyo on 16-17 February 1993. The ASEAN-Japan Forum marked a point of departure from previous Forum meetings when it was elevated to the Senior Officials level from both sides and included political and security matters on the agenda for the first time. ASEAN and Japan shared a common concern to maintain peace and stability for the continuing economic progress of the countries in the region.

ASEAN and Japan discussed a number of specific items, among them, ASEAN's market access requests, investment cooperation, commodities, and financial cooperation. Japan suggested ways of improving ASEAN's investment environment and explained its efforts to extend cooperation in the field of commodities within the context of the Uruguay Round.

Specifically on cultural cooperation, Japan announced the extension of the Scholarship Fund Programme for another five years beginning 1991 and committed a total contribution of US\$10 million to the Programme.

ASEAN-New Zealand

The 11th Meeting of the ASEAN-New Zealand Dialogue was held in Langkawi, Malaysia, on 16-17 June 1992. The meeting reaffirmed the need to take concrete steps to boost investment cooperation through the implementation of various projects under the Trade and Investment Promotion Package (TIPP) which has been designed to develop sustainable commercial links and increase the awareness of the economic opportunities existing in each of the respective markets. The meeting also agreed to explore the possibility of establishing an ASEAN Trade and Investment Centre in New Zealand.

On development cooperation, the meeting decided to establish a Joint Management Committee (JMC) to plan, monitor and review the whole spectrum of ASEAN-New Zealand relations. In this regard, a Memorandum of Agreement/Exchange of Letters will be concluded between ASEAN and New Zealand to establish the JMC.

ASEAN-Republic of Korea

The First Meeting of ASEAN-Republic of Korea (ROK) Dialogue was held in Kuching, Sarawak on 11-13 May 1993. ASEAN and ROK held the view that trade would continue to be the main thrust of their relations. ROK welcomed ASEAN's proposal to establish an ASEAN Promotion Centre in Seoul. In the Dialogue Meeting, ASEAN and ROK also agreed to continue to undertake cooperative efforts in creating a more open world trading system on commodities and processed products and towards stabilizing prices and promoting downstream processing.

ROK increased its financial support to the ASEAN-ROK Special Cooperation Fund from US\$6.0 million to US\$8.0 million for the period 1990-1994. This implied an increase in ROK's annual contribution from US\$1.0 million to US\$2.0 million beginning 1992.

ASEAN-UNDP

The year under review has been a vital period for ASEAN-United Nations Development Programme (UNDP) cooperation. Two major UNDP-supported projects for ASEAN, namely the (a) Strengthening of the ASEAN Secretariat and (b) the Establishment of Programmes and Projects Management System are underway. These are expected to be completed by December 1993.

The recommendations of the first UNDP project under the cover of the report entitled "Strengthening the Structure and Mechanism of ASEAN with Special Reference to the ASEAN Secretariat", contributed to the Fourth Summit decision to restructure the ASEAN Secretariat, the process of which has been implemented since 1 January 1993. All the new and openly-recruited professional staff have now been recruited following a newly-structured ASEAN Secretariat. The second project has submitted its recommendations on the establishment of the ASEAN Cooperation Unit (ACU), Programme/Project Appraisal Guidelines and a Program Planning Framework.

ASEAN-United States

The 11th ASEAN-United States (US) Dialogue was held in Bandar Seri Begawan on 15-16 May 1993. The Dialogue Meeting exchanged views on international and regional issues in the economic and political spheres. The US indicated its support for ASEAN efforts toward regional trade liberalization and welcomed the decision to create AFTA.

The meeting noted a remarkable growth of ASEAN-US trade which had more than doubled over the last decade. In order to sustain this trend, ASEAN called upon the US to refrain from taking unilateral action on trade issues which have been raised by ASEAN.

On development cooperation, ASEAN and the US agreed to foster closer coordination in the overall management of the ASEAN-US Development Cooperation Programme. A midterm-review and evaluation of projects would become a regular feature of current and future projects. The year under review saw significant progress made on the on-going development projects especially on the Private Investment Trade Opportunities (PITO). The Environmental Improvement Programme (EIP) has been approved and is scheduled to be implemented soon. US has informed ASEAN that the PITO and EIP projects would continue to be the main thrusts of its assistance programmes through 1997.

A PICTORIAL OF ASEAN EVENTS

Dato' Ajit Singh assumes the post of Secretary-General of ASEAN at the Transfer of Office Ceremony held at the ASEAN Secretariat on 2 January 1993. The Secretary-General heads a team of 24 professional staff which were openly recruited and appointed on the basis of merit.

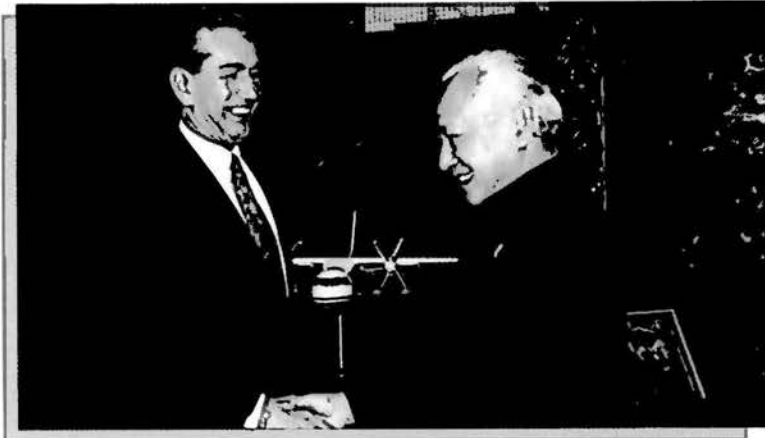

From left to right : Mr. Rusli Noor, Minister Alatas and Dato' Ajit Singh

Minister Ali Alatas talks to the press after the transfer of office

The Secretary-General of ASEAN and the ASEAN Secretariat professional staff.

President Soeharto meets Dato' Ajit Singh

Dato' Ajit Singh pays a courtesy call on Vice-President Soedharmono

Dato' Ajit Singh and the Directors-General of ASEAN

The Secretary-General of ASEAN, who has been accorded Ministerial status, called on a number of ASEAN leaders during the year. As part of his expanded mandate, he also serves as the alternate chairman of the ASEAN Standing Committee (ASC). The ASEAN Standing Committee (ASC) has taken a more active role in providing guidance and direction to ASEAN cooperation in the functional areas as well as cooperation with the Dialogue Partners. The present members of the ASC are (shown from left to right in photo): Dato Paduka Haji Mohd Adnan bin Buntar, the Director-General (DG) of ASEAN-Brunei Darussalam; Mr. Toh Hock Ghim, the DG of ASEAN-Singapore; Mrs. Laxanachantorn Laohaphan, the DG of ASEAN-Thailand; Dato' Ajit Singh, Secretary-General of ASEAN; Mrs. Delia D. Albert, the DG of ASEAN-Philippines; Mr. Agus Tarmidzi, the DG of ASEAN-Indonesia; and Mr. Hasmy Agam, the DG of ASEAN-Malaysia.

A number of ASEAN meetings were held at the ASEAN Secretariat building during the year. This provided the opportunity for closer interaction between ASEAN officials and the ASEAN Secretariat.

Dato Ajit Singh chairs 2nd Meeting of 26th ASC

Mrs. Laxanachantorn Laohaphan and Ambassador Suchati Chutasmit (right)

ASEAN Secretariat staff at the rapporteur desk

The ASC Meetings held during the year addressed important issues for consideration of the 26th ASEAN Ministerial Meeting. Efforts were directed towards implementing the decisions of the Fourth Summit in various fields of cooperation.

PROGRESS REPORT : JUNE 1992 - JUNE 1993

PROGRESS REPORT : JUNE 1992 - JUNE 1993

ASEAN FUNCTIONAL COOPERATION

Functional cooperation covers many diverse areas such as science and technology, environment, culture and information, social development, drugs and narcotics control, and civil service matters. In the year under review, notable achievements were made in these areas. ASEAN-developed technologies, particularly in the field of microelectronics, are being commercialized and transferred. Strategies for the implementation of Agenda 21 for environmentally sound and sustainable development are being formulated. A programming exercise was undertaken to define the global thrusts and priorities in culture and information. The ASEAN Ministers on Youth Affairs held their meeting for the first time in Jakarta on 7-8 August 1992 and made important decisions to chart the future of ASEAN cooperation on youth. The ASEAN Women's Programme reached a milestone with the adoption of the Guidelines to Operationalize the Declaration on the Advancement of Women in ASEAN. The ASEAN Task Force in Acquired-Immune Deficiency Syndrome (AIDS) has been established and held its first meeting in March 1993. Efforts to foster international cooperation in the fight against drugs abuse and trafficking has intensified through the activities of working groups involved in prevention education, treatment and rehabilitation, and law enforcement and research.

❑ COOPERATION IN SCIENCE AND TECHNOLOGY

The 26th and 27th COST meetings were held in Singapore on 17-18 September 1992 and in Indonesia on 3-5 February 1993, respectively. The eight Sub-committees made satisfactory progress in the implementation of their

respective activities, the highlights of which are presented below. At the same time, there is also a growing awareness of the need for COST to address new and emerging issues arising out of developments in the global, regional and ASEAN scenes. These matters are to be addressed in the review of the ASEAN Plan of Action on Science and Technology which is being undertaken by COST.

Meanwhile, the 5th Meeting of the Ministers of Science and Technology took place in Singapore on 21-22 September 1992. This was preceded by the 7th and 8th SOM on Science and Technology which were also held in Singapore on 16 July and 19 September 1992, respectively.

Food Science and Technology

The workshop on "Separation and Characterization of Fish Lipids" was held in Bandung on 16-19 November 1992 with funding support from the EC. At the 10th meeting of the EC - ASEAN Joint Cooperation Committee held in Brussels on 29-30 September 1992, it was agreed that "Membrane Technologies Applied to Food By -Products Utilization" is one of the areas identified for future regional scientific cooperation and that a workshop will be organized to bring together experts from the EC and ASEAN to assist in the formulation of joint research proposals. Canada has also informed the 8th Meeting of the ASEAN - Canada Joint Cooperation Committee in Jakarta on 6-9 April 1993 that the Seminar/ Workshop on "Standard Methods for Pressure Driven Membrane Processes" has been approved and is scheduled for implementation in 1993.

Meteorology and Geophysics

The ASEAN Specialised Meteorological Centre based in Singapore became operational in January 1993. Singapore has provided the infrastructure facilities while each ASEAN

Member Country is expected to second up to two scientists for assignment at the Centre for a period of up to four years. Funding for the scientists are to be borne by the respective countries. COST has noted that this type of funding arrangement would increasingly become the mode of ASEAN cooperation in science and technology whereby there would be cost sharing among the ASEAN countries on a project-to-project basis.

Several networking and information exchange/dissemination activities were carried by the Sub-committee on Meteorology and Geophysics. Recognizing the usefulness of the Users Manual for the ASEAN Climatic Atlas and Compendium, which was produced in 1991, the Sub-committee has decided to promote its availability. A CLICOM Users Group has been established to provide an opportunity for the exchange of experience and expertise in the use and development of the CLICOM computerized climate data management system.

Microelectronics and Computers

Several of the sub-project activities under the Australian-funded AAACP Microelectronics Project have reached prototype stage and are ready for commercialization. These include the HCOM keyboard for handicapped persons, the SRU paging system and the portable ECG machine and expert system. Several workshops and seminars were organized by the Sub-committee on Microelectronics and Computers to facilitate exchanges of information and technology transfer in this regard.

The Sub-committee has also submitted a project proposal on "Information and Communications Technology for Sustainable Development" for consideration under AAACP-Phase III. Due to the commercial potential of some of the project activities, the 27th Meeting of COST concurred with the Sub-committee's guidelines on matters pertaining to intellectual property rights and that royalties accrued from commercialization of project activities be pooled in a special fund which could be used to support future activities.

In order to enlarge the Sub-committee's mandate to cover all aspects of computer and information technology, COST, at its 27th Meeting, agreed to the Sub-committee's recommendation to rename itself as the Sub-committee on Microelectronics and Information Technology.

Materials Science and Technology

The Project on Materials Science and Technology was completed in 1992 under the ASEAN-Japan Cooperation Programme. The Sub-committee on Materials Science and Technology is preparing an evaluation report of the project activities for submission to the 28th meeting of COST.

The Sub-committee has also decided to develop a networking mechanism that brings together information related to expertise, equipment availability and common standards on material evaluation within the ASEAN Member Countries. The formation of an ASEAN organization on materials science and technology is also being explored. COST, at its 27th Meeting, adopted the recommendation of the Sub-committee that it is appropriate to approach organizations such as the ASEAN Chambers of Commerce and Industry (ACCI) for sponsorship and collaboration on projects dealing with materials recycling and advanced materials as a means of including private sector participation and securing alternative sources of funding.

Biotechnology

A Project Management Committee for the Biotechnology Project assisted by Australia has been established with an office based in Bangkok. Progress reports from the two sub-projects, namely, Plant Extract Biotechnology and Carbohydrate Biotechnology continued to show promising results. The Sub-committee has agreed to submit for consideration under AAACP-Phase III the project proposal on the establishment of an ASEAN - Australia Biotechnology Network (AABN) which incorporates public and private sector linkages in the field of biotechnology.

A workshop on "Biotechnological Approaches to Diagnosis, Prevention and Treatment of Infectious Diseases" was held in Bangkok on 24-27 February 1993 with funding support from Japan. Delegates from each ASEAN country presented their current research work on the subject and identified potential joint projects with Japan in the future.

The "Workshop on Formulation of Biotechnology Atlas" has obtained funding support from Korea. The project aims to enhance regional cooperation in the field of biotechnology and to identify cooperative projects, modalities and mechanisms for their implementation.

Non-Conventional Energy Research

During the period under review, satisfactory progress was achieved in cooperative programmes with three Dialogue Partners, namely, Australia, Canada and the EC. The Australian assistance under Phase II of the AAACP is coming to an end in mid - 1994 and as part of the windup activity, an international energy conference and exhibition is slated to be held in Thailand in April 1994 to disseminate the outputs and achievements of the programme. Furthermore, the Sub-committee has submitted a number of proposals for consideration under Phase III covering the period 1994-1998. The EC-funded activities under Phase I are also scheduled to be completed by mid-1993 and plans are underway for requesting an extension of the project under a new phase.

A new cooperative project on Natural Gas Utilization in Transport to be financed by the New Zealand Government has commenced in 1993 with the appointment of the Managing Service Agent.

Marine Sciences

The Regional Ocean Dynamics (ROD) Project funded by Australia received a two-year extension until 1994 with additional funding of A\$ 2.6 million. The Sub-committee is in the process of formulating project proposals for activities beyond 1994 when the current phase of the AAACP ends and a new phase begins.

The ASEAN - US Coastal Resources Management Project was completed at the end of 1992. The main feature of this project was the development of a model management plan for the utilization and protection of coastal resources which was also supplemented by training, workshop, publication and information dissemination activities.

The first technical planning workshop on the Marine Science -Phase II under the ASEAN-Canada cooperation programme was held in Jakarta on 16-21 November 1992. The workshop agreed to focus on three areas, namely: (1) the establishment of environmental criteria in coastal waters; (2) pollution monitoring and baseline measurement; and (3) red tide studies.

Science and Technology Infrastructure and Resources Development

Two issues of the ASEAN Journal on Science and Technology for Development were published in 1992, one specifically devoted to biotechnology and the other on non-conventional energy. The next issue of the journal, scheduled for distribution in June 1993, will focus on marine sciences.

The EC had approved a sum of ECU 3.9 million to finance the project on "Environment Monitoring through the use of the European Space Agency ERS-1 Satellite Capabilities in ASEAN Countries". The ROK-funded project on "Basic Research Project for Supporting the Establishment of S & T Policy and R & D Management Systems in ASEAN" was approved for implementation in early 1993. Discussions are also underway with New Zealand on developing cooperative activities in the management of science and technology.

ASEAN Science and Technology Week

The Third ASEAN Science and Technology Week (TASTW) was held in Singapore on 17-24 September 1992 with the theme "Socio-economic Growth in ASEAN through Science and Technology". The event featured a series of conferences and meetings, awards for noted scientists and engineers, and various exhibitions highlighting the role of science and technology in development. Three official ASEAN meetings were held during the celebration of TASTW: the 26th Meeting of COST; the 8th Senior Officials Meeting on Science and Technology; and the 5th Meeting of Ministers on Science and Technology. Dialogue Partners which contributed to the TASTW were Australia, Canada and New Zealand.

ASEAN Science Fund

Established by the ASEAN Ministers of Science and Technology in 1989, the ASEAN Science Fund (ASF), in its present form, is a trust fund. As of May 1993, the total amount of the ASF stood at US\$ 385,330. Under the current ASF guidelines only interest can be used for project financing. Acting on the recommendation of COST, the ASF has agreed to an interim modification of the existing guidelines of the ASF in order to facilitate more effective use of the funds.

The ASC has agreed to the interim guidelines formulated by COST on the utilization of the Fund but on the proposal to enlarge the present amount of the ASF, the ASC decided to consider it after a review on the utilization of the ASEAN Fund.

❑ COOPERATION IN ENVIRONMENT

The year under review saw ASEAN Member Countries working collectively towards the improvement of environmental quality, harmonization of standards, and jointly promoting the application, transfer and development of appropriate environmental technologies. Guided by the framework embodied in the Singapore Resolution on Environment and Development of 1992, ASEAN Member Countries adopted strategies to attain the objective of intensifying this cooperation in environment. The components of this strategy are as follows :

A. Policies

1. Introduce policy measures and promote institutional development that will encourage the integration of environmental factors in all developmental processes;
2. Work closely on the inter-related issues of environment and development;
3. Cooperate in setting basic environmental quality standards and regulations at national level, working towards harmonized environmental quality standards in the region, and adopting long-term quantitative goals relating to ambient air quality and river water quality; and
4. Harmonize policy directions and step up operational and technical cooperation on environmental matters such as transboundary air and water pollution, natural disasters, forest fires, oil spills, and the transboundary movements and disposal of toxic chemicals and hazardous wastes, and undertaking joint actions to address the Anti-Tropical Timber Campaign.

B. Information Exchange

Encourage greater information and data exchange, particularly in air and water quality as well as greenhouse gas monitoring.

C. Institutional Development

1. Strengthen the institutional and technical capability of national agencies to enable them to effectively integrate environmental considerations into development plans;
2. Cooperate in capacity-building of national institutions responsible for the environment through regional training assistance programmes, regular exchange of information and management of data and a greater exchange of visits among officials and experts; and
3. Cooperate in providing adequate training at all levels in public and private sector organizations, including NGOs, with the aim of improving their environmental management expertise and skills.

D. Technology Cooperation

1. Continue to enhance cooperation in the field of environmental technology through sharing of technical information, initiating joint training and research programmes, and exchange of expertise in environmental management and technology; and
2. Promote the application of appropriate and environmentally sound technologies, as well as encourage support from the business sector and the public for clean production and industrial practices.

E. Public Awareness

Continue to promote public awareness of environmental issues so as to bring about broader participation in environmental protection efforts, and to do so through greater exchange of information and experiences on approaches and strategies in environmental education.

F. Programmes

Develop and implement specific programmes relating to haze caused by forest fires, air and water quality management, natural resources and environmental accounting, environmental economics, trans-frontier parks and other protected areas, a regional network for biological diversity conservation and protection of the marine environment in ASEAN seas.

In adopting strategies to address development and global environmental issues, ASEAN shall take an active part in international efforts to protect the global environment. In addition to financial assistance for the environment, the need for developed countries to assist developing countries in transferring and providing access to environmentally-sound technologies has been emphasized. ASEAN shall explore the desirability of having flag states to contribute and help ensure safe navigation while protecting the marine environment. Lastly, the promotion of greater cooperation among and between developing countries in the field of environment and development, through information exchange and the sharing of experience and expertise shall be pursued.

Environmental Cooperation with Dialogue Partners

Cooperation in the environment has increasingly become one of the priority thrusts of Dialogue Partner programmes for ASEAN. As a result of the Mid-Term Programme Review of the ASEAN-Australia Economic Cooperation Programme Phase II (AAECP II) conducted in 1992, the Australian Government has indicated, among others, its strong commitment to support ASEAN in the environmental sector. This commitment to regional environmental cooperation is reflected as one of the main objectives of the AAECF Phase III (1994-1998). The AAECF will have projects that focus on technology transfer, including through applied research and development, in agreed sectors such as, environmental management or specifically, marine science; energy efficiency, conservation and demand management; and industrial waste management. Among the two programme planning workshops for AAECF III, one is dedicated to the environment and telecommunication sector. Project proposals for the environmental sector are being prioritized and appraised for implementation to commence in June 1994.

The 8th Meeting of ASEAN-Canada Joint Cooperation Committee (JCC) of April 1993 agreed to explore an action programme to intensify cooperation in the environment. ASEAN has outlined its priority areas relating to capacity building and transfer of environmental technology, development of regional environmental technology, and development of regional environmental quality standards along the following thematic areas: (1) marine environment protection; (2) environmental economics; (3) nature conservation; (4) environmental management; (5) transboundary pollution; (6) environmental information, education and public awareness; and (7) activity areas arising from UNCED.

In cooperation with the US, ASEAN began the task of formulating the framework for the Environmental Improvement Programme (EIP) as agreed in the Memorandum of Understanding signed between ASEAN and the US in August 1992.

At the 4th Meeting of the ASEAN Senior Officials on Environment (ASOEN) held in Bangkok on 6-8 July 1993, the World Wildlife Fund as the initiator of the ASEAN Sub-regional Environment Trust (ASSET) has offered a grant to carry out feasibility studies on the conservation of biodiversity.

Intra-ASEAN Cooperation on Environment

Although the ASOEN were unable to meet during the period, the Working Group on Environmental Economics held a meeting in Bali, Indonesia from 28 December 1992 to 19 January 1993. Meanwhile, the activities of other Working Groups continued to progress.

❑ COOPERATION IN CULTURE AND INFORMATION

In the period under review, the COCI has had three major meetings: a) the 26th Meeting, b) the 27th Meeting and c) the Combined Meeting of the Culture and Information Working Groups.

The 26th Meeting of the ASEAN-COCI held in Cebu City, Philippines, 23-26 June 1992 adopted the

recommendations of the Working Team of COCI Experts (which met in May 1992) concerning the programming of COCI projects, the frequency and timing of COCI meetings, publicity for COCI projects, project monitoring, the management of the ASEAN Cultural Fund and the commercial dissemination of COCI products.

In order to synchronise COCI activities with the Summit which is held every three years, the Working Team of Experts agreed to adopt a three-year programming cycle for COCI projects. Accordingly, a programming exercise to define the global thrusts and priorities of the COCI was planned in May 1993. The Working Team also initiated measures to improve the monitoring of projects and recommended that each project should receive greater publicity. To achieve greater public impact, it was suggested that COCI products, where appropriate, should be translated into the national language of a Member Country; that the mass media must be better utilized; and that bigger projects with significant impact need to be considered.

Measures were also adopted to ensure that the disbursement and accounting of project funds will be managed responsibly. To facilitate the commercial dissemination of COCI products, guidelines recommended by the Second Meeting of the ASEAN Copyright Experts were adopted with relevant amendments.

At the 27th Meeting of the ASEAN-COCI, held in Singapore on 1 - 5 February, 1993, an ad hoc Task Force to Formulate the Global Thrusts and Priorities of the ASEAN-COCI was convened. The Task Force, guided by the Fourth Summit directives, recommended that all COCI projects focus on one or more of the following themes: environment, cultural traditions, women, children, drugs and AIDS. Activities selected were in promotion, training and development, research and documentation, conservation and revitalization. The Task Force also reaffirmed the need for closer coordination between COCI Working Groups, between COCI and the ASEAN Secretariat and other ASEAN Committees. The 27th Meeting agreed to hold a Combined Meeting of the Working Groups, in May 1993, to further discuss the global thrusts and priorities.

The Combined Meeting of the Culture and Information Working Groups was held in Bali, Indonesia on 10-13 May 1993 to further develop the global and sectoral thrusts and priorities for 1994-1997. The meeting agreed that the following are the major concerns which COCI should

address for its Three-Year Programme: inadequate publicity for COCI projects especially at the grassroots level and the need for more rigorous and pragmatic evaluation based on clear programme criteria.

The Combined Meeting adopted six broad strategic thrusts, namely, the promotion of ASEAN, development of source materials on culture for ASEAN studies, development of human resources, preservation and revitalization of cultural heritage, utilization of technology and the adoption of themes for its projects and activities. These themes, which are adapted from the priority areas of cooperation spelled out in the Fourth Summit, are environment, cultural heritage, women, children/youth, drugs and AIDS, social and economic integration. All COCI projects in the three-year programme cycle will focus their objectives on one or more of these themes. In addition, the Combined Meeting also recommended that projects should receive maximum public impact through closer and more effective coordination between the Information and Culture Working Groups.

A general review of COCI projects was also carried out by the Combined Meeting and the strengths and weaknesses of past programmes were noted. The culture and information sectors agreed to give emphasis to human resources development, the promotion of ASEAN awareness, research and documentation and the recognition of excellence in the fields of culture and information. The recommendations of the Combined Meeting will be considered by the 28th Meeting of COCI scheduled in Thailand on 16-21 August 1993.

A number of projects were completed during the period under review. Projects in literary and ASEAN studies completed during this period include the ASEAN Writers' Conference Workshop which was held on 3-9 December 1992. The Workshop was attended by writers from all Member Countries and discussed issues including the establishment of a translation bureau, an ASEAN library of language and literature, and a compilation of an anthology of ASEAN women writers.

A number of activities were also completed in the area of visual and performing arts. The Joint ASEAN Performing Troupe was completed in this period. The Third ASEAN Theater Festival was hosted by Thailand on 21-29 November 1992. This year's theme was "ASEAN Theater: New Forms and Directions". Activities included theater performances from all Member Countries with each sending about 20

officials and cast, lectures on stage craft and theater productions, and discussions on directing, playwriting and acting. The Second ASEAN Composers Forum on Traditional Music was held on 11-24 April 1993 at the Centre for Music Activities in the National University of Singapore. It was attended by composers, ethnomusicologists and musicians with research backgrounds in Western and/or traditional music.

In the area of radio and television, the 6th ASEAN Festival of Songs was held in Bangkok on 3-12 May 1992. This year's theme was "Six in One Paradise". Activities ranged from a composer's workshop which completed the ASEAN Theme Song "ASEAN, We Are One" and a gala performance at the Thailand Cultural Centre on 12 May 1992.

The Seminar on Children and Television in the ASEAN region was held in Bogor, Indonesia on 21-25 September 1992. Several papers were presented and covered topics such as the impact of television on children, quality in children's programmes, and educational programming. Working Groups discussed a broad range of issues including ethical guidelines for children's television.

In the area of films/video, a preview of the documentary, "Film/Video Documentary on Investment Opportunities in the ASEAN Region" was held in Manila on 8-9 February 1993. The Conference Workshop on ASEAN Audio/Video and Film Retrieval, Restoration and Archiving was implemented on 11-16 January 1993. Attended by participants who are experts in film archiving and restoration, the meeting discussed training needs and film exchanges in the region and reviewed the latest technologies used in film archives.

The 4th ASEAN Film Week/Exchange was held in Bangkok on 19-25 April, 1993, attended by film personages comprising producers, directors, scriptwriters, archivists, exhibitors, distributors, film critics, actors and actresses. Films, documentary films, as well as country papers on future development, trends and prospects for the ASEAN film industry were presented for comments and exchange of views.

In the area of interpersonal media, the project, "ASEAN Attachment/ Exchange Programme for Information Officers" was completed in 1992. Each

Member Country was represented by five information officers who were sent to each of the other five countries for attachment with radio/television stations, newspaper companies, academic institutions, private companies and regional information offices.

A number of COCI projects have been successfully implemented over the past year. Most notably, the COCI, guided by Fourth Summit directives, has completed a programming exercise to review its past activities, chart its future course and consider new priority themes for its programmes and activities.

□ COOPERATION IN SOCIAL DEVELOPMENT

ASEAN's commitment to the promotion of social development in the region was reaffirmed by the ASEAN Heads of Government during the Fourth Summit. This commitment is reflected in a number of directives emanating from the Fourth Summit which pertain specifically to social development concerns, such as the enhancement of ASEAN awareness through the expansion of ASEAN studies in school and university curricula; the introduction of ASEAN student exchange programmes at secondary and tertiary levels of education; the proposal to establish an ASEAN University; women and children concerns; the problem of AIDS; and the participation of NGOs in intra-ASEAN functional cooperation.

The ASEAN Committee on Social Development (COSD) and its Sub-committees/subsidiary bodies continued to play a pivotal role in promoting ASEAN's cooperative programmes on social development and in translating the Fourth Summit directives into relevant activities. The COSD held its 17th Meeting in Jakarta on 24-27 November 1992.

Noting that there are several programme areas competing for limited funds, COSD requested its subsidiary bodies to draw up their respective mission statements and to identify the strategies which will guide the subsidiary bodies in the formulation of their projects.

Following are the highlights of COSD's programmes and activities for the year 1992-1993:

YOUTH DEVELOPMENT

The development of youth as future leaders and partners in nation building is a common concern and responsibility of the ASEAN Member Countries. The need to prepare the youth of ASEAN for an effective and active role in a rapidly changing world has been the underlying philosophy of ASEAN's cooperative programmes under the ASEAN Sub-committee on Youth (ASY). There was one critical element missing, however, i.e., a comprehensive approach in the development of the next generation of ASEAN leaders who are capable of looking beyond the confines of their respective national boundaries and towards a greater ASEAN solidarity and sense of belonging.

This subject was addressed by the First ASEAN Ministerial Meeting on Youth held in Jakarta on 7–8 August 1992. The ASEAN Ministers on Youth recalled that the Declaration of Principles to Strengthen ASEAN Collaboration on Youth signed by the ASEAN Foreign Ministers in Bangkok on 24 June 1983 covered a number of strategies in promoting the youth as an integral part of social and economic development. These strategies covered, among others, the creation of access to education and job opportunities, enhancement of solidarity, exchange of information on youth, promotion of youth as human resources, and the participation of youth in non-governmental organizations. These strategies were the solid bases for the development of ASEAN youth for the present and for the future.

The Ministers on Youth made three important decisions at their First Meeting. First, they adopted the ASEAN Youth Development Strategy Towards the Year 2000 and Beyond as the Framework of ASEAN Youth Policy. Second, the Ministers on Youth adopted the Plan of Action for ASEAN Youth Development which outlines the different actions required at the national and regional levels to implement the strategy on youth development. Third, the Ministers declared the 8th of August as ASEAN Youth Day. The first ASEAN Youth Day was celebrated in Indonesia in 1992 which coincided with the First Ministerial Meeting on Youth. The next celebration will be held in Brunei Darussalam in 1993.

In the meantime, in the ASEAN Secretariat, a Senior Officer under the Functional Cooperation Bureau has been designated as focal point for youth to coordinate and monitor ASEAN youth affairs on a permanent and regular basis.

The 10th Meeting of the ASEAN Sub-committee on Youth (ASY) held in Bali on 9–12 February 1993 reviewed the status of implementation of projects. For the period under review, six projects were completed, namely:

- 1) Computer Application Camp for ASEAN Youth Workers, Singapore, 4–10 May 1992;
- 2) Exchange Programme for ASEAN Junior Youth Development Officers, Philippines, 12–18 July 1992;
- 3) ASEAN Youth Day, Indonesia, 6–8 August 1992;
- 4) Handicraft Workshop for ASEAN Youth, Thailand, 10–21 September 1992;
- 5) Workshop on Youth and Cooperative Work, Thailand, 10–20 September 1992;
- 6) ASEAN Workshop on Youth Entrepreneurship Development, Malaysia, 4–31 October 1992.

Two projects are on-going, namely, the ASEAN Volunteer Corps Exchange Programme coordinated by Malaysia, and Preparing Rural Youth for a Better Future in Agriculture coordinated by Thailand. Nine projects are pending implementation. Almost all of the projects implemented by the ASY received funding support from the Japan-ASEAN Exchange Programme (JAEP).

Following the request of the COSD, the ASY adopted a mission statement to guide its future activities, that is, "to prepare ASEAN youths as future leaders, to enhance youth contribution to world peace, progress and prosperity, and to promote and strengthen ASEAN youth cooperation and solidarity through supportive policies and programmes.

ROLE OF WOMEN

ASEAN's continued commitment to advance the role of women was given fresh impetus by the Fourth Summit which called for the "wider involvement and increased participation by women in the development of the ASEAN countries in order to meet their needs and aspirations."

The AWP has adopted the following mission statement: "to achieve a more effective and equitable participation of ASEAN women at all levels of society in national and regional development, both as active agents and beneficiaries, through appropriate government policies and programmes and by maximising the close cooperation between government and non-government organizations."

During the period under review, the AWP reached a milestone in its efforts to promote the Declaration on the Advancement of Women in ASEAN signed by the ASEAN Foreign Ministers in July 1988. At its 12th Meeting held in Singapore on 21-23 April 1993, AWP, after two years of deliberations and consultations, adopted the Guidelines to Operationalize the Declaration on the Advancement of Women in ASEAN and the Recommendations for the Mainstreaming of Women in ASEAN. The Guidelines outline the different measures and steps to be taken at the national, regional and international levels to promote the equitable and effective participation of women in the political, economic, social and cultural fields.

For the period under review, AWP completed the project on the ASEAN Experts Meeting on Future Cooperation Among ASEAN Clearinghouses on Women in Development, held in Jakarta on 6 – 8 October 1992 with funding from JAEP. Arising from the Experts Meeting were four recommendations, now under consideration by AWP, which pertain to a joint publication programme on ASEAN Clearinghouses on Women in Development, training on the use of CDS/ISIS for ASEAN Clearinghouses on Women in Development, a regional meeting on strategies for training of trainers for the dissemination of information with special reference to the grassroots level and the general public, and a workshop on the improvement of the Thesaurus on Women in Development.

The AWP also undertook a Gender Sensitivity Training Course for ASEAN Bodies conducted by the Asian Institute of Management with funding support from CIDA. The Course was held in Bali on 3-5 February 1993 and was attended by nineteen participants from the ASEAN Member Countries and the ASEAN Secretariat.

Two other activities which were completed during the period were: (1) the Meeting on the Prevention of Family Violence held in Kuala Lumpur on 3-5 May 1993; and (2) the Meeting on the Network on Indicators and Statistics on Women held in Jakarta on 29 June - 1 July 1993.

Women's organizations in ASEAN continued to be involved in AWP meetings and activities through the ASEAN Confederation of Women's Organizations (ACWO). It has been a tradition for the ACWO President to render a report of its activities at the annual AWP meetings. One of the most significant activities conducted by ACWO during the year was the holding of a conference on the theme " AIDS and the ASEAN Women - Challenges for the 21st Century" held in Kuala Lumpur on 13-17 April 1993. The main objective of the Conference was to strengthen and mobilize women NGOs in the ASEAN region in the prevention and control of the spread of the HIV infection.

The AWP focal points are now updating their directories of women's organizations for circulation at the next AWP meeting. In the meantime, Member Countries will continue to involve NGOs, both in the planning and implementation of their projects.

HEALTH and NUTRITION

Urbanization and economic progress in ASEAN have resulted in changes in health patterns. Thus, while the ASEAN Member Countries have generally been successful in reducing the number of deaths from infectious diseases, they are now faced with an upsurge of non-communicable chronic diseases or so-called lifestyle diseases, such as coronary heart disease, stroke, diabetes, high blood pressure and cancers.

In recent years, ASEAN has been confronted with yet another alarming problem, the HIV/AIDS epidemic. Following the Fourth Summit directive for ASEAN to establish a Task force on AIDS and to initiate a regional programme against AIDS, the ASEAN Sub-committee on Health and Nutrition (ASCH & N) during its 10th Meeting held in Singapore on 21-23 July 1992, laid down the groundwork for the convening of the First Meeting of the Task Force on AIDS. The First meeting of the Task Force on AIDS was held in Jakarta on 31 March -2 April 1993.

The activities which the ASCH & N pursued during the year under review included three completed projects and one on-going project. One of the completed projects was a Seminar on Nutrition Improvement Efforts and Delivery Systems: Assessment of the State-of-the-Art in ASEAN. The Seminar was held in the Philippines on 1 - 5 September 1992 with funding from JAEP.

The ASEAN Primary Health Care Project was also completed. Under this project, and through the ASEAN Institute for Health Development based in Thailand, six international training programmes were conducted between 1991-1992. Masteral degrees in Primary Health Care Management were awarded to nine participants from three ASEAN Member Countries. Funding from the US to the ASEAN Scholarship Programme for Applied Tropical Medicine and Public Health (TROPMED) based in Thailand terminated during the period under review.

The project on Technical Cooperation in Pharmaceuticals Among ASEAN Countries is on-going. Although UNDP funding for this project terminated in 1991, five activity areas for 1992 received funding support from the World Health Organization (WHO) in the amount of US\$109,497. The different project components are being prioritized by Indonesia as project coordinator with the end in view of having the proposal for extension submitted to other donor countries.

EDUCATION

The ASEAN Sub-committee on Education (ASCOE) is a newly established subsidiary body of COSD. ASCOE met for the first time in Jakarta on 10-12 September 1992. High on the agenda of that first meeting were the Fourth Summit directives concerning the expansion of ASEAN studies in school and university curricula, the introduction of ASEAN student exchange programmes at secondary and tertiary levels of education, and the proposal to establish an ASEAN University.

With regard to the directive on the expansion of ASEAN studies as part of Southeast Asian studies in the curriculum at the primary, secondary and university levels of education, ASCOE agreed to establish an ASEAN Experts Group to formulate the essential content of the curriculum to enhance ASEAN awareness among students at the primary and secondary levels of education.

In view of funding constraints which precluded the establishment of a separate group of experts to address the directive to introduce ASEAN student exchange programmes at the secondary and tertiary levels of education, ASCOE agreed to task the Experts Group on Curriculum the responsibility of also formulating the student exchange programme. On both directives, the terms of reference of

the Experts Group were limited to primary and secondary levels of education, considering that flexibility in curriculum design at the tertiary level existed.

Following the above decision of ASCOE, the Experts Group on Education met for the first time in Quezon City, Philippines on 15-16 January 1993. Arising from that meeting is a proposal entitled "A Project on Integrating ASEAN Studies in the Primary and Secondary Schools' Curricula" which includes a component on the student exchange programme. The proposal is due for consideration at the next ASCOE meeting scheduled in 1993.

The matter of the proposed establishment of an ASEAN University received unanimous support from ASCOE. The Sub-committee, however, agreed that the implementation of the recommendations to establish an ASEAN University need not proceed sequentially in phases as recommended by the study team which prepared the report on Establishing an ASEAN University in 1991. Instead, the Sub-committee agreed that ASEAN could immediately proceed to the third stage of implementation of the proposed plan which envisions the establishment of the network of centres of degree-granting institutions in the ASEAN region.

Pursuant to this decision of ASCOE, a Consultative Meeting of the ASEAN Group on ASEAN University was held in Jakarta on 27-29 January 1993. The Group came up with a number of recommendations which included the implementation of academic exchange programmes for staff members of ASEAN universities and the establishment of an ASEAN Fellowship Programme; the setting up of joint research programmes on subject matters of common interest; and the facilitation of a teaching programme on ASEAN studies in view of the difficulties in organizing joint degree programmes. These recommendations of the Consultative Meeting of the ASEAN Group on ASEAN University will be tabled for consideration by the next ASCOE Meeting tentatively scheduled in August/ September 1993.

POPULATION

The ASEAN Heads of Population Programme have not met since 1987. In this regard and in view of the fact that the ASEAN Population Coordination Unit which used to service the ASEAN Heads of Population Programme has been dissolved, population concerns have been placed under the direction of COSD, as agreed at the 17th COSD Meeting.

LABOUR

The complex world economic environment and greater global competition, the emergence of regional trading blocs, the rising tide of new forms of protectionism, and the rapid pace of technological development constitute some of the more formidable challenges now confronting labour relations and labour management relations in ASEAN. It was against this backdrop that the 9th Meeting of the ASEAN Labour Ministers was held in Manila on 26-27 November 1992.

At their 9th Meeting, the ASEAN Labour Ministers expressed their concern over such issues as the forms of restrictions and unfair practices in the field of trade and the linkage of labour and human rights with trade issues. To address this concern, the Ministers agreed that ASEAN Member Countries should speak with one concerted voice to resist protectionist barriers and the linking of trade issues with compliance to rigid International Labour Organization (ILO) labour standards. Toward this end, the Ministers agreed that ASEAN missions in Geneva should work closely together and in consultation with ASEAN representatives to the Governing Body to resist protectionist activities. They also urged ILO to focus more on cooperative approaches to common problems such as workers' protection, employment creation, technical cooperation, and productivity improvements.

Among the various projects considered, the 9th ASEAN Labour Ministers Meeting accorded high priority to the project on Human Resource Development Planning. The Ministers also reviewed the status of programmes/projects on labour coordinated by the ASEAN Sub-committee on Labour Affairs (ASCLA). ASCLA, which held its 3rd Meeting in Kuala Lumpur on 3-4 November 1992, is primarily responsible for formulating policy and operational guidelines for intra-ASEAN cooperation in the field of labour based on decisions of the Ministers of Labour and other relevant ASEAN bodies. It is also responsible for the planning, coordination, and management of ASEAN collaborative projects on labour.

One of the activities brought to the attention of the Ministers by ASCLA was a sub-regional workshop under the ASEAN Labour Information Network (ALINE) Project held in Jakarta on 12-13 January 1993. The Workshop explored further collaboration on regional information networking, including the setting up of an ASEAN regional information centre.

NATURAL DISASTERS

The ASEAN Experts Group on Natural Disasters did not meet during the period under review. Its next meeting, the 8th, is tentatively scheduled on 9-11 August 1993 in Langkawi, Malaysia. One of the pending items to be taken up at this forthcoming meeting is the draft guidelines on definition and scope of man-made disasters arising mainly from human error and brought about by modern technology.

CHILDREN

One of the directives emanating from the Fourth Summit concerned the development of children to realize their full potential. Following the recommendation of the ASEAN Women's Programme to treat women and children concerns separately considering that both concerns deserve special focus and attention, COSD, at its 17th Meeting, agreed to place children's concerns under the immediate purview of COSD. This arrangement would be maintained until such time that sizeable and substantial programmes on children were formulated to merit a proposal to establish a separate Sub-Committee for Children. In the meantime, Member Countries were requested to designate their respective desk officers for children to coordinate relevant programmes.

ASEAN TASK FORCE ON AIDS

As mentioned previously under the section on Health and Nutrition, an ASEAN Task Force on AIDS was established to initiate a regional programme against AIDS as directed by the Fourth Summit. The Task Force held its First Meeting in Jakarta from 31 March to 2 April 1993.

Some of the highlights derived from the country reports and papers presented during the meeting include the following :

- 1) The number of HIV+ and AIDS cases in each of the ASEAN Member Countries has increased steadily. By WHO estimates, there are now 2.5 million AIDS cases in the world of which about 40,000 cases are in the ASEAN region. WHO predicts that by the end of the century one million adults in Asia will become infected with HIV each year;

- 2) High-level national committees/councils/bodies have been formed in ASEAN Member Countries to prepare and implement national strategies for the prevention and control of AIDS. The common features of these national strategies are AIDS prevention education campaigns (targeting both high-risk behaviour groups and the general public), surveillance, screening of national blood supply, counselling services and improvement of management, health-care and research services;
- 3) Some of the problems and constraints identified are the need to establish a more accurate picture of the extent of the disease in Member Countries and in the region; differing perceptions and points of view among decision makers on the extent, impact, management and control measures to be taken; religious, cultural and social taboos and sensitivities which get in the way of education campaigns; shortage of trained manpower to deal with health education, studies and research, management and counselling of infected cases; and funding constraints.

The ASEAN Task Force on AIDS also arrived at a number of decisions and recommendations. Recognizing that the HIV/AIDS problem is not only a health issue but also covers varied and multi-sectoral concerns (e.g., education, economic, social, cultural, legal, etc.), the meeting agreed to include the participation of experts from these other sectors in the Task Force. The meeting also agreed that the Task Force be constituted as a permanent body reporting directly to COSD, rather than an ad-hoc body reporting through the ASEAN Sub-committee on Health and Nutrition. Moreover, a Five-Year Regional Programme on HIV-AIDS will be formulated based on concept papers/proposals to be submitted by Member Countries to the ASEAN Secretariat at least three months before the next meeting of the Task Force. External funding will be sought for this purpose.

□ COOPERATION IN DRUGS AND NARCOTICS CONTROL

Although funding for projects of the ASEAN Senior Officials on Drugs (ASOD) has been difficult to obtain in

the period under review, the past year has been a fruitful one in fostering more intensive international collaboration on narcotics control between ASEAN and non-member countries.

At its 15th Meeting held in Kuala Lumpur on 27-30 July 1992, ASOD reviewed its projects, cooperation programmes with Dialogue Partners and also noted the developments in the drug abuse situation in Member Countries. Working groups were also convened in prevention education, treatment and rehabilitation, law enforcement and research. Several major projects which were extensively discussed in the workshops included the three proposals on prevention, rehabilitation and law enforcement which have been sent to the EC for consideration.

Cooperation with ASEAN's Dialogue Partners on drug matters has further intensified during the review period. Most notably, ASEAN-EC cooperation on narcotics matters was reaffirmed at the 10th ASEAN-EC Ministerial Meeting (AEMM) held in Manila, Philippines on 29-30 October 1992, with both sides calling, in particular, for more efficient measures to counter the illicit traffic of narcotics and psychotropic substances, the laundering of financial proceeds from illicit trafficking and the diversion of trade in precursor chemicals. In January 1993, an EC technical assistance mission comprising two experts was sent to ASEAN to review and assess the needs of each Member Country in drug rehabilitation and drug abuse prevention. A final report is being prepared by the EC and will be made available to ASEAN Member Countries.

Another EC-sponsored project concerns control over the trade in precursor chemicals used in the manufacture of illicit drugs. The project was endorsed at the ASEAN-EC SOM on Drugs held in Bangkok in May 1992 and the 10th ASEAN-EC JCC Meeting held in Brussels in September 1992. Among the activities proposed was a seminar to introduce ASEAN participants to the EC's legal mandates in precursor control, its administrative machinery, intra-regional technical and administrative cooperation strategies, the latest investigative technologies being used in the EC, the scope of chemicals covered and the role of chemical industries in precursor control. The seminar was held in April 1993 and included an intensive series of lectures and field trips to Belgium, France, Germany and the Netherlands.

Two other projects under ASEAN-EC dialogue have been completed: i) the ASEAN Research and Training Programme for the Detection of Drugs Abuse in Body Fluid and ii) Development and Validation of Evaluation Instruments for Preventive Drug Education.

Furthermore, there are three pending projects being considered for funding by the EC, namely, the ASEAN Three-Year Plan of Action on Preventive Drug Education, the ASEAN Training Course for Drug Rehabilitation Professionals, and the ASEAN Narcotics Law Enforcement Personnel Development Project.

The Three-Year Plan of Action on Preventive Drug Education consists of several projects addressing prevention information, the family context of drug use, workplace prevention of drug problems, the mobilization of parents and youth and an evaluation of drug education programs. The project is coordinated by the Philippines.

The Counselling Course for Drug Rehabilitation Professionals is proposed by Malaysia and will sponsor a series of training seminars on group and aftercare counselling for drug counsellors from the region. A course for research and evaluation and a "think-tank" session for senior drug treatment officials is also planned.

The ASEAN Narcotics Law Enforcement Personnel Development Project is intended to strengthen the interaction capabilities of the region's narcotics enforcement officers. Proposed by Thailand, where the ASEAN Narcotics Law Enforcement Training Centre is located, the project is expected to sponsor several training workshops addressing issues such as the management of intelligence gathering, money laundering, forfeiture of assets and undercover investigation.

On the matter of the proposed ASEAN-US conference on drugs, which was originally broached by the US, ASEAN has not been able to get any funding commitment from the US. At the 11th ASEAN-US Dialogue held in Bandar Seri Begawan on 15-16 May 1993, this matter was taken up again with the US. However, the US suggested that ASEAN

refer the matter to the U.S. International Narcotics Matters Bureau.

In line with the Fourth Summit Declaration that "ASEAN shall intensify its cooperation in overcoming the serious problem of drug abuse and illicit trafficking at the national, regional and international levels", ASOD invited a representative from INTERPOL to its 15th Meeting. ASOD also sought and obtained approval from the First Meeting of the 26th ASEAN Standing Committee held on 7-9 October 1992 to invite observers from Laos, Vietnam and Papua New Guinea to the 16th ASOD Meeting scheduled for October 1993.

To strengthen collaboration between government and non-government organizations in the fight against drugs, the 15th ASOD Meeting considered an application by the ASEAN NGOs for the Prevention of Drug and Substance Abuse for a formal working relationship with ASEAN. The application was subsequently approved by the 26th ASEAN Standing Committee at its Third Meeting on 27-28 May 1993.

❑ COOPERATION IN CIVIL SERVICE MATTERS

The Second Seminar/Workshop on the Analysis of Foreign Policy for Mid-Career Diplomats was held from 30 November to 9 December 1992 in Manila. The holding of the workshop was supported with funding from the Japan-ASEAN Exchange Programme (JAEP). The objective of the seminar was to upgrade the skills and knowledge of selected ASEAN participants in the analysis of international events using appropriate methodologies and technologies to meet the immediate need of their own respective countries.

The ASEAN Conference on Civil Service Matters (ACCSM) convenes once every two years. The last meeting was held in Bandar Seri Begawan in September 1991 with the theme "The Role of the Civil Service in Meeting the Challenges of the Year 2000 and Beyond" and the next ACCSM is scheduled on 7 October, 1993.

ASEAN EXTERNAL RELATIONS

The Fourth ASEAN Summit held in January 1992 in Singapore agreed that, as part of an increasingly interdependent world, ASEAN should intensify cooperative relationships with its Dialogue Partners and engage in consultative relationships with interested non-dialogue countries and international organizations.

The agenda of most Dialogue Meetings included political and regional matters for the first time. Capping this development was the holding of the first SOM-PMC in Singapore on 20-21 May 1993. The SOM-PMC agreed to hold consultations at least once a year and adopted a work programme to guide its future activities.

ASEAN continued to expand its cooperative ties with other countries and regional organizations. The meeting between ASEAN and Indian Senior Officials on the establishment of the ASEAN-India Sectoral Dialogue was held in New Delhi on 16-17 March 1993. Discussions on the ASEAN-People's Republic of China (PRC) consultative relationship have been initiated.

Several regional organisations have expressed interest to establish relations with ASEAN. These include the South Asia Association for Regional Cooperation (SAARC), the Rio Group, the Gulf Cooperation Council and the Economic Cooperation Organisation (ECO). ASEAN is currently studying the various proposals from these regional organisations.

Rapid global changes and the growing interdependence of the world economy has made responsive action toward the resolution of international economic issues more compelling. During the Dialogue Meetings, ASEAN continued to press for an early conclusion of the Uruguay Round and put forward the expectation that its outcome would be balanced and beneficial to all participants. ASEAN also continued to engage its Dialogue Partners in an exchange of views on AFTA and other regional trading arrangements such as NAFTA and the Single European Market. ASEAN requested the support of its Dialogue Partners for the CEPT Scheme in GATT.

Development cooperation between ASEAN and its Dialogue Partners continued to be developed on the basis

of mutuality of interest - shifting away from the traditional donor-recipient relationship. ASEAN became increasingly involved in the participation, design, implementation and review of development cooperation projects. The period under review saw a number of Dialogue Partners redefining or shifting their priorities towards cross-sectoral areas, technology transfer mechanisms and the environment. In a number of programmes, development cooperation has become inextricably linked with commercial and industrial cooperation which are being shaped increasingly in partnership with the private sector.

DIALOGUE RELATIONS

□ ASEAN-AUSTRALIA

Since formal dialogue relations between ASEAN and Australia started in 1974, the priority areas of cooperation through the ASEAN-Australia Economic Cooperation Programme (AAECP) have shifted from food and agriculture to trade, investment, and science and technology with increasing emphasis on the transfer, development, and the commercialization of technology. New areas for cooperation such as education, telecommunications and environment have also been identified recently.

ASEAN-Australia science and technology cooperation has fostered intra-ASEAN collaboration, strengthened ASEAN science and technology institutions, and promoted human resources development. ASEAN and Australia will continue to emphasize research and development, technology transfer as well as the commercialization of technologies. The 15th ASEAN-Australia Forum, noting the past record of success of cooperation in science and technology, agreed to emphasize these areas as the coordinating themes for the AAECP.

At the 15th ASEAN-Australia Forum, the Working Group on Education and Training agreed to the following areas of cooperation in education: regional language training, institutional links, recognition of skills and qualifications and vocational and technical education. Australia hosted the Regional Vocational English Language Workshop in February 1993 in Jakarta. The workshop reviewed national policies, resources and needs for English language training

in ASEAN. The Working Group on Education also recommended the following areas for vocational and technical education: agriculture, industrial and engineering skills and hotel catering and tourism.

ASEAN and Australia recognize the increasing significance of environmental issues and the need for closer cooperation between ASEAN and Australia on environmental matters. At the 14th Forum, Australia expressed interest in having closer contact with the ASEAN Senior Officials on the Environment (ASOEN). During the 15th Forum, the Workshop on Environment was convened and attended by officials of ASOEN. It discussed several topics for projects including atmospheric haze, environmental economics, risk assessment and environmental regulations.

On cooperation in telecommunications, Australia offered training assistance through its Department of Transport and Communications, and training visits through AUSTEL. ASEAN has indicated interest and will prioritize its training needs before forwarding them to Australia for consideration. At the 15th Forum, the Working Group on Telecommunications reiterated the value of having Australia share its experiences with ASEAN on telecommunications policy development.

A joint mid-term review of the AAACP II (1989-1994) was carried out from 8 February to 7 March 1992 to: a) review the performance of the programme and recommend changes before Phase II ends; b) recommend a framework for future cooperation after Phase II ends in June 1994. The Review identified the following as the key elements of the AAACP II: development assistance, technology transfer, establishment of networks and institutional linkages, human resources development and commercial facilitation. The Review noted that while the AAACP has been strongest and most effective in the areas of training and HRD, the commercialization of projects has been more difficult to accomplish. It underscored the need for more commercialization, improved management, and greater publicity for AAACP projects.

ASEAN and Australia attach great importance to the promotion of greater trade and investment between them. ASEAN was Australia's fourth largest trading partner but the balance of trade is in Australia's favour. Two-way trade between Australia and ASEAN reached A\$ 10.4 billion in 1991. Australian exports to the ASEAN region reached

a record high of A\$ 6.6 billion while ASEAN's exports to Australia amounted to A\$ 3.8 billion. The growth in trade, however, was not matched with increase in the volume of investments. Australian investments in ASEAN amounted to only 7 percent of Australia's overseas investments in 1990 despite an increase from A\$ 1.6 billion in 1989 to A\$ 3.2 billion in 1990. Meanwhile, ASEAN investments in Australia reached A\$ 7.7 billion in 1990-1991 period. At the 15th Forum, both sides agreed that it was important to further develop two-way investment and expressed concern for tariff and non-tariff barriers as major impediments to the expansion of trade. In mid-1992, Australia conducted a series of seminars on countervailing duty and anti-dumping duty actions to brief ASEAN on its procedures.

Regional political and security issues were discussed for the first time at the 15th Forum. Australia viewed the accession of Vietnam and Laos to the Treaty of Amity and Cooperation in Southeast Asia in July 1992 as a "major positive development" in the context of their integration into the ASEAN process. Australia also expressed support for the new approaches to strengthen regional security cooperation in the post Cold War era and the role of the ASEAN-PMC in promoting consultations on regional security issues.

❑ ASEAN-CANADA

The 8th Meeting of the ASEAN-Canada Joint Cooperation Committee (JCC) was held in Jakarta on 6-8 April 1993. The meeting finalized the draft Successor Agreement on ASEAN-Canada Economic Cooperation. The Agreement, which replaces the expired 1981 Agreement, will be signed during the Post-Ministerial Conferences in Singapore in July 1993. The draft Successor Agreement brings ASEAN and Canada into a new era of partnership based on mutuality of interests and the recognition of the important role that the private sector has to play in promoting ASEAN-Canada cooperation.

At the 8th JCC, ASEAN briefed Canada on AFTA and underlined the fact that it was GATT-consistent and an outward-looking regional trading arrangement. Canada welcomed AFTA and agreed with ASEAN on the need to exchange information on NAFTA and AFTA. Canada expressed strong support of GATT-consistent, trade-creating arrangements. Canada acknowledged ASEAN's request for

Canadian support of the CEPT Scheme for AFTA in GATT. Canada expressed its readiness to support the development of AFTA and its eventual consideration by GATT.

Substantial progress has been achieved in the area of development cooperation. There are a number of on-going projects in the area of science and technology, agriculture as well as in forestry that are well underway. Projects in solar drying processes, grain and fisheries post harvest technology projects and marine resource science are also being implemented for agro-industry. During the period under review, two project agreements were signed, namely: 1) the Memorandum of Understanding between ASEAN and Canada on the ASEAN Institute of Forest Management signed at the last ASEAN Post-Ministerial Conference in July 1992, and 2) the Exchange of Letters on the ASEAN-Canada ASEAN Women's Programme signed on 12 March 1993. Canada also contributed the amount of C\$100,000 for the Third ASEAN Science and Technology Week which was held in Singapore in September 1992.

The Regional Training Programme (RTP) continued to respond effectively to short- and long-term requirements of ASEAN Member Countries. In order to maximize the utilization of funds under the Programme, Canada agreed in principle that the unutilized funds from the long-term component may be shifted to the short-term component. Two new projects were approved under the RTP, namely: Telecommunications Management, and Spectrum Management.

ASEAN and Canada shared the view that development cooperation should be more strategic in nature in order to achieve greater impact on the larger objectives of cooperation in the region. In pursuit of this common objective, Canada will consult closely with ASEAN in the formulation of its regional policy framework for development assistance. Canada identified new priority areas as follows: 1) economic cooperation; 2) policy development and support; 3) environment; and 4) governance and administrative reform.

□ ASEAN-EUROPEAN COMMUNITY

The Foreign Ministers of ASEAN and the European Community had a comprehensive exchange of views on a

number of global and regional political and economic issues at the 10th ASEAN-EC Ministerial Meeting on 29-30 October 1992.

It was noted that since the signing of the ASEAN-EC Cooperation Agreement in 1980, commercial, economic and development cooperation has made significant progress. Both groups being outward-looking, GATT-consistent and supportive of the process of trade liberalization - the EC moving to a single market and the ASEAN to a free trade area - ASEAN and EC agreed to continue to accelerate joint efforts in enhancing ASEAN-EC relations.

To further promote trade and commercial cooperation, the 10th Ministerial Meeting agreed on the following measures: (a) both sides would continue to improve access to their respective markets to maintain a high rate of growth in two-way trade; (b) both sides would cooperate to create and enhance rapid information networks linking business operators in the two regions, for example, through the establishment of business information centres and networks of European Chambers of Commerce in ASEAN; (c) the EC would provide more systematic information on the Single European Market with the view to assisting ASEAN to adjust to changes and market opportunities.

ASEAN and EC have reaffirmed the importance of private sector participation in ASEAN-EC industrial and investment cooperation. The private sector from both sides have been encouraged to participate in the various ASEAN industrial programmes and in the EC Investment Partner (ECIP) scheme in order to realize more ASEAN-EC joint venture projects. The ECIP scheme has been extended since it first began in 1989. To date, 101 projects have been financed while resources for each ECIP project has been increased to one million ECU. Since the 10th AEMM, concrete steps have been undertaken by the EC to extend funding facilities of the European Investment Bank (EIB) to ASEAN. In May 1993, EIB officials met with ASEAN officials in Manila to present the Framework for EIB activities in Asia and Latin America.

At the 10th ASEAN-EC Joint Cooperation Committee (JCC) in Manila on 29-30 October, 1992, both ASEAN and EC agreed to improve their relations by creating four Sub-committees to support the JCC, namely; (1) Sub-committee on Economic and Industrial Cooperation; (2) Sub-committee on Trade; (3) Sub-committee on Drugs; and (4) Sub-committee on Forests. Later, it was also

proposed to establish another sub-committee, namely, the Sub-committee on Science and Technology.

ASEAN and EC also agreed to hold the 11th ASEAN-EC Meeting in Manila in January 1994 back-to-back with the ASEAN-EC SOM and the 5th Trade Meeting.

On global and other regional issues, ASEAN and EC held the view that the end of the Cold War presented unprecedented opportunities for enhanced cooperation between developed and developing nations. Both sides called for renewed international cooperation to address the multifarious concerns of developing nations such as the eradication of poverty, debt relief, access to markets, transfer of technology and environmental protection.

Determined to take advantage of the end of the Cold War and to reinforce security and stability in the Southeast Asian region, the EC Ministers, at the 10th Ministerial Meeting, welcomed the accession of Vietnam and Laos to the ASEAN Treaty of Amity and Cooperation in Southeast Asia and looked forward to wider cooperation in the entire Southeast Asia in ensuring lasting regional peace and stability in the Asia-Pacific region. In addition, to emphasize the need to resolve all sovereignty and jurisdictional issues pertaining to the South China Sea by peaceful means and without resort to force, the EC Ministers also endorsed the ASEAN Declaration on the South China Sea issued in July 1992.

□ ASEAN-JAPAN

The ASEAN-Japan Forum marked a point of departure from previous Forum Meetings when it was elevated to Senior Officials level from both sides and included political and security issues on the agenda for the first time. ASEAN and Japan share a common concern to maintain regional peace and stability to provide an environment conducive to sustained economic development of countries in the region. Japan co-sponsored ASEAN's resolution on the Treaty of Amity and Cooperation in Southeast Asia which was adopted by consensus at the 47th UN General Assembly.

At the 13th ASEAN-Japan Forum of 16-17 February 1993, ASEAN and Japan discussed a number of specific matters in the area of bilateral economic relations and cooperation, covering ASEAN's market access requests including Japan's GSP for ASEAN-processed products,

Foreign Access Zones (FAZs), investment cooperation, commodities and financial cooperation. ASEAN requested an expansion of the scope of Japan's GSP, and suggested possible measures to promote Japanese direct investment to ASEAN, including a programme to encourage transfer of technology. ASEAN also expressed concern over recent moves to restrict the trade in tropical timber in the name of environmental conservation. Japan explained its efforts to improve its GSP scheme, and also stated that it was working towards setting up FAZ in seven cities and prefectures. Japan indicated measures that ASEAN could take in order to improve its investment environment.

On development cooperation, Japan agreed to consider the possibility of contributing to the ASEAN Social Development Fund (ASDF) after the Fund had been set up by ASEAN. ASEAN has already forwarded a list of project proposals for funding under the ASDF. At the 13th ASEAN-Japan Forum of 16-17 February 1993, ASEAN requested Japan to make a formal offer on the mode of financing assistance to ASDF as a follow-up to the suggestions made by a Japanese contact mission during its visit to Singapore in October 1991. The ASEAN-Japan Friendship Programme for the 21st Century (AJFP), which started in 1983, is expected to expire in 1993.

ASEAN and Japan's Senior Officials exchanged views on regional political and security issues at the 13th ASEAN-Japan Forum. ASEAN and Japan generally agreed in their assessment of the current state of regional strategic situation. In particular, Japan believed that the current regional security was relatively stable. Both also concurred on the importance of political and security dialogues through existing fora. Given the changing political and security scenario, ASEAN has a major interest in participating in contributing to regional consultations on peace and security. Japan endorsed the ASEAN Post-Ministerial Conference as "an appropriate forum" for multilateral political and security dialogue. Japan also welcomed the convening of ASEAN-PMC Senior Officials Meeting.

□ ASEAN-NEW ZEALAND

In the 11th Meeting of ASEAN-New Zealand Dialogue of 16-17 June 1992, ASEAN and New Zealand expressed agreement that greater efforts should be made to further consolidate and enhance cooperation between them for mutual benefits.

ASEAN and New Zealand agreed to take concrete steps to boost investment cooperation through the implementation of various projects under the Trade and Investment Promotion Package (TIPP), designed to develop sustainable commercial links and increase the awareness of the economic opportunities existing in each of the respective markets. The increased involvement of the private sector, through the ASEAN-New Zealand Business Council, both in Dialogue Meetings and in projects under the TIPP, has also been useful and instrumental in promoting the existing cooperation in investments.

On development cooperation, the establishment of a Joint Management Committee (JMC) to plan, monitor, and review the whole spectrum of ASEAN-New Zealand relations has been agreed at the 11th Meeting of ASEAN-New Zealand Dialogue of 16-17 June 1992. In this regard, a Memorandum of Agreement/ Exchange of Letters will be concluded between ASEAN and New Zealand.

In 1992, ASEAN completed the consolidated ASEAN project on the Utilization of Natural Gas for Natural Gas Vehicle. A Management Service Agent has been appointed to implement the project starting January 1993. In the context of enhancing indigenous scientific and technological activities in ASEAN countries, New Zealand has pledged an annual cash contribution to the ASEAN Science Fund amounting to NZ\$ 100,000 for three consecutive years beginning 1990. New Zealand's support for the Fund reflects its recognition of the importance of science and technology as a basis for sound economic and social development. ASEAN received a contribution from New Zealand amounting to a total of NZ\$ 100,000 for the Fourth ASEAN Food Conference and the Third Science and Technology Week celebrations held in Singapore in September 1992.

□ ASEAN-REPUBLIC OF KOREA

The Republic of Korea (ROK) became a Dialogue Partner of ASEAN at the ASEAN Ministerial Meeting/Post-Ministerial Meeting in July 1991. Prior to this, an ASEAN-ROK Joint Sectoral Cooperation Committee (JSCC), an inter-government consultative body, was established to facilitate the ASEAN-ROK Dialogue relations. The First Meeting of ASEAN-ROK Dialogue was held on 11-13 May 1993.

The ROK Government as well as the Korean private sector intend to further enlarge their trade links with ASEAN by means of countertrade and a variety of financing methods. Considering Korea's rapidly expanding trade pattern, ASEAN countries offer potential opportunities for further expansion in the medium and long-term. Various high-level visits have taken place to increase bilateral trade and to establish multi-faceted relations with ASEAN countries through an expanded flow of capital and technology, while seeking to achieve a horizontal inter-industry division of labour.

The Second Meeting of the ASEAN-ROK JSCC agreed that the ASEAN-ROK cooperation should be expanded to other areas such as development cooperation, transfer of technology and human resource development in addition to trade, investment and tourism. Several project proposals under the framework of the expanded areas of cooperation have been proposed by ROK for implementation during the FY 1992-1993. These include, among others, Technical Transfer Programme in Agricultural Development and Basic Research Project for Supporting the Establishment of Science and Technology Policy and Research and Development Management System in ASEAN countries.

On international issues, ASEAN and ROK agreed to continue to undertake cooperative efforts in creating a more open world trading system on commodities and processed products and towards stabilizing prices and promoting downstream processing. ASEAN appreciated the support given by ROK against the campaign on eco-labelling of tropical timber products.

ASEAN and ROK have noted with satisfaction some accomplishments in the development cooperation programme such as those successfully implemented, among others, the ASEAN Travel Fair held in Seoul in April 1993 and the installation of the Computer E-Mail System which links ASEAN Member Countries and the ASEAN Secretariat.

□ ASEAN-UNITED NATIONS DEVELOPMENT PROGRAMME

The United Nations Development Programme (UNDP) is the only international organization which is a Dialogue

Partner of ASEAN. The year under review has been a vital period for ASEAN-UNDP cooperation. Two major UNDP-supported projects for ASEAN, namely the (a) Strengthening of the ASEAN Secretariat and (b) the Establishment of Programmes and Projects Management System (PPMS) are underway. These are expected to be completed by December 1993.

The recommendations of the first UNDP project under the cover of the report entitled "Strengthening the Structure and Mechanism of ASEAN with Special Reference to the ASEAN Secretariat", contributed to the Fourth Summit decision to restructure the ASEAN Secretariat, the process of which has been implemented since 1 January 1993. All the new and openly-recruited staff have now been recruited following a newly-restructured ASEAN Secretariat. The PPMS has completed a project proposal for the consideration by ASEAN on the establishment of the ASEAN Cooperation Unit (ACU), Programme/Project Appraisal Guidelines and a Programme Planning Framework. The Projects Appraisal Committee (PAC) of the ASEAN Secretariat shall be responsible in implementing the Project Appraisal Guidelines in assessing and prioritizing all projects for Third Country funding.

UNDP funded a study team to review the ASEAN-UNDP programme which came out with a report entitled "Partnership in Progress: ASEAN-UNDP Cooperation". The report concluded that UNDP assistance to ASEAN under the recently completed Fourth Cycle of the Inter-Country Programme (ICP), 1987-1991, contributed to the promotion of sub-regional cooperation on the whole. The ASEAN Sub-regional Programme (ASP-4) combined with future directions of ASEAN cooperation provided the basis for improvements in the formulation of ASP-5.

The ASEAN Sub-regional Programme for the Fifth Cycle, 1992-1996, represents the first attempt at providing a thematic and programmatic framework of UNDP technical cooperation to ASEAN. Following the new directions laid out by the 37th UNDP Governing Council and the Fifth Cycle Inter-Country Programme Advisory Note, ASP-5 has adopted new approaches to programme formulation and execution. These approaches are designed to render UNDP assistance more responsive and able to generate greater impact. Two main themes have been adopted to unify diverse priorities and to focus programme thrusts and activities: (a) human development of the sub-region's human resource potential and (b) sustainable economic reform

through the expansion and intensification of ASEAN economic cooperation. The environment and natural resources were also underlined as an area of high priority in the sub-region. Similarly, programme execution by ASEAN is designed to promote self-reliance through decentralized mechanisms and use of indigenous sub-regional expertise as appropriate.

The total funds of US\$ 12 million available for the ASP-5 falls short of the requirements to meet all the ASEAN project proposals for UNDP funding. Therefore, the Programme would comprise only those proposals that meet ASEAN's high priority need of promoting sustainable regional cooperation. The projects will be determined by the criteria adopted at the UNDP-ASEAN Conference on Technical Cooperation Programme held in Lake Toba on 23-24 November 1990. Furthermore, emphasis will be given to large-scale interlocking activities, rather than small, disjointed projects in order to maximise the benefits of such assistance.

In keeping with the ICP-5, ASP-5 adopted the programme approach and incorporates a number of innovative features which include the following:

- a) Focus on integration-oriented, designed towards building ASEAN as a regional entity and forging an ASEAN identity;
- b) Forward-looking thrust to provide further impetus to ASEAN sub-regional cooperation, in particular, the establishment and operationalization of AFTA;
- c) Formulation of multisectoral programme packages as a result of the thematic rather than sectoral approach;
- d) Establishment of linkages between national, sub-regional and regional programmes;
- e) Building capacity for project execution by the ASEAN Secretariat; and
- f) Consistent with the programmatic approach, ASP-5 adopted a system of programme "earmarks", rather than the conventional method of programming resources on a project basis.

□ ASEAN-UNITED STATES

There has been a remarkable growth of ASEAN-US trade which has more than doubled over the last decade. This development was noted at the 11th ASEAN-US Dialogue of 15-16 May 1993. The joint Trade and Investment Cooperation Committee (TICC) had been very useful in addressing trade and investment concerns of the two sides. ASEAN explained that with AFTA, there is a greater move to liberalize and expand intra-ASEAN trade and investment. The US indicated its support for ASEAN efforts toward economic liberalization and reiterated that it welcomes ASEAN's decision to create AFTA.

The ASEAN private sector has noted that cooperation between the public and private sectors played a vital role in improving trade and investment relations between ASEAN and the US. Moreover, the Dialogue was considered as the key forum to ensure continuity of a good relationship. The ASEAN private sector raised a number of issues for consideration by both ASEAN and the US Government which focused primarily on near-term issues such as the early successful conclusion of the Uruguay Round, Section 301, trade-related environmental issues, voluntary restraints agreements, tariffs and non-tariff barriers, investment expansion and trade promotion. The US was urged to refrain from taking unilateral trade actions with special reference to Section 301 against ASEAN Member Countries.

On the other hand, the US private sector wanted to focus on the longer-term perspective of ASEAN-US trade and investment relations. It proposed that ASEAN and the US Government work towards close cooperation which would take the form of an ASEAN-US Free Trade Arrangement, bilateral double taxation treaties and bilateral investment agreements with ASEAN Member Countries. ASEAN and the US agreed on the need for a follow-up mechanism, such as the Economic Coordinating Committee, to monitor the progress of the private sector proposals.

The year under review saw significant progress made on the on-going development projects especially on the Private Investment Trade and Opportunities (PITO). The Environmental Improvement Programme (EIP) has been approved and is scheduled to be implemented soon. On development cooperation, it was felt that there is a need to rationalise all projects in view of the current

circumstances and that, future programmes be closely examined. In particular, ASEAN would like to see enhanced programmes which would encourage people-to-people contact as it was felt that more benefits would accrue from increased understanding of each other.

At the 11th ASEAN-US Dialogue, the United States Agency for International Development (USAID) informed ASEAN that the US would like to concentrate its assistance programmes for 1992-1997 on three areas of cooperation, namely: (1) expansion of intra-ASEAN and ASEAN-US trade and investment; (2) management and technical skills upgrading; and (3) transfer of US technology to improve the economic and efficient use of ASEAN national resources by domestic industries. Consistent with these priority themes, the PITO project and the EIP will remain to be the main vehicles of US assistance to ASEAN through 1997.

For the first time, the ASEAN-US Dialogue included in its agenda international and regional political and security issues. These issues of mutual concern included Cambodia, the Middle East, Bosnia-Herzegovina, the South China Sea and Indo-Chinese refugees. On the Spratly issue, ASEAN and the US welcomed the confidence-building measures introduced to manage the possibility of conflict in the South China Sea including a series of workshops convened for this purpose. The US reaffirmed its support for the ASEAN Declaration on the South China Sea which called for a peaceful settlement of disputes. The US reiterated its policy not to take any position on the validity of the competing claims and would support the process of peaceful settlement.

EXTERNAL RELATIONS

The Fourth Summit held in January 1992 in Singapore agreed that, as part of an increasingly interdependent world, ASEAN should intensify cooperative relationships with interested non-dialogue countries and international organizations. The period saw Laos and Vietnam assuming Observer status in ASEAN, the establishment of ASEAN-India Sectoral Dialogue and the discussions on ASEAN-People's of Republic of China (PRC) consultative relationship. Various regional organizations have also approached ASEAN to establish cooperative relationships.

❑ LAOS AND VIETNAM

At the 25th ASEAN Ministerial Meeting in July 1992, Laos and Vietnam acceded to the Treaty of Amity and Cooperation in Southeast Asia. On the same occasion, ASEAN accorded them the Observer status in ASEAN. ASEAN is in the process of determining ways of engaging Laos and Vietnam in ASEAN activities.

❑ ASEAN-INDIA

The meeting of ASEAN and Indian Senior Officials on the establishment of Sectoral Dialogue between ASEAN and India was held in New Delhi on 16-17 March 1993. The Meeting noted and affirmed the exchange of letters between the two sides on the establishment of Sectoral Dialogue relations between ASEAN and India in such areas as trade, investment and tourism. In the area of trade, India proposed four areas of cooperation which could form the basis for future discussions in Sectoral Dialogue meetings. These proposals involve : 1) the holding of regular trade talks between India and ASEAN; 2) the establishment of a mechanism for the exchange of trade and commercial data; 3) the promotion of linkages between the business communities of India and ASEAN; and 4) the establishment of a mechanism for interaction on industrial standards and quality.

The meeting noted that India would be establishing a fund under the Indian Technical and Economic Cooperation (ITEC) to develop programmes and projects in the fields of tourism, administration and management, trade and investment, computers and informatics and solar energy and environmental protection. This fund would be placed at the disposal of the ASEAN Secretariat and administered by a Joint Management Committee which will be established for this purpose.

ASEAN also put forward several proposals such as an Information/Promotion Centre for Trade/Investment, lists of investment opportunities for investors from both sides, an increased exchange of trade missions and trade fairs and the development of joint marketing strategies for the promotion of exports to third countries. India

informed ASEAN of changes in investment policies and the improvement of investment incentives on the Indian side and proposed joint ventures between ASEAN and India.

The ASEAN-India Joint Sectoral Cooperation Committee (JSCC) will be set up as the inter-governmental consultative body to coordinate the ASEAN-India Sectoral Dialogue relations. The meeting also agreed to set up an ASEAN-New Delhi Committee consisting of the Heads of Diplomatic Missions of ASEAN Member Countries in New Delhi to facilitate ASEAN's Sectoral Dialogue relations with India. ASEAN and India also agreed to establish a Joint ASEAN-India Business Council which will consist of representatives from the respective private sectors of ASEAN and India.

❑ ASEAN-PEOPLE'S REPUBLIC OF CHINA

The Chairman of the ASEAN Standing Committee invited the PRC as Guest at the 25th AMM held in Manila in 1992. On this occasion, the Chinese Foreign Minister proposed to establish programmes for cooperation in science and technology, trade and economic relations with ASEAN. ASEAN has decided to send a delegation to Beijing to be headed by the ASEAN Secretary-General to explore the Chinese proposals and other possible areas of cooperation.

❑ RELATIONS WITH REGIONAL ORGANIZATIONS

Interests have been expressed by several regional organizations proposing to establish or strengthen existing relations with ASEAN. These organizations include the South Pacific Forum, Economic Cooperation Organization (ECO), South Asian Association for Regional Cooperation (SAARC), the Rio Group, and the Gulf Cooperation Council. ASEAN is currently studying the various proposals from these regional organisations.

THE RESTRUCTURING OF THE ASEAN MACHINERY AND THE ASEAN SECRETARIAT

THE RESTRUCTURING OF THE ASEAN MACHINERY AND THE ASEAN SECRETARIAT

RESTRUCTURING OF ASEAN INSTITUTIONS

The Fourth Summit's decisions on the restructuring of ASEAN institutions were implemented during the period under review. This included the restructuring of the ASEAN machinery for economic cooperation and the establishment of SEOM. The other involved the establishment of SOM-PMC; and the third was on the strengthening and restructuring of the ASEAN Secretariat.

The New Mechanism for Economic Cooperation

The restructuring of the ASEAN machinery for economic cooperation involved the dissolution of the five economic committees with a view to entrusting all aspects of ASEAN economic cooperation to SEOM by 1 January 1993. Underlying this decision was the need to forge a greater degree of hierarchical coherence in the policies and programmes for economic cooperation and the need to foster a trans-sectoral orientation in the economic programmes of ASEAN. The move was also intended to provide impetus for achieving the goals of AFTA.

The 24th ASEAN Economic Ministers' Meeting (AEM) held in Manila on 22-23 October 1992 approved the new mechanism for economic cooperation and handed over to SEOM the outstanding and future activities in the fields of trade and tourism; industry, minerals and energy; finance and banking; food and agriculture; and transport and communications. SEOM was institutionalized and was vested with the mandate to carry on the work of the AEM in between meetings.

The 24th AEM retained the subsidiary bodies as recommended by the Economic Committees for a provisional period of one year. During this period they shall be reporting to SEOM through the Secretary-General of ASEAN. The ASEAN Secretariat was requested to submit its recommendation to the 25th AEM on the continuation, reconstitution or dissolution of these subsidiary bodies.

Establishment of SOM-PMC

The establishment of the SOM-PMC was a further step in implementing the decision of the Fourth Summit to intensify ASEAN's external dialogues on political and security matters. In May 1993, Senior Officials from ASEAN and their counterparts from Dialogue Partner countries met for the first time in Singapore to engage in multilateral political and security consultations. The consultations covered a wide range of regional security matters of interest to ASEAN and its Dialogue Partners. The meeting agreed that the SOM-PMC should be held at least once a year. A work programme was adopted by the senior officials to guide future activities.

Strengthening of the ASEAN Secretariat

In January 1993, the restructured ASEAN Secretariat became operational, poised to carry out its enlarged set of functions as mandated by the Fourth Summit. Headed by the Secretary-General, the new team of ASEAN Secretariat professionals comprises one Deputy Secretary-General, four Directors, eleven Assistant Directors, and eight Senior Officers. The Secretariat had been expanded from three to four Bureaus - General Affairs, Economic Cooperation, Functional Cooperation and Economic Research - the last one being newly established to support the Secretariat's new role to provide advice on, initiate, and implement ASEAN activities.

His Excellency, Dato' Ajit Singh from Malaysia, assumed his post as head of the ASEAN Secretariat on 1 January 1993. He has been redesignated as Secretary-General of ASEAN, appointed on merit for a renewable five-year term, with ministerial status, and an enlarged mandate. Staffing of the Secretariat, which has moved from national nomination to open recruitment, was completed during the first quarter of 1993. A total of twenty-four professional staff have been recruited, almost twice the size of the previous professional staff complement of fourteen before the reorganization.

Within the ASEAN Secretariat, the ASEAN Cooperation Unit (ACU) has been organized to assist in programme/project development and in prioritizing project proposals competing for external and internal resources for funding support. The ACU would be initially composed of existing personnel under the supervision of the Deputy Secretary-General. Meanwhile, the ASEAN Secretariat has completed the development of project appraisal guidelines and standard project formats to guide ASEAN bodies, as well as the ACU, in their tasks of project development and review.

ASEAN SECRETARIAT

The year 1993 marked the beginning of a new chapter in the history of the ASEAN Secretariat. The Protocol amending the Agreement on the Establishment of the ASEAN Secretariat signed at the 25th AMM in Manila provided the Secretariat with a new structure. The Protocol also vested it with an expanded set of functions and responsibilities to initiate, advise, coordinate and implement ASEAN activities. This expansion in the responsibilities of the Secretariat is intended to strengthen the institution so that it can effectively support the important initiatives promulgated by the Fourth Summit. The Secretary-General has been redesignated as the Secretary-General of ASEAN and appointed on merit for a renewable five-year term. New terms and conditions for attracting high-calibre professional staff through open recruitment were also provided. The new Protocol was a landmark document in the evolution of the ASEAN Secretariat.

Mission Statement and Work Programme

Early in the year, the ASEAN Secretariat adopted a Mission Statement which reflected the spirit of the Fourth Summit: "towards intensifying and strengthening intra-ASEAN cooperation". Guided by this Mission Statement and equipped with its new mandate, the Secretariat developed a work programme designed to provide responsive support to the tasks of the various ASEAN bodies. The Work Programme also contains a number of initiatives to translate into action the elements of the "Framework Agreement for Enhancing Economic Cooperation" signed by the Heads of Government in Singapore.

AFTA remains to be an important focus of the Work Programme. The finalization of the CEPT list, the harmonization of nomenclature of CEPT products, the compilation of ASEAN non-tariff barriers, and impact analyses of AFTA, are some of the more important activities which the Secretariat plans to undertake during the year. In June 1993, a symposium on AFTA was organized by the Secretariat to identify the critical path of major activities needed to ensure the successful and timely implementation of the CEPT.

In other sectors, the Work Programme has indicated some of the supportive and facilitative steps that would be needed to assist Member Countries in enhancing cooperation in various fields. The Eight-Point Initiative for Commodities endorsed by the Third ASEAN Summit will be monitored. The industrial cooperation agreements (e.g. AIJV, AIP, BBC) and their implementing rules will be reviewed in the light of AFTA and the structural changes in the ASEAN machinery. Regional mechanisms to facilitate the transfer of technology will continue to be looked into. In this regard, the Secretariat will actively participate in cooperation activities relating to intellectual property rights.

Enhanced participation and more substantive inputs will be provided to the various specialized working groups in finance, banking, and insurance. The same will be done for the various specialized groups in food and agriculture. Initiatives will be taken in the formulation of responsive project proposals supportive of the programme of action in transportation and communications. Linkages with the private sector through the ASEAN-CCI will be strengthened and enhanced.

In the field of functional cooperation, the ASEAN Secretariat will take the initiative in formulating comprehensive action plans with well-defined objectives and programmes in the various sectors, more specifically, science and technology, environment, social development, culture and information, and drugs and narcotics. Effective and synergistic linkages between ASEAN institutions will be promoted.

Along this line, the ASEAN Secretariat will take steps towards the establishment of collaborative network with industrial research institutions with a view to developing endogenous technological capability in areas with potential for commercialization. Supportive action will also be taken towards the establishment of the ASEAN University. Special studies to assess the implications of AFTA on labor and employment will be initiated in collaboration with relevant research institutions.

Continuing research will be undertaken to generate more information on political and regional security concerns. Steps have been initiated to develop a strategic information centre in the Secretariat to house relevant information on ASEAN which could be made available to the public and private sectors. Plans to develop, acquire and install specific databases are being carefully studied in the light of their substantial resource implications.

Attendance in ASEAN Meetings

The Secretary-General, the Deputy Secretary-General and the ASEAN Secretariat staff continued to participate in and provide technical support to ministerial meetings, annual dialogue meetings, various senior officials meetings, and working group meetings. To enhance its effectiveness in providing secretariat services to meetings, the systematic use of computers in rapporteurial work and in data storage has been put in place. The capability of the Secretariat has been enhanced with additional computers and increased use of the E-mail system.

As part of his enlarged mandate, the Secretary-General of ASEAN has been given the responsibility to chair, on behalf of the Chairman of the ASEAN Standing Committee, all meetings of the Standing Committee except the first and the last. The ASEAN Secretariat hosted two meetings of the ASC since July 1992.

With the restructuring of the mechanism for economic cooperation under SEOM, the ASEAN Secretariat has assumed a more central role since the subsidiary bodies under SEOM now report to the ASEAN Secretariat. The Secretariat staff participated actively in the meetings of the subsidiary bodies and in a number of working groups. Proposals and issues emanating from these meetings were elevated to the SEOM meetings. The ASEAN Secretariat hosted two meetings of SEOM and three meetings of its Interim Working Group.

The Secretary-General attended a number of overseas conferences and seminars, since he took office in January 1993. He visited Little Rock, Arkansas on 5-9 January 1993 at the invitation of the Mid-South International Trade Association, and following that, attended the Annual Secretaries of State Conference in Washington, D.C. These occasions provided the opportunity to meet with the US leadership and the business community to promote ASEAN.

In February 1993, the Secretary-General was speaker on the topic "The Role of Inter-governmental Organizations in Conflict Resolution" at the Second International Negotiation Network organized by the Carter Center. In the same event, he also served as panelist on the topic on Myanmar.

In March 1993, the Secretary-General led the ASEAN Senior Officials to New Delhi to establish ASEAN-India Sectoral Dialogue relations. The New Delhi Meeting discussed the form and substance of the cooperative relations between the two sides in the areas of trade, investment and tourism. The ASEAN Secretariat was tasked to proceed with the implementation of the various decisions, among others, to establish appropriate mechanisms to facilitate and intensify the sectoral dialogue relationships.

In April 1993, the Secretary-General delivered the keynote speech on the topic "Towards Increased Intra-ASEAN Trade" during the First ASEAN Forum organized by the ASEAN Institute in Singapore.

In June 1993, the Secretary-General was also invited to participate in the Asia Leaders Forum at Fort Douglas, Australia. Consistent with the theme of the Conference, the Secretary-General spoke on the topic of ASEAN's role in APEC.

Important Events

The year 1992 marked the 25th Anniversary of the founding of ASEAN. On this occasion, the ASEAN Secretariat took the initiative of coordinating the Member Countries on the release of taped messages from all ASEAN Heads of Governments on 9 August 1992. The ASEAN Secretariat also coordinated other commemorative activities to celebrate the event, with the full support of the ASEAN Embassies in Jakarta and the Ministry of Foreign Affairs in Indonesia.

In April 1993, the ASEAN Secretariat had the distinct privilege of being honored by the visit of the Prime Minister of Thailand, His Excellency, Mr. Chuan Leekpai. He was the first Head of Government to visit the ASEAN Secretariat. The Prime Minister was briefed on the new structure of the Secretariat, its activities, and the contributions of Thailand to ASEAN cooperation. The visit of the Prime Minister was preceded by the visit of the Foreign Minister of Thailand in February 1993.

**ASEAN CALENDER
JUNE 1992 - JULY 1993**

ASEAN CALENDAR

JUNE 1992 - JULY 1993

COOPERATION IN FOOD, AGRICULTURE AND FORESTRY

PROJECT CATEGORY/STATUS	C	D	E	REMARKS
I. FOOD				
1. ASEAN Food Security Reserve A2/B2	ASEAN Food Security Reserve Board (AFSRB)		ASEAN	Following negative response from Japan, the AFSRB in November 1992 agreed to seek funding from other Dialogue Partners as well as from ASEAN's internal funds. In order to attract potential donor funding, the project will be divided into components to focus on specific areas.
2. ASEAN Canada Grain Post Harvest Programme (AGPP) A2/B2	Thailand	Canada	Thailand	In view of Canada's assistance that would be terminated in July 1993, ASEAN requested six months extension for the preparation of a project document on the establishment of an ASEAN Grains Postharvest Technology Centre.
3. ASEAN Grain Postharvest Technical Centre (AGPTC) A2/B1	Thailand		To be determined	The establishment of AGPTC was proposed to undertake the grain postharvest activities especially the programme to strengthen the food security status in Member Countries. The 14th AMAF Meeting in October 1992 supported the establishment of the Centre.
II. AGRICULTURE				
4. ASEAN-EC Collaborative Programme on Grains Postharvest A2/B3	ASEAN Food Handling Bureau (AFHB)	EC	ASEAN	The activities of the project were completed in December 1992.
5. ASEAN - Australia Postharvest Systems Improvement Project (AAPSIP) A2/B2	AFHB	Australia	ASEAN	The activities of the two components had been implemented satisfactorily. Study tour on livestock handling and transportation and study tour on postharvest had been conducted in Australia. Consultancy services on livestock and horticulture had continuously been provided in each Member Country.
6. ASEAN Grain Bulk Handling Systems Improvement Programmes A2/B4	AFHB	EC	Indonesia, Malaysia, Philippines and Thailand	Since EC could not support the project financially, SCOFH agreed to explore another donor funding
A - Category of Projects 1. Short Term 2. Long Term		B - Indicative Status 1. Preparatory 2. Implementation 3. Completed 4. Withdrawn		C - Project Coordinator D - Participating Dialogue Partners/Organisations or Other Sources E - Project Location

COOPERATION IN FOOD, AGRICULTURE AND FORESTRY

PROJECT CATEGORY/STATUS	C	D	E	REMARKS
7. Regional Workshop on Strategies for the Prevention and Control of Aflatoxin A1/B1	AFHB		ASEAN	Since Germany could not provide funding assistance, alternative sources of funds are being sought.
8. Improvement of Handling Practices in Fishing Communities A2/B1	AFWG/ AFHB		ASEAN	The project proposal was submitted to New Zealand for possible funding. New Zealand's response is being awaited.
9. Study Visit to Successful Agricultural Projects in ASEAN A1/B1	AFHB		ASEAN	ASC considered that the project did not meet the criteria for JACPP assistance and advised to explore other sources of funding.
10. ASEAN Development Planning Centre (ADPC) A2/B2	Thailand	USA	Bangkok	Following the inability to seek funding assistance for Phase III, the BOP ADPC at its 15th Meeting in July 1993 agreed to submit two plans to the concerned agencies for funding assistance. The first is the "Project Proposal for the On-going ADPC Activities during October 1993-September 1996 (3 years)" which BOP ADPC agreed to submit to the ASEAN Fund. The Second is the "Transitional Period Plan for the Period October 1993 up to September 1994" which the BOP Meeting agreed to submit to the RTG Fund while awaiting the response from the ASEAN Secretariat on the first plan.
11. ASEAN Plant Quarantine and Training Institute (PLANTI) A2/B2	Malaysia	USA	Serdang, Malaysia	Following New Zealand's refusal to fund the phase III of the project, ASEAN to seek sponsorship from other funding sources such as FAO, JICA, DANIDA, GTZ, UNDP and ADB.
12. ASEAN Rainfed Agriculture Network A2/B3	Indonesia	Indonesia, national funding	Yogyakarta, Indonesia	The workshop was held on 2-4 February 1993.
13. Pilot Production Modules on Multi Storey Cropping System of ASEAN A2/B2	Philippines	Philippines, national funding	Philippines	The project was being implemented by the Philippines using its national funds.
A - Category of Projects 1.Short Term 2.Long Term		B - Indicative Status 1. Preparatory 2. Implementation 3. Completed 4. Withdrawn		C - Project Coordinator D - Participating Dialogue Partners/Organisations or Other Sources E - Project Location

COOPERATION IN FOOD, AGRICULTURE AND FORESTRY

PROJECT CATEGORY/STATUS	C	D	E	REMARKS
14. ASEAN Pesticide Management A2/B2	Philippines	Philippines, national funding	Philippines	The project would be continued as an exchange of information among Member Countries.
15. Centre for Irrigation System Management for ASEAN (CISMA) A2/B3	Philippines	Philippines, national funding	Philippines	Completed.
16. ASEAN Training Course in Pest Surveillance and Forecasting A2/B2	Indonesia	Indonesia and JICA	Jatisari, Indonesia	The project was implemented under the Indonesia-JICA Third Country Programme. The fourth training was conducted on 1 February - 14 March 1993. The next training is scheduled on November/December 1993.
17. ASEAN Network for Germplasm Collection, Conservation Evaluation and Exchange A2/B1	Philippines		ASEAN	EC's response is still pending.
18. ASEAN Seed Research and Seed Technology Development Centre A2/B1	Thailand		ASEAN	The project would be implemented on a networking basis among ASEAN Member Countries.
19. Network on the Use of Soil Taxonomy within ASEAN Countries as the Integrated Approach in Rehabilitation and Reclamation of the Slopelands A2/B1	Indonesia		ASEAN	The project would be implemented on a networking basis among ASEAN Member Countries.
20. ASEAN Fruits Research and Development Centre A2/B1	Thailand		Thailand	In view of long standing consideration by Japan, the proposal would be revised and resubmitted to Japan. The new project title would be "ASEAN Cooperation in Fruit Research and Development."
21. Agricultural Project Formulation, Monitoring and Evaluation A2/B1	BOP - ADPC		Bangkok, Thailand	The project was not included under the list of projects to be funded under the ASP-5.
<p>A - Category of Projects 1.Short Term 2.Long Term</p> <p>B - Indicative Status 1. Preparatory 2. Implementation 3. Completed 4. Withdrawn</p> <p>C - Project Coordinator D - Participating Dialogue Partners/Organisations or Other Sources E - Project Location</p>				

COOPERATION IN FOOD, AGRICULTURE AND FORESTRY

PROJECT CATEGORY/STATUS	C	D	E	REMARKS
22. Preparing Rural Youth for a Better Future in Agriculture A2/B2	Thailand	Japan	Bangkok Thailand	The project was being participated by all ASEAN Member Countries, except Brunei Darussalam. ASEAN agreed to institutionalize the ASEAN Youth Development Centre and extend the project into phase II beginning 1995.
23. ASEAN Centre for the Development of Agricultural Cooperatives (ACEDAC) A2/B2	Indonesia		Jakarta	The ACEDAC Board Meeting was held in Jakarta on 17 February 1993 preceded by the 2nd Workshop. The Centre's programme focuses on the development of training manual on cooperative entrepreneurship and joint research on agricultural cooperatives.
24. Sharing and Strengthening Development Support Communication (DSC) Resources Phase II A2/B1	Indonesia	UNDP	ASEAN	The project would be restructured to act as an umbrella project for other relevant projects. In relation to this, a project proposal is currently being developed incorporating the following components: ASEAN DSC phase II, women in development, agricultural youth and agricultural cooperatives.
25. Farming System Development Exchange Programme A1/B1	Philippines		ASEAN	Third party funding is being explored.
26. Seminar / Study Visits on the Transfer of Appropriate Agri-based Rural Women A1/B1	Philippines	EC	Quezon City, Philippines	As requested by the EC, the project proposal is being revised to meet the EC's criteria.
III. FORESTRY				
27. ASEAN-Canada Forest Tree Seed Centre - II A2/B2	Thailand	Canada	Muak-lek Thailand	The 13th PSC Meeting was held in Bangkok, 15-17 February 1993. During the period under review, the activities were refocussed on the programme to improve the seed and genetic resources components of ASEAN reforestation.
A - Category of Projects 1. Short Term 2. Long Term		B - Indicative Status 1. Preparatory 2. Implementation 3. Completed 4. Withdrawn		C - Project Coordinator D - Participating Dialogue Partners/Organisations or Other Sources E - Project Location

COOPERATION IN FOOD, AGRICULTURE AND FORESTRY

PROJECT CATEGORY/STATUS	C	D	E	REMARKS
28. ASEAN Institute of Forest Management A2/B2	Malaysia	Canada	Malaysia, CCTT	The activities of Phase II of the project had been started following the signing of the MOU in Manila in July 1992. Under the project, a pilot project would be carried out in each Member Country to develop the expertise and capabilities in the field of forest management.
29. Continuation of End-use Survey of ASEAN Wood Products. A2/B1	CGFo		ASEAN	Third party funding is being explored.
30. ASEAN Timber Technology Centre (ATTC) A2/B2	Malaysia	EC	Kuala Lumpur	EC indicated its interest to continue its assistance to Phase II of the project. While the Financing Agreement is being finalized, a bridging fund would be provided to cover 1993 activities.
31. Forest for Rural Community Development Centre A2/B1	Indonesia		Indonesia	Response from Japan is still pending. Other possible donor funding is being explored.
32. ASEAN Timber Bureau A2/B1	Malaysia		To be determined	The project was planned to be submitted to US for possible funding.
33. ASEAN Rattan Regeneration Centre A2/B1	Indonesia		South Kalimantan, Indonesia	Initial stage is being funded by the Indonesian Government. Meanwhile, third country funding is being explored.
34. ASEAN Network for Watershed Management and Upland Development A2/B1	Indonesia	EC	ASEAN	EC's response for the project is still pending.
IV. LIVESTOCK				
35. Veterinary Administration Development A2/B1	ASEAN	New Zealand	ASEAN	The next training is planned to be conducted in 1993, subject to New Zealand's funding commitment.
36. ASEAN Poultry Diseases, Research and Training Centre A2/B2	Malaysia	Japan	Iqoh, Malaysia	In August 1992, the APDRTC team visited ASEAN Member Countries to hold consultation with key research personnel. Based on the report of the consultations, the APDRTC would focus its activities on future needs for research and training on poultry diseases.

COOPERATION IN FOOD, AGRICULTURE AND FORESTRY

PROJECT CATEGORY/STATUS	C	D	E	REMARKS
37. Dairy Technology Course A2/B1	Indonesia	New Zealand	Indonesia	The second training entitled "Milk Quality Control" planned in November 1992 was postponed to a later date.
38. Animal Health and Production Information System for ASEAN (AHPISA) A2/B1	Indonesia		ASEAN	The ASC approved in May the submission of the project proposal for Canadian funding. Canada has indicated that it is unable to fund the project.
39. Epidemiology of Bluetongue Infection in ASEAN A2/B1	Indonesia/Malaysia		ASEAN	Third party funding for the project is being explored.
40. Upgrading of National Poultry Disease Diagnostic Laboratories in ASEAN A2/B1	Malaysia		ASEAN	Since required funding was not available from Japan, another third party funding would be explored.
41. Pig Health and Production Centre A2/B1	Thailand		Thailand	The proposal would be submitted to CIDA for funding.
42. Control Eradication of Bovine Brucellosis A2/B1	Philippines		Philippines	Since the project is still not funded, ASEAN Member Countries were requested to implement their own national control and eradication programmes.
V. FISHERIES				
43. ASEAN Aquaculture Development and Coordinating Programmes (AADCP) A2/B2	Thailand	EC	ASEAN with the Coordinator Office located in Bangkok	The Fourth PSC Meeting was held in Bali, on 14-15 November 1992. The activities of the project were satisfactorily implemented by twin ASEAN-EC institutions. A Mid-Term Evaluation Team was fielded by EC in May / June 1993.
44. ASEAN - Canada Fisheries Post - Harvest Technology Centre II A2/B1	Singapore	Canada	ASEAN	The second PSC Meeting was held in Singapore on 10-12 May 1993. The regional workshop on Fish Inspection was conducted in Jakarta, 30 November - 3 December 1992. Pilot project in each ASEAN Member Country had been initiated.

COOPERATION IN INDUSTRY, MINERALS AND ENERGY

PROJECTS CATEGORY/STATUS	C	D	E	REMARKS
<u>I. MINERALS</u>				
1. Training Course in Stability Problems in Soft Ground in Open Mines A2/B2	Malaysia	EC	ASEAN	New syllabus is being developed.
2. ASEAN - EC Workshops on Industrial Minerals A2/B2	WG on Minerals	EC	ASEAN	Further funding support is being requested.
3. ASEAN - EC Minerals Legislation Meeting A2/B2	Indonesia	EC	ASEAN	Private sector support for the Meeting is being sought by Indonesia.
4. Establishment of ASEAN Regional Development Centre in Mineral Resources (ARDCMR) A2/B1	Indonesia		Bandung, Indonesia	This project proposal is being reviewed. ASEAN would seek third party funding.
5. Study on the Feasibility of Establishing an ASEAN Training Centre for Mine Safety and Health A2/B1	Philippines		Philippines	Funding support is being sought.
6. Land Use Geology Investigation for Urban and Rural Planning A2/B1	Indonesia		Indonesia	Third party funding is being sought.
7. Study on Improvement of Land Affected by Mining A1/B1	Malaysia			Response from EC is being awaited.
8. New Process for Producing Organic Tin Chemicals Directly from Cassiterite A1/B1	Malaysia		Malaysia	Japan indicated its negative response to the project. Member Countries were suggested to coordinate with Indonesia which would be undertaking a similar study.

COOPERATION IN TRANSPORTATION AND COMMUNICATIONS

PROJECT CATEGORY/STATUS	C	D	E	REMARKS
<u>I. TRANSPORTATION</u>				
1. ASEAN Cargo Transport Study (ACTS) A2/B2	Brunei	Canada	ASEAN	Carried over project. Study intends to assist ASEAN in the introduction and/or improvement of multimodal transport and the application of computers to regional trade procedures. The project was completed with the convening of a regional workshop in Penang, Malaysia from 3 to 5 March 1992. The Final Report of the Study was published in June 1992.
2. Introduction of Multimodal Transport and New Information Technology for Transport Sector (MT-NIT) A2/B1	SCSP	UNDP/ Belgium	ASEAN	The project aims to upgrade and improve the efficiency and cost-effectiveness of ASEAN transportation system and practices. Project would be supported by UNDP during the 5th Cycle ASP (1992-1996) with possible co-financing by the Belgian Government.
3. ASEAN Transport and Communications Policy Studies A2/B1	ASEAN Secretariat	UNDP	ASEAN	The project was endorsed by COTAC and ASC for submission to UNDP for funding under the Fifth Cycle. An allocation of US\$400,000 was indicated.
4. Contingency/Response Plan Plan of Hazardous Cargo Emergencies A2/B1			ASEAN	The project aims to assist ASEAN to formulate and implement appropriate contingency plans to avoid environmental/human disasters caused by hazardous cargo incidents. The ASC approved the submission of the project to Germany for funding under the ASEAN-German Studies and Experts Fund.
5. Technical Port Operation Safety / IMO Assistance on Port Operations A1/B3	APAA	UNDP/IMO	Malaysia	The project was completed with the implementation of the last activity, a study tour to European ports in 1992. Special features of the project were development of a code of conduct for various aspects of port operations, a new contingency plan of action to improve port safety, and advisory services and training.
A - Category of Projects 1.Short Term 2.Long Term	B - Indicative Status 1. Preparatory 2. Implementation 3. Completed 4. Withdrawn		C - Project Coordinator D - Participating Dialogue Partners/Organisations or Other Sources E - Project Location	

COOPERATION IN TRANSPORTATION AND COMMUNICATIONS

PROJECT CATEGORY/STATUS	C	D	E	REMARKS
6. Safety and Load Line Regulation A1/B2	Thailand	UNDP/IMO	Thailand	A Workshop of Transport Officers will be held by the later part of 1993 in Bangkok back to back with Workshop on Technical Port Operational Safety.
7. Integrated Harbour Management Programme A2/B1	APAA	EC	ASEAN/EC	The programme intends to increase the productivity and efficiency with which the ASEAN port authorities and harbour organizations operate. The programme will be implemented over a 4-year period with the EC contributing ECU 1.5 million towards its implementation.
8. Training of Trainers for Seafarers' Academies in ASEAN Countries A1/B3		EC	Malaysia, Philippines	Two maritime training seminars were held in 1984 and 1986 in Malaysia and the Philippines, respectively. The proposal for the third seminar on "Simulation and Communications from Ship to Shore" was not approved.
9. Implementation of Maritime Conventions A2/B1	Singapore	Japan/ Australia	Japan/ Australia	<p>Two activities were planned:</p> <ol style="list-style-type: none"> 1. Seminar on Implementation of IMO Conventions and; 2. Attachment to Australia for Staff Training in the Implementation of IMO and ILO Conventions. <p>The first Seminar was submitted to the 13th ASEAN-Japan Forum in Tokyo in February 1993 and was not approved. The second activity was not submitted to Australia. Other sources of funding need to be sought.</p>
10. ASEAN Fleet Replacement Programme A2/B1	FASA		ASEAN	A proposal on "Financing ASEAN Fleet Development" prepared by FASA was sent through COTAC for consideration by ASEAN for funding on national or regional basis, with the suggested concessionary terms and conditions.
<p>A - Category of Projects</p> <ol style="list-style-type: none"> 1.Short Term 2.Long Term 		<p>B - Indicative Status</p> <ol style="list-style-type: none"> 1. Preparatory 2. Implementation 3. COOPERATION IN TRANSPORTATION AND COMMUNICATIONS

PROJECT CATEGORY/STATUS	C	D	E	REMARKS
11. Human Resource Development Shipping A2/B1			ASEAN	Several programmes under the human resources development in shipping have been incorporated in Phase II of the Transport and Communications Decade 1992/96. The implementation of the programmes depend on the availability of funds. Sources of funds need to be explored.
12. Electronic Chart Display and Information System A2/B1			ASEAN	The project aims to produce up-to-date navigational charts for the region along the guidelines set by the IMO and to introduce new ideas in hydrographic survey and new technologies in charts mapping. Comments from Member Countries on the project profile are awaited.
13. ASEAN Maritime Data Base A2/B1	ASEAN Secretariat	UNDP	ASEAN Secretariat	Project would be implemented as part of the proposed ASEAN Transportation and Communication Data Base, to be located at the ASEAN Secretariat.
14. Common ASEAN New Coastal Voyages A2/B1			ASEAN	The project concept was prepared by Malaysia and endorsed by COTAC in September 1991. The project needs further formulation.
15. Establishment of ASEAN Ship Reporting System A2/B1			ASEAN	The objective is to enhance maritime search and rescue efforts and capability within the region which will pave the way for ASEAN to accede to IMO 1979 SAR Conventions. A Working Group would meet to discuss details of the project.
16. Brokers Telegraph System A2/B2	FASC/FASA		Singapore	The BTS is aimed to complement the existing system, in particular to assist shippers and shipowners having limited or no access to international brokers. This activity will continue to be carried out by the private sector with government assistance, primarily in providing necessary support and incentives.
<p>A - Category of Projects</p> <p>1.Short Term</p> <p>2.Long Term</p>	<p>B - Indicative Status</p> <p>1. Preparatory</p> <p>2. Implementation</p> <p>3. Completed</p> <p>4. Withdrawn</p>		<p>C - Project Coordinator</p> <p>D - Participating Dialogue Partners/Organisations or Other Sources</p> <p>E - Project Location</p>	

COOPERATION IN TRANSPORTATION AND COMMUNICATIONS

PROJECT CATEGORY/STATUS	C	D	E	REMARKS
17. Inter-ASEAN Bulk Pool System A2/B2	FASA		ASEAN	This project is to pool the capacity and resources of ASEAN carriers so as to become more competitive and effective in winning freight contracts in ASEAN and other regions for bulk trade. A project proposal "Fiscal Incentives to Encourage CIF Shipments" prepared by FASA was submitted to ASEAN through COTAC.
18. Point-to-Point Shipping Service A2/B2	FASA		ASEAN	The trial point-to-point shipping services between Manila and Muara, and between Davao and Bitung were not implemented due mainly to insufficient freight movements. This kind of services would in the future be initiated by the private sector, with necessary support by the government.
19. Freight Booking and Cargo Consolidation Centres (FBCCC) A2/B2	FASC		ASEAN	Efforts to strengthen the FBCCC would be carried out by FASC as its "in-house" project. This activity would be considered completed with the establishment of FBCCC in Indonesia and Thailand.
20. Studies on Inland Waterways and Ferry Links Development A2/B3	SCLT	Japan	ASEAN	Several studies on Inland Waterways and Ferry Links Development have been completed. A Technical WG will be established to review all the reports and recommend necessary actions.
21. Publication of an Information Booklet on Classes of Driving Licences in ASEAN Countries A2/B3	SCLT			The Information Booklet was published in July 1991 and would be revised to include the definition of "Temporary Stay" referred to in the Agreement on Recognition of Domestic Driving Licences.
22. Training Course in Road Safety A1/B3	SCLT	New Zealand	New Zealand	Training course was conducted in New Zealand on 27 May-21 June 1991. Further assistance is required to implement recommendations of the Training Report.
<p>A.- Category of Projects 1.Short Term 2.Long Term</p> <p>B - Indicative Status 1. Preparatory 2. Implementation 3. Completed 4. Withdrawn</p> <p>C - Project Coordinator D - Participating Dialogue Partners/Organisations or Other Sources E - Project Location</p>				

COOPERATION IN TRANSPORTATION AND COMMUNICATIONS

PROJECT CATEGORY/STATUS	C	D	E	REMARKS
23. Seminar-Cum-Study Tour Upgrading the Efficiency of Railway Operations A1/B3	ASEAN Secretariat	Japan	Japan	The activity was conducted in Japan on 17-28 June 1991. All Member Countries except Brunei Darussalam and Singapore participated in this activity. The ASEAN Railway General Managers Conference would look into the recommendations of the participants.
24. Seminar-cum-Study Tour for Land Transportation and Highway Officials A1/B2			ASEAN	This activity has been going on for quite some time since 1981. The most recent seminar was held in Manila on 17-20 June 1992.
25. Educational Proposal to Gain Knowledge in Intermodal/Multimodal Transportation System A1/B1		Japan	Japan	Assistance from Japan is being sought to implement the project. The 13th ASEAN-Japan Forum held in Tokyo in February 1993 did not consider this project. The project would be dropped if no funding was available.
26. Short Course in Transport Management for Middle-Managers A1/B1	ASEAN Secretariat	EC	Philippines	No funding is available. The project would be incorporated in the HRD Programme in Land Transport.
27. Area/Road Pricing : Its Practicality and Acceptability in ASEAN Urban Areas A1/B1		EC	ASEAN	No funding is available. The project would form part of the Urban Transport Programme (Project 10).
28. Seminar for Senior Land Transport Officers on Transport Planning and Management A1/B4		Japan		The seminar would be incorporated into the "Workshop-cum-Seminar on Urban Transportation". This project would be submitted to Japan for funding.
29. Workshop-cum-Seminar on Urban Transportation A2/B1	Indonesia	Minister of Construction of Japan	Indonesia	The programme is intended to attain orderly development, management, operations and maintenance of urban transport system that would alleviate urban traffic congestion. The project started with a "Workshop-cum-Seminar on Urban Transportation" held in Jakarta on 23-27 November 1992. Follow-up activity is being planned.
A - Category of Projects 1.Short Term 2.Long Term		B - Indicative Status 1. Preparatory 2. Implementation 3. Completed 4. Withdrawn		C - Project Coordinator D - Participating Dialogue Partners/Organisations or Other Sources E - Project Location

COOPERATION IN TRANSPORTATION AND COMMUNICATIONS

PROJECT CATEGORY/STATUS	C	D	E	REMARKS
30. Establishment/ Development of Transport Planning Models A2/B1	ASEAN Secretariat		ASEAN	<p>The programme is intended to strengthen the planning and operational capability of ASEAN transport planners and/or operators. This will be achieved through the implementation of the following projects:</p> <p>1) Establishment/Development of Transport Planning Models and</p> <p>2) Establishment of Data Bank on Land Transport</p> <p>Funding for the first activity is being sought. The second project will be implemented as part of UNDP assistance to strengthen the ASEAN Secretariat.</p>
31. Establishment of Data Bank on Land Transport A2/B1	ASEAN Secretariat		ASEAN	<p>The programme is intended to strengthen the planning and operational capability of ASEAN transport planners and/or operators. This will be achieved through the implementation of the following projects:</p> <p>1) Establishment/Development of Transport Planning Models and</p> <p>2) Establishment of Data Bank on Land Transport</p> <p>Funding for the first activity is being sought. The second project will be implemented as part of UNDP assistance to strengthen the ASEAN Secretariat.</p>
32. Safety in Road Transport A2/B2	Malaysia		ASEAN	<p>Project is expected to produce the following outputs:</p> <p>a) Harmonized motor vehicle road worthiness, traffic safety and standards.</p> <p>b) Establishment of research centre on road safety.</p> <p>c) Contingency/response plan to hazardous cargo emergencies in land transport.</p> <p>Funding sources need to be explored.</p>
<p>A - Category of Projects</p> <p>1.Short Term</p> <p>2.Long Term</p>		<p>B - Indicative Status</p> <p>1. Preparatory</p> <p>2. Implementation</p> <p>3. Completed</p> <p>4. Withdrawn</p>		<p>C - Project Coordinator</p> <p>D - Participating Dialogue Partners/Organisations or Other Sources</p> <p>E - Project Location</p>

COOPERATION IN TRANSPORTATION AND COMMUNICATIONS

PROJECT CATEGORY/STATUS	C	D	E	REMARKS
33. Establishment of Regional Centres of Excellence A2/B2	ASEAN Secretariat	Japan/ Belgium	Philippines, Malaysia, Indonesia	Project will establish Centres of Excellence on Road Transport in the Philippines, Railway in Malaysia, and Ferry/Inland Waterways in Indonesia to provide training in related fields. The Road Transport Training Centre has been established with bilateral assistance from Japan and appraisal mission has also been sent to Malaysia. Belgium has agreed in principle to finance the Ferry and Inland Waterways Training Centre in Palembang, Indonesia.
34. Establishment of Centres of Excellence a) Aviation Security Training Centre A2/B2 b) Disabled Aircraft Removal/ Recovery Techniques and Airport Emergency Planning Training Centre A2/B4	Malaysia Brunei	Canada	Malaysia	Projects (a) and (b) are to complement the existing Civil Aviation Training Centres (CATCs) in Indonesia, the Philippines, Singapore, and Thailand. The CATCs are to upgrade the professional and technical skills of ASEAN civil aviation personnel through training in specialised areas. Malaysia has expanded its Aviation Security School to cater to international participants and is looking forward to its acceptance as an ASEAN Centre of Excellence. Brunei Darussalam, owing to limitations in facilities, has withdrawn from project (b). Singapore has offered to conduct the course "Airport Emergency Planning" at its Civil Aviation Academy.
35. Technical Assistance for an Integrated Training Programme in Air Traffic Control A2/B2	ASCCARS	EC	Luxemburg	The programme is a continuation of previous training activity which had been conducted twice at Eurocontrol, Luxemburg, on "Airport Management" (1986) and "Air Traffic Control Supervisors Management" (1988). The EC has agreed to assist in funding the implementation of the follow-up activities for an amount of ECU 1,300,000.
A - Category of Projects 1.Short Term 2.Long Term	B - Indicative Status 1. Preparatory 2. Implementation 3. Completed 4. Withdrawn		C - Project Coordinator D - Participating Dialogue Partners/Organisations or Other Sources E - Project Location	

COOPERATION IN TRANSPORTATION AND COMMUNICATIONS

PROJECT CATEGORY/STATUS	C	D	E	REMARKS
36. Training Seminar for ASEAN Aeronautical Meteorologists on the Provision of Meteorological Services and Facilities for Aviation Towards the Year 2000 A1/B3	Singapore	Japan	Singapore	The seminar was conducted in Singapore on 17-29 February 1992.
37. Regional Training Course in Meteorological Satellite Data A1/B3	Brunei	Japan	Brunei	The course was conducted on 11-14 November 1991 in Brunei Darussalam.
38. Aviation Security Course A1/B3	Philippines	Japan	Philippines	The course was conducted on 20 Jan-8 Feb 1992 in Manila, Philippines.
39. ASEAN Chief Executive Study Group Tour of Aeronautical Management and Administrative Organizations of EC Member Countries A1/B1	Brunei	EC	EC	Project was incorporated in Air Traffic Control Training Programme to be funded by the EC.
40. Exchange of Information on New Facilities and Equipment and Research Papers on Meteorological Services A2/B3			ASEAN	Information on this matter is constantly being exchanged among ASEAN countries.
41. Future Air Navigation System (FANS) and its Application by ASEAN B1				The activity intends to identify and assess new concepts and technology for civil aviation such as utilizing satellites in aeronautical communications. The subject will be further discussed under the various FANS forums.
42. Satellite Aided Search and Rescue Project B3			Singapore, Indonesia	The activity calls for the use of satellite to help locate aircraft and ship in distress. Project completed with the installation of Local User Terminals (LUT) in Singapore and Jakarta and Ambon in Indonesia in 1991.
A - Category of Projects 1.Short Term 2.Long Term		B - Indicative Status 1. Preparatory 2. Implementation 3. Completed 4. Withdrawn		C - Project Coordinator D - Participating Dialogue Partners/Organisations or Other Sources E - Project Location

COOPERATION IN TRANSPORTATION AND COMMUNICATIONS

PROJECT CATEGORY/STATUS	C	D	E	REMARKS			
43. Improvement in Airspace Capacity in the Region B1				The activity aims to resolve the problems of optimum allocation of flight levels for aircrafts operating within the airspace over the South China Sea. The 15th ASCCARS Meeting in August 1992 agreed to support a wider application of MTN/RNAV, establishment of relief route, and coordination of radar service.			
44. Evaluation of Microwave Landing System (MLS) B1				The 15th ASCCARS Meeting in August 1992 agreed to consider this activity in the course of drawing up plans for implementation of FANS.			
45. ASEAN Multilateral Agreement on Commercial Rights for Non-Scheduled Air Services among ASEAN Countries, 1971 B3				The Agreement would be reviewed and expanded taking into consideration the existing restriction on capacity, and the accession of Brunei Darussalam.			
46. Implementation of the Agreement for the Facilitation of Search for Aircraft in Distress and Rescue of Survivors of Aircrafts Accidents, 1972 B2				Agreement was signed in 1972. Joint Search and Rescue exercises have been conducted bilaterally between adjacent member states and will continue as an important activity.			
47. Service Standard Monitoring and Quality Control A2/B1	Thailand		Thailand	Project proposal, having failed to obtain funding under the UNDP 5th Cycle Programmes, was discussed at the ASEAN-Japan Forum in February 1993. The project needs to be amended to be eligible for funding under Japanese funds.			
II. COMMUNICATIONS							
48. Modernization of Remittance Services A2/B2	Indonesia		ASEAN	This activity aims to modernize remittance service through reciprocal extension of services and increase in limits of money order between ASEAN Member Countries.

COOPERATION IN TRANSPORTATION AND COMMUNICATIONS

PROJECT CATEGORY/STATUS	C	D	E	REMARKS
49. Quality of Mail Service A2/B2	Indonesia		ASEAN	This has been an on-going activity aimed to improve all aspects of mail service, i.e. speed, reliability, regularity, security, rates, etc.
50. Promotion of Philately A2/B2	Singapore		ASEAN	Malaysia held the 5th Asian International Philatelic Exhibition in September 1992, and Indonesia hosted ASEANPEX in October/November 1992. Singapore would coordinate the convening of the Symposium on Philately scheduled for 1-10 October 1993.
51. International Express Mail Services (EMS) A2/B2			ASEAN	The EMS has been established amongst all Member Countries. Some ASEAN Member Countries have taken steps to introduce the use of barcodes and track and trace system for the EMS.
52. ASEAN Aerogramme A2/B2			ASEAN	Production and sale of aerogrammes to commemorate special events in ASEAN. This is an occasional activity, taking place every 5 years. The next issue would be ASEAN Aerogrammes to commemorate the 25th Anniversary of ASEAN in 1992.
53. ASEAN Commemorative Stamps A2/B2			ASEAN	The production and sale of stamps to commemorate special events in ASEAN. This is an occasional activity, taking place once in 5 years. The next issue would be commemorative stamps to commemorate the 25th Anniversary of ASEAN in 1992.
54. ASEAN Letter Writing Competition for Young People A2/B2			ASEAN	This activity is conducted every two years to promote the spirit of solidarity and oneness among the young people of ASEAN. The last competition was held in Singapore in 1991. The next one will be held in 1994.
A - Category of Projects 1.Short Term 2.Long Term	B - Indicative Status 1. Preparatory 2. Implementation 3. Completed 4. Withdrawn		C - Project Coordinator D - Participating Dialogue Partners/Organisations or Other Sources E - Project Location	

COOPERATION IN TRANSPORTATION AND COMMUNICATIONS

PROJECT CATEGORY/STATUS	C	D	E	REMARKS
55. Mail Security A2/B1	Philippines		ASEAN	The project profile was revised for its inclusion in the programme "Human Resources Development in Posts".
56. Human Resources Development in Posts A2/B1	Malaysia		ASEAN	Human Resources Development Programme for Posts in ASEAN was approved by the 22nd COTAC Meeting. The Programme was subsequently submitted to the 13th ASEAN-Japan Forum in February 1993 for funding under the Japanese funds. The Programme failed to obtain approval.
57. ASEAN Optical Fibre Submarine Cable Network A2/B2			ASEAN	Project aims to provide complementary communication channels to satellite circuits. Project is currently under construction. The last segment of the network is expected to be completed and ready for service in 1995.
58. Satellite Communications Development A2/B2	Indonesia			This is a proposal by Indonesia for the expansion of the Palapa Satellite for regional use. Indonesia has been requested to provide details on implementation mechanism for consideration by Member Countries.
59. Canada-ASEAN Cooperation in the Ku-Band Propagation Measurement Programme On Earth Space Paths A2/B2	Thailand	Canada	Indonesia, Singapore, Thailand	This is a joint Canada-ASEAN project to determine the effects of rain attenuation on communications system used by INTELSAT-5 Satellite in the ASEAN region. Equipment installation was carried out in Indonesia, Singapore and Thailand, and completed in February 1992. The first Project Advisory and Steering Committee met in November 1992 in Thailand. The second met in May 1993.
60. Development of Cellular Radio Telephone Systems A2/B3		UNDP/ITU	Indonesia	The project was completed with the convening of a Terminal Tripartite Review Meeting in Jakarta in November 1991.
A - Category of Projects 1. Short Term 2. Long Term	B - Indicative Status 1. Preparatory 2. Implementation 3. Completed 4. Withdrawn		C - Project Coordinator D - Participating Dialogue Partners/Organisations or Other Sources E - Project Location	

COOPERATION IN TRANSPORTATION AND COMMUNICATIONS

PROJECT CATEGORY/STATUS	C	D	E	REMARKS
61. Ship's Radio Survey A1/B2		EC/Canada		The project was not approved by EC. It was submitted to Canada for assistance in April 1993. Canada could not support the project because it lacked expertise in the area.
62. Regulatory Aspects (Supply Business Apparatus) B4		EC		Project was not approved for financing by EC. Member Countries would seek assistance from the ITU individually.
63. Radio Frequency Coordination in ASEAN A2/B2	Indonesia		ASEAN	To coordinate the use, administration, management and planning of radio frequencies in the ASEAN region through the ASEAN Radio Frequency Coordination Committee (ARFCC). The ARFCC Meeting in July 1991 approved the formation of the ASEAN Digital Cellular Radio Coordination Working Group and the Immarsat C Mobile Satellite Communication Services Working Group. Both working groups had their first meetings in Bangkok from 27 to 30 May and on 29 May 1992, respectively.
64. ASEAN Datacom Coordinating Group (ADGC) B2	Philippines		ASEAN	To foster more effective cooperation among ASEAN countries in data communications, public data networks and packet switching. The first ADGC met in Manila in 1991 and the second in Thailand in 1992. The third ADGC would meet in Brunei Darussalam in 1993.
65. Standardization of Regional Signalling System in Telecommunication Network A2/B3	Philippines		ASEAN	The objective is to adopt and implement a Common Channel signalling system in Telecommunication (CCIT) between gateway exchanges in ASEAN countries. POSTEL agreed to adopt CCIT No.7 among ASEAN countries and will work towards this standardization.

A second workshop was proposed.</p> <p>Funding support to be sought. Project to be reformulated/ re-evaluated.</p> <p>Project to be submitted to ROK.</p> <p>The reformulated project was approved for implementation by Canada in 1993.</p> <p>Completed, held in Bandung, Indonesia, 16-19 November 1992.</p> <p>The reformulated project was submitted to ROK for funding consideration.</p>
<p>A - Category of Projects 1.Short Term 2.Long Term</p>	<p>B - Indicative Status 1. Preparatory 2. Implementation 3. Completed 4. Withdrawn</p>		<p>C - Project Coordinator D - Participating Dialogue Partners/Organisations or Other Sources E - Project Location</p>	

COOPERATION IN SCIENCE AND TECHNOLOGY

PROJECT CATEGORY/STATUS	C	D	E	REMARKS
9. Development of Shrimp Feed Technologies in ASEAN A2/B1	Indonesia		ASEAN	Project to be reformulated. To be submitted to ROK.
10. Membrane Technologies in Food By-product Utilization and Management A2/B1	Indonesia		ASEAN	To be submitted to ROK.
C. Food Technology Research and Development (FTRD)				
11. Workshop: Establishment of Quality Control and Product Development Techniques for Food Industry. A2/B3	Philippines		ASEAN	To be submitted to UNEP.
12. Establishment of a Training Network for Accelerated Development of Food Industry in ASEAN to Meet Challenges of the 90's A2/B1	Philippines			To be submitted under AAACP Phase III under Linkage Stream (1992-96).
13. Food Standards for Products Improvement in ASEAN A2/B1	Philippines	UNDP	Thailand	Pending for consideration under ASEAN-UNDP ASP-5 (1992-96).
14. The 4th ASEAN Food Conference A1/B3	Indonesia	Australia, Japan and New Zealand	Indonesia	Completed, held in Jakarta, 17-21 February 1992. The 5th Food Conference is scheduled in July 1994 in Malaysia.
<u>II. METEOROLOGY AND GEOPHYSICS</u>				
15. ASEAN Specialized Meteorological Centre (ASMC) A2/B2	Singapore	Singapore WMO	Singapore	Officially established with effect, 2 January 1993. Singapore provided the infrastructure requirements.
A - Category of Projects 1.Short Term 2.Long Term		B - Indicative Status 1. Preparatory 2. Implementation 3. Completed 4. Withdrawn		C - Project Coordinator D - Participating Dialogue Partners/Organisations or Other Sources E - Project Location

COOPERATION IN SCIENCE AND TECHNOLOGY

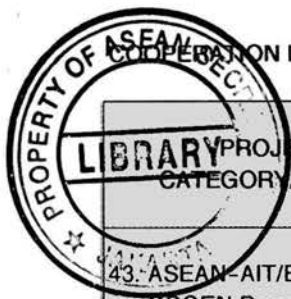

PROJECT CATEGORY/STATUS	C	D	E	REMARKS
16. Monsoon Climatology A2/B2	Malaysia		Malaysia	"ASEAN Monsoon" was reviewed Oct 1991 to March 1992; Malaysia will publish the "ASEAN Monsoons Review".
17. Research on Weather Modification A2/B2	Thailand		ASEAN	Member Countries invited to share experiences and the results of the programme.
18. CLICOM Project	Malaysia		ASEAN	CLICOM Version 3 introduced to users; CLICOM User's Group Newsletter published.
19. Seminar : Regional Rain Acidification A1/B3	Malaysia	Japan / IATEP		The seminar was successfully conducted in Kuala Lumpur on 16-19 February 1993.
20. Study Tour of Meteorological Facilities in Japan A1/B1	Malaysia			Submitted to Japan/IATEP, but inappropriate under IATEP.
21. Plate Motions and Crustal Reformation Measurements for Natural Hazards A2/B1	Malaysia	EC		Approved in principle by EC; but financial commitment pending.
22. Assessment of Geomorphological Changes and their Environmental Impact in Tectonically Active Areas A2/B1	Malaysia			Funding support to be found. Negative response from EC.
23. ASEAN Earthquake Information Centre (AEIC) A2/B1	Jakarta			To be submitted to Japan.
24. Workshop: Climate Change A1/B1	Malaysia			To submitted to UNEP.
25. Assessment of Solar Energy and Daylight Resources for the ASEAN Region A2/B1	Philippines			Project was reformulated, but not successful in attracting funding support since proposed 10 years ago. Submitted to Australia for consideration under AAACP-III.
26. Seismology and Volcanology A2/B1	Philippines			Activities include intra - ASEAN exchange of information.
A - Category of Projects 1.Short Term 2.Long Term		B - Indicative Status 1. Preparatory 2. Implementation 3. Completed 4. Withdrawn		C - Project Coordinator D - Participating Dialogue Partners/Organisations or Other Sources E - Project Location

COOPERATION IN SCIENCE AND TECHNOLOGY

PROJECT CATEGORY/STATUS	C	D	E	REMARKS
<u>III. MICRO - ELECTRONICS AND INFORMATION TECHNOLOGY</u>				
27. ASEAN - Australia Cooperation : Microelectronics Design and Application A2/B2	Singapore	Australia	ASEAN	Satisfactory progress; design bureaus were established in Member Countries. Commercialization of outputs being worked out. Project completion FY 1993/94.
28. Microelectronics Newsletter A2/B2	Singapore	Australia	Singapore	Bi-annual publications continued.
29. Study Tour Visit to Canadian Institution in Microelectronics A1/B1		Canada	Canada	Pending, subject to availability of funds from Canada.
30. Seminar : Modern Electronic Materials and Their Applications A1				Funding support to be sought.
<u>IV. MATERIALS SCIENCE AND TECHNOLOGY</u>				
31. ASEAN-Japan Cooperation on Materials Science and Technology A2/B2	Indonesia	Japan	ASEAN	Completed, September 1992; a final Regional Seminar was held in conjunction with the Third ASEAN Science and Technology Week.
32. Development of Polymeric Composites and Adhesive Technology in ASEAN A2/B2		New Zealand		For prioritization under the ASEAN - New Zealand Dialogue.
33. Processing Techniques of Advanced Ceramics A2/B4		EC		Withdrawn.
34. Corrosion Prevention of Advance Ceramics A2/B2		New Zealand		For prioritization under the ASEAN - New Zealand Dialogue.
A - Category of Projects 1.Short Term 2.Long Term		B - Indicative Status 1. Preparatory 2. Implementation 3. Completed 4. Withdrawn		C - Project Coordinator D - Participating Dialogue Partners/Organisations or Other Sources E - Project Location

COOPERATION IN SCIENCE AND TECHNOLOGY

PROJECT CATEGORY/STATUS	C	D	E	REMARKS
<u>V. BIOTECHNOLOGY</u>				
35. ASEAN - Australia : Plant Extract and Carbohydrate Biotechnology A2/B2	Thailand	Australia	ASEAN	Satisfactory progress; completion by FY 1993- 1994.
36. Establishment of ASEAN Biotechnology Information Service Network (ABISN) A2/B2		ASEAN/EC		To be submitted to AAECF Phase III under Linkage Stream.
37. Workshop : Biological Approaches to Diagnosis, Prevention and Treatment of Infectious Diseases A1/B2		Japan / IATEP	Thailand	Workshop held in Japan in February 1993.
38. Workshop : Biotechnology Atlas A1/B1		ROK		Approved, pending implementation by ROK.
39. Research, Development and Application of Enzyme Technology A2/B1				Funding support to be sought.
<u>VI. NON - CONVENTIONAL ENERGY RESEARCH (NCER)</u>				
40. ASEAN - Australia NCER Cooperation A2/B2	Thailand	Australia (1989-94 A\$5.3 million)		Satisfactory progress, completion in FY 1993-1994.
41. ASEAN-Canada Solar Energy in Drying Process A2/B2	Brunei Darussalam	Canada (1991-95; CDN\$5.3 million)	ASEAN	Project started in April 1992; progressing well.
42. ASEAN - USAID NCER Cooperation - Phase III A2/B3	Thailand	USAID 1985-92; US\$4.275 million)	Indonesia, Malaysia, Singapore, Thailand	Completed in December 1992.
A - Category of Projects 1.Short Term 2.Long Term		B - Indicative Status 1. Preparatory 2. Implementation 3. Completed 4. Withdrawn		C - Project Coordinator D - Participating Dialogue Partners/Organisations or Other Sources E - Project Location

COOPERATION IN SCIENCE AND TECHNOLOGY

PROJECT CATEGORY/STATUS	C	D	E	REMARKS
43. ASEAN-AIT/EC Energy/COGEN Programme Phase I A2/B2 Phase II	Thailand	AIT / EC (1991 - 93) EC	ASEAN	Phase I to end in January 1993, but extended for six months. Submitted as a new project proposal to EC.
44. ASEAN - New Zealand Energy Cooperation Natural Gas Utilization A2/B2	Thailand	New Zealand	ASEAN	Project started February 1993. Allocation for FY 1992/93 NZ\$ 150,000.
45. Sub-Committee on NCER Newsletter A2/B2	Indonesia			Chairmanship transferred, September 1992, from Thailand to Indonesia.
VII. MARINE SCIENCES				
46. ASEAN - Australia Cooperation :				
a) Regional Ocean Dynamic (ROD) A2/B2	Malaysia	Australia	ASEAN	Project extended, to be completed in FY 1993-1994. Activities under implementation.
b) Living Coastal Resources (LCR) A2/B2	Malaysia	Australia	ASEAN	To be completed in FY 1993-1994 Activities under implementation.
47. ASEAN - Canada Living Marine Resources Phase II A2/B2	Malaysia	Canada	ASEAN	Satisfactory progress. The First Technology Planning Workshop was held.
48. ASEAN - USAID Coastal Resources Management (CRM) A2/B3	Indonesia	USAID Phase I	ASEAN	Completed, December 1992. Phase II not funded by USAID.
49. Environmental Enhancement, Coastal Zone of ASEAN Region A2/B1	Malaysia	EC	ASEAN	Reformulated from Phase II of CRM project. Project not a priority by EC.
A - Category of Projects 1.Short Term 2.Long Term		B - Indicative Status 1. Preparatory 2. Implementation 3. Completed 4. Withdrawn		C - Project Coordinator D - Participating Dialogue Partners/Organisations or Other Sources E - Project Location

COOPERATION IN SCIENCE AND TECHNOLOGY

PROJECT CATEGORY/STATUS	C	D	E	REMARKS
50. Workshop : Formulation of Cooperation Programme on the Assessment of Coastal Oceanography and Pollution A1/B1	Philippines	EC		Approved by EC, but reformulated to suit EC's criteria.
51. Coastal Fisheries Rehabilitation through Seagrass Restoration A2/B1	Indonesia	UNDP		Pre-project phase funded by UNDP; not included in the ASEAN - UNDP ASP - 5 (1992-96).
VIII. SCIENCE AND TECHNOLOGY INFRASTRUCTURE DEVELOPMENT				
52. Science and Technology Management and Policy A2/B2	Philippines		ASEAN	To be considered in the ASEAN - UNDP ASP-5
53. ASEAN - EC STC Scheme A2/B2		EC	ASEAN	Bilateral activities in progress in Member Countries.
54. Environmental Monitoring through the Use of ESA (European Space Agency) ERS-I Satellite Capabilities in ASEAN Countries A2/B2	Philippines	EC	ASEAN	EC agreed on financing the project to the level of ECU 3.9 million for 5 years.
55. ASEAN Remote Sensing System - Tropical Earth Resources Satellite (TERS) A2/B1				Dialogue funding still to be sought.
56. Training on Land Cover Mapping by Digital Analysis A1/B4				Withdrawn.
57. Application of Remote Sensing Technology to Water Resources Plan and Management A2/B4				Withdrawn.
A - Category of Projects 1.Short Term 2.Long Term		B - Indicative Status 1. Preparatory 2. Implementation 3. Completed 4. Withdrawn		C - Project Coordinator D - Participating Dialogue Partners/Organisations or Other Sources E - Project Location

COOPERATION IN SCIENCE AND TECHNOLOGY

PROJECT CATEGORY/STATUS	C	D	E	REMARKS					
58. Development of Hardware and Software for Remote Sensing A2/B4				Withdrawn.					
59. Technology of Updating Map Using Remote Sensing A2/B1	Brunei	Canada	ASEAN	Pending. Funding by Canada, subject to availability of fund and suitable Canadian institutions, in 1994.					
60. Basic Research Project for Supporting the Establishment of Science and Technology Policy and Research and Development Management System in ASEAN A2/B2		ROK	ASEAN	Approved for implementation in 1993 for 3 years duration; budget of US\$ 303,910.					
XI. OTHER ACTIVITIES									
61. ASEAN Science and Technology Week (ASTW)	Singapore	Dialogue Partners, Int'l orgs., Private Sector	Singapore	The Third ASTW was successfully held in Singapore, 17-24 September 1992. The Fourth ASTW is scheduled in 1995, in Thailand.					
62. Journal on Science and Technology				Volume 10, Number 1 was released in June 1993 with focus on marine sciences achievements.					
63. ASEAN Science Fund	COST	New Zealand	ASEAN	ASEAN Member Countries have remitted their seed contributions to the Fund.

COOPERATION IN SOCIAL DEVELOPMENT

PROJECT CATEGORY/STATUS	C	D	E	REMARKS
38. Exchange Programme for Social Welfare NGOs at Planners Level A1/B3	Indonesia	JAEP	Indonesia	The Programme was conducted in Jakarta on 14-19 September 1992.
39. Establishment of Linkages Among National Adoption Agencies in ASEAN Member Countries A2/B1	Brunei		Brunei	An Experts Group Meeting was scheduled to be hosted by Brunei Darussalam in May 1993.
40. ASEAN Sports Activities for the Disabled A1/B1	Brunei		Brunei	An Experts Group Meeting was scheduled to be hosted by Brunei Darussalam in April 1993.
41. Establishment of ASEAN Forums for NGOs in Social Welfare A1/B1	Indonesia			Original proposal of the project was not included in the UNDP list for funding under the 5th Cycle. The proposal was then revised by the Country Coordinator. The programme aims to strengthen social development cooperation based on mutual interest in ASEAN countries and to embryolize the mechanism concerning the development of the social welfare field in the ASEAN COSD. The 17th COSD Meeting/ November 1992 requested Member Countries to give ad referendum approval of the revised project proposal.
42. Strengthening Child Welfare Policy Development and Programme Management Improvement in ASEAN A2/B1	Indonesia			The project is to develop and strengthen existing policy development, policy advocacy and programme management systems in national child welfare programmes in the ASEAN region. Pending ad referendum approval from Member Countries, the 17th COSD Meeting/November 1992 agreed that the proposal be submitted to UNICEF and allow non-ASEAN participation in the project.

ASEAN-AUSTRALIA

PROJECT CATEGORY/STATUS	C	D	E	REMARKS
1. ASEAN-Australia Post Harvest System Improvement Programme (AAPSIP) A2/B2	Asean Food Handling Bureau	Australia	ASEAN	The project seeks to improve post-harvest handling technologies for livestock and fruits. In 1992, activities have included regional training courses, study tours and consultations on meat inspection and slaughter technologies, and post-harvest handling and marketing of fruits.
2. ASEAN-Australia Regional Workshop on Vocational English Language Training A2/B3	COSD	Australia	ASEAN	Focusing on English proficiency in vocational settings, the project will sponsor a review of national policies, resources and needs for the teaching of English in the region. The workshop was held in Feb. 1993.
3. ASEAN-Australia Microelectronics Design and Application Project A2/B2	COST	Australia	ASEAN	Several projects in microelectronics have reached the stage for commercial development. These projects vary from the development of keyboards for handicapped persons to paging systems and a portable ECG machine. A workshop in Dec. 1992 dealt with sensor materials and devices technology.
4. ASEAN-Australia Biotechnology Project A2/B2	COST	Australia	ASEAN	The project's R&D activities are related to plant extract biotechnology involving the development of therapeutic substances from plants, and carbohydrate technology which seeks to improve carbohydrate conversion in plants. Project activities have included training courses, workshops, research projects, and the publication of a book on ASEAN technology.
5. Marine Science Project a. ASEAN - Australia Regional Ocean Dynamics (ROD) A2/B2	COST	Australia	ASEAN	The project aims to develop human resources in hydrography and oceanography, develop a data bank on tides and sea currents for use in navigation, environmental management, and offshore exploration.
b. Living Coastal Resources A2/B2	COST	Australia	ASEAN	The project promotes ecological understanding of tropical coastal living resources for the benefit of both ASEAN and Australian natural resource managers.

ASEAN-AUSTRALIA

PROJECT CATEGORY/STATUS	C	D	E	REMARKS
6. Food Science and Technology for Development of the Food Industry in ASEAN A2	COST	Australia	ASEAN	Due to budgetary constraints AIDAB has not been able to release funds allocated for this project. COST, in its meeting of September 1992, has requested the ASEAN Secretariat to seek alternative funding.
7. ASEAN-Australia Energy Project A1/B2	COST	Australia	ASEAN	The project covers energy conservation in industry and buildings and power generation for industrial use. Technology developed under the project is expected to be transferred to ASEAN and then commercialized
8. Third ASEAN Science and Technology Week (ASTW) A1/B3	COST	Australia and other Dialogue countries	Singapore	The theme of the Third ASTW held in Singapore on 21-24 Sept. 1992 was "Socio Economic Growth in ASEAN through Science and Technology" and featured a trade fair/exhibition, and concurrent academic conferences. For the Third ASTW, Australia had contributed S\$119,620.
9. Trade and Investment Promotion Programme (TIPP) A2/B3	Thailand	Australia	ASEAN	During the year 1992, trade and investment promotion activities covered products and services ranging from furniture, clothing, rubber products, computers to tourism.
10. Establishment of a Training Network for Accelerated Development of Food Industry in ASEAN to meet Challenges of the 90s A2/B1	Philippines			To be submitted under AAECF Phase III under Linkage Stream.

ASEAN-CANADA

PROJECT CATEGORY/STATUS	C	D	E	REMARKS
18. Ship Radio Survey A1/B1		Canada	ASEAN	An earlier proposal was previously submitted to a Dialogue Partner but was not favourably considered. At the 16th POSTEL Meeting in July 1992, COTAC Secretariat presented a new project proposal on Ship's Radio Survey for Canadian assistance. The project was submitted to Canada during the 8th JCC but was not favourably considered by Canada.
19. On-the-Job Training in Spectrum Management A1/B1		Canada	ASEAN	The project was presented to Canada during the 8th JCC and Canada indicated that the project will be included in the pipeline for the Short Term Component of the RTP.
B. LONG-TERM COMPONENTS A2/B2			ASEAN	The long-term component provides for training and attachments in Canada for government officials from the ASEAN region. This component allows for but not limited to studies leading to a Master Degree. Two participants are now in their second-year of their Masters in Canada.
<u>II. AGRICULTURE AND FORESTRY</u>				
20. ASEAN-Canada Grain Post Harvest Technology (1988-1993) A2/B2	Thailand	Canada	Thailand	The project is fully operational and has undertaken five in-country research projects and training courses. Other regional activities include annual ASEAN technical seminars, workshops, publications and training courses. The 5th Project Steering Committee (PSC) Meeting took place in Cha-am, Thailand in November 1992, attended by representatives of the ASEAN countries and IDRC. The Meeting approved the budget for the remaining activities for the period from December 1992-July 1993. The project will be completed in July 1993.

ASEAN-CANADA

PROJECT CATEGORY/STATUS	C	D	E	REMARKS
21. ASEAN-Canada Fisheries Post Harvest Technology Phase II (1989-1994) A2/B2	Singapore	Canada	ASEAN	This Phase II project is to assist the ASEAN Member Countries in maximizing utilization and minimizing wastage of available fish resources, thereby increasing fishery productivity for both export and domestic use. The MOU was signed in July 1991 at the PMC in Kuala Lumpur, Malaysia. Inception report on the project has been accepted and reviewed by the PSC in March 1992. The project is now underway.
22. ASEAN - Canada Forest Tree Seed Centre - Phase II (1989-1995) A2/B2	Thailand	Canada	Muak-lek, Thailand	The project is to increase the capacity of the Centre to perform research and development, to provide operational support to ASEAN reforestation programmes and to provide training and information to ASEAN forestry personnel and institutions through scholarship. The 13th PSC Meeting in Feb. 1992 accepted findings of a mid-term review containing confirmation on the high degree of interest in reforestation, and genetic/ biological diversity components of the project.
23. ASEAN Institute of Forest Management (1984-1991) A2/B2	Malaysia	Canada	Malaysia CCTT*	<p>The current activities of the ASEAN Institute of Forest Management include the transfer of appropriate technologies for forest inventory, resource monitoring, information management and resource management and development. The MOU for the project was signed at the PMC 6+1 session with Canada in Manila on 26 July 1992.</p> <p>CCTT*: Canadian Consortium of Thomson-Timberline (Canadian executing agency).</p>
24. The Development of Animal Health and Production Information System (AHPISA) A2/B1	Indonesia	Canada	ASEAN	The project proposal was submitted to Canada in June 1993. Canada responded that it was not in a position to consider new project proposals at this time.

<p>III. SCIENCE AND TECHNOLOGY</p> <p>25. ASEAN-Canada Solar Energy in Drying Processes A2/B2</p> <p>26. ASEAN-Canada Cooperative Programme on Development of Living Marine Resources Phase II: 1990-1995 A2/B2</p> <p>27. Third ASEAN S & T Week (ASTW) A2/B3</p> <p>28. ASEAN Science Fund (ASF) A2/B1</p>	<p>Brunei</p> <p>Malaysia</p> <p>Singapore</p>	<p>Canada</p> <p>Canada</p> <p>Canada</p> <p>Canada</p>	<p>ASEAN</p> <p></p> <p>Singapore</p> <p>ASEAN</p>	<p>The project is directed at providing technical assistance, equipment and management services related to information on effective solar drying technologies primarily for agricultural products in the ASEAN region. The MOU for the project was signed at the PMC 6+1 session in KL on 24 July 1991. The management plan had been approved by ASEAN Member Countries. Project duration has been shortened to 4 years instead of 5 years. The first stage of this project has been implemented.</p> <p>MOU of the Project has been signed in Kuala Lumpur in July 1991 at the Post Ministerial Conference, and in November 1991, the Management Plan was circulated to the ASEAN Member Countries for their views and comments. The idea of the project is to improve the opportunity for socio-economic development based on the wide use of regional marine resources. CIDA's contribution to this project has reached C\$ 11.96 million.</p> <p>The Third ASTW was held on 17-24 September 1992. Canada contributed the sum of C\$ 100,000 for the Third ASTW.</p> <p>At the 8th ASEAN-Canada JCC Meeting, April 1993, Canada informed the Meeting of the technical and legal constraints involved in contributing to the Fund on account of its endowment features. Canada indicated its desire to receive a formal proposal from ASEAN requesting contributions to the ASEAN Science Fund. ASEAN Secretariat is preparing the proposal in coordination with the Chairman of COST.</p>

PROJECT CATEGORY/STATUS	C	D	E	REMARKS
<u>IV. TRANSPORTATION AND COMMUNICATIONS</u>				
29. Ku-Band Propagation Measurement Program on Earth Space Paths A2/B2	Thailand	Canada	Indonesia, Singapore, Philippines	This on-going project aims to determine the effects of rain attenuation on communication systems used by INTELSAT-5 satellite in the ASEAN region. First stage of the project has been implemented, and equipment has been shipped to Indonesia, Singapore and Thailand. Installation of the System was completed in February 1992. The project is expected to be completed in 1994.
30. ASEAN Cargo Transportation Study A2/B2	Brunei	Canada	ASEAN	Project completed with the convening of a regional workshop in Penang, on 3-5 March 1992. Final report on the study was published and distributed to ASEAN countries in June 1992. ASEAN Member Countries participated in the ACTS Workshop sponsored by CIDA held in Singapore in mid-June 1993.
31. Establishment of ASEAN Regional Training Facilities for Disabled Aircraft Removal/Recovery Techniques and Airport Emergency Planning A2/B4	Brunei	Canada		This is a cost-sharing project with Brunei Darussalam. However, Brunei Darussalam has indicated that it was withdrawing from the project. With the above development, the project will no longer be pursued with Canada. In the meantime, ASEAN CATCs were invited to consider providing the host facilities for the equipment to be used in the course on Aircraft Removal/Recovery Techniques.
<u>V. SOCIAL DEVELOPMENT</u>				
32. ASEAN Network for Women on Vocational Training A2/B2	Thailand	Canada	ASEAN	CIDA has allocated the amount of C\$ 394,000 for the project which would also cover the 50% of the administrative fee to be shared with UNDP. Exchange of Letters has been constituted as an Agreement between ASEAN and the Regional Development Cooperation Programme, CIDA, for two and a half years as of 12 March 1993.

PROJECT CATEGORY/STATUS	C	D	E	REMARKS
33. Network on Indicators and Statistics on Women A2/B2	Philippines	Canada	ASEAN	Exchange of Letters has been constituted as an Agreement between ASEAN and the Regional Development Cooperation Programme, CIDA, for two and a half years as of 12 March 1993. An amount of C\$ 100,000 is committed for this project as well as for the project on the "Prevention of Family Violence."
34. Prevention of Family - Violence A2/B2	Philippines	Canada	ASEAN	Exchange of Letters has been constituted as an Agreement between ASEAN and the Regional Development Cooperation Programme, CIDA, for two and a half years as of 12 March 1993. An amount of C\$ 100,000 is committed for this project as well as for the project on the "Network on Indicators and Statistics on Women."
VII. REGIONAL INSTITUTIONS PROGRAMME				
35. SEAMEO-Canada Programme of Cooperation in Human Resource Development - Phase II A2/B2	SEAMES	Canada	SEAMEO Member Countries	The project is directly managed by SEAMES who subcontract Canadian universities and colleges to provide technical assistance and necessary equipment.
36. Asian Institute of Technology Partnership Program A2/B2	AIT	Canada CIDA	Asian Institute of Technology (AIT)	This project is the fourth phase of a series of CIDA-funded support packages for AIT. The scholarship and short - term exchange programme is under way.
37. Asian Institute of Management A2/B3	AIM	Canada CIDA	Asian Institute of Management	The objective of the project is to support the Asian Institute of Management (AIM) in delivering training in Women in Management and Gender Analysis and in transferring capabilities to Asian individuals/ institutes. The project is essentially complete.
38. Women's Initiative Fund (WIF) A2/B2		Canada CIDA		The Fund is aimed to improve the participation of women in the region's development. A number of initiatives have been funded supporting women's groups on topics such as environment, the "maid trade," industrialization and its impact on women and the challenges facing the women manager in the workplace.

ASEAN-CANADA

PROJECT CATEGORY/STATUS	C	D	E	REMARKS
39. Canada - ASEAN Doctoral Programme in Business Management A2/B2	ADSGM	Canada CIDA		The project aims to assist Southeast Asian universities in setting up doctoral programmes in management, in order to increase the number of PhD-level management professors teaching in Southeast Asian management schools.
40. Visiting chair in ASEAN Studies, University of Toronto A2/B2	University of Toronto	Canada CIDA	University of Toronto	The Visiting Chair provides funding for one scholar from each of five ASEAN countries to teach at University of Toronto for a period of one year. The first visiting professor, an Indonesian, will commence his secondment in the fall of 1993.
41. ASEAN ISIS Security Cooperation Project A2/B2	ASEAN ISIS	Canada CIDA		The Project provides support to five events organized by the Institutes of Strategic and International Studies (ASEAN-ISIS) in 1993. The first event, the Asia Pacific Roundtable, has already taken place and planning is under way for the others.
42. Asia Pacific Ocean Cooperation Project (APOC) A2/B2		Canada CIDA		The project is to support regional networks in cooperation on fisheries, law of the sea and dispute resolution. The Asia Pacific Ocean Cooperation Project has three distinct components. All these project components are now underway.
VIII. OTHER ACTIVITIES				
43. ASEAN Information Services	ASEAN Secretariat	Canada	Indonesia Indoconsult	<p>This project aims to upgrade the information system in the ASEAN Secretariat in four phases :</p> <ol style="list-style-type: none"> 1. System evaluation and application 2. Acquisition in the installation of hardware; 3. Development and installation of software; 4. User Training. <p>These activities have been completed.</p>

PROJECT CATEGORY/STATUS	C	D	E	REMARKS
<p>d) ASEAN-US Scholarship and Research Programme at the Asian Institute of Technology, Phased II A2/B3</p> <p>3. ASEAN Private Investment and Trade Opportunities (PITO) A2/B2</p>	AIT	US	Thailand	<p>The programme aims to provide a total of 27 Master's degree scholarships and other short-term training courses yearly to the 6 ASEAN nationals starting from 1 September 1987 to 30 June 1992. The duration of the programme was extended to the end of May 1993 using the remaining balance of funds allocated. The First Meeting of ASEAN Sub-Committee on Education (SCOE) in Jakarta, 10-12 September 1992, agreed to express through Brunei Darussalam as country coordinator, that the programme be extended for another 3 years beyond 1993. ASEAN- Brunei Darussalam has conveyed the above decisions to the US. USAID replied that funding for this project has been completed and USAID can not consider any further extension requested by ASEAN.</p> <p>The project is designed to promote trade, investment and technology transfer between companies in ASEAN and United States. The 2nd PITO Project Steering Committee in Bangkok on 3 August 1992 reviewed the progress of activities achieved until June 1992 and workplan for 1992/93.</p> <p>Under component (i) : Trade Policy Analysis and Problem Resolution, two activities are being undertaken i.e., Network Building and Research. As of April 1992, seven PITO Economic Brief issues have been in circulation.</p> <p>Under component (ii) : Technology Promotion and Assistance Services, as of end July 1992, Technonet Asia has successfully implemented twelve major technical workshops and short seminars, involving 644 industries, and each activity is being followed up by the national host organizations. 24 US companies have provided direct inputs through their experts.</p>
<p>A - Category of Projects 1.Short Term 2.Long Term</p>	<p>B - Indicative Status 1. Preparatory 2. Implementation 3. Completed 4. Withdrawn</p>		<p>C - Project Coordinator D - Participating Dialogue Partners/Organisations or Other Sources E - Project Location</p>	

ASEAN - US

PROJECT CATEGORY/STATUS	C	D	E	REMARKS
				<p>Under component (iii) : Trade and Investment Promotion, a number of activities have been completed, namely : establishment of PITO offices in all ASEAN countries, database maintenance, seminars and missions in the US and ASEAN.</p> <p>Under component (iv) : The Asia Pacific Growth Fund, 9 US financial institutions are currently participating in the Fund. The Fund will make investments in established, unlisted companies operating in ASEAN, Taiwan and Micronesia.</p>
