

- Indonesia has started to observe WAD in November 2021 with various activities, such as health promotion competitions through the Tik-Tok challenge competition, webinar with academics and communities, and talk shows on the television and radio.
- On 1 December 2021, the Government of Indonesia give awards to institutions which have active engagement in the prevention and control of HIV/AIDS in Indonesia.
- Indonesia's publication material on WAD (in Bahasa Indonesia version) is attached.
