

## **ANNEX 8.1**

### **MATRIX OF DETAILED ACTIVITIES FOR THE PLAN OF ACTION TO IMPLEMENT THE ASEAN LEADERS DECLARATION ON DISASTER HEALTH MANAGEMENT, 2019-2025**

#### **BACKGROUND**

ASEAN Leaders' Declaration on Disaster Health Management (ALD on DHM) was adopted at the 31st ASEAN Leaders Summit on 13th November 2017 in Manila, Philippines. The ALD on DHM calls for an urgent action to strengthen disaster health management system at national and regional levels in ASEAN which are critical in improving health outcomes from emergencies, minimizing health hazards and vulnerabilities, ensuring access to health care, and that health services remain functional when they are most needed, thereby strengthening health resilience.

The ALD on DHM was operationalized through the adoption of the Plan of Action (POA – ALD on DHM) 2019-2025 at the 14<sup>th</sup> ASEAN Health Ministers Meeting (AHMM) on 29 August 2019 which provides guidelines for governments of ASEAN Member States (AMS), ASEAN Sectoral Bodies and the international community, including international organizations, and/or multilateral financial institutions, in achieving the objectives of the ALD on DHM. The POA – ALD on DHM is a framework to ensure practical coordination and collaboration of the AMS in implementing the ASEAN Declaration. In addition, it addresses regional challenges and opportunities by implementing the ALD on DHM while harnessing the involvement of non-health sectors and other relevant bodies.

The ALD on DHM and the POA are aligned with the commitment to implement the ASEAN Community Vision 2025, and pursue the Sustainable Development Goals of the 2030 Agenda for Sustainable Development, particularly Goal 3.d that calls for strengthened capacity of all countries for early warning, risk reduction and management of national and global health risks; the Bangkok Principles for the implementation of the Sendai Framework for Disaster Risk Reduction (2015-2030); the ASEAN-UN Joint Strategic Plan of Action on Disaster Management (2016-2020) including the World Health Assembly Resolutions WHA 64.10 on Strengthening National Health Emergency and Disaster Management Capacities and Resilience of Health Systems.

To achieve a “Disaster Resilient Health System in the ASEAN Community” (i.e., goal of the ALD on DHM), this Matrix of Detailed Activities is developed addressing the five (5) priority areas of the POA - ALD on DHM.

Endorsed by RCC-DHM on 15 December 2022 and AHC 2 on 18 January 2023

Adopted by SOMHD on 6 February 2023

## MECHANISM OF IMPLEMENTATION

To operationalize the POA – ALD on DHM effectively and sustainably in a timely manner, the Regional Coordination Committee on Disaster Health Management (RCC-DHM) was established in 2019 as its primary implementing mechanism. As per Terms of Reference which is the Annex of the POA – ALD on DHM, the RCC-DHM is composed of two representatives from each AMS, one representative from the ASEAN Secretariat and one representative from the AHA Centre, and which roles and responsibilities include:

1. **Facilitate the development of regional collaboration on disaster health management.** The Meeting of RCC is established to be the arena where ASEAN Member States and ASEAN Sectoral Bodies can share, discuss and monitor the progress of the regional collaboration on disaster health management.
2. **Collaborate with relevant ASEAN Sectoral bodies, both health and non-health sectors, and other international/regional organizations.** The RCC is expected to organize or participate in meetings of other ASEAN collaborative platforms that are related to disaster health management such as ASEAN Committee on Disaster Management (ACDM), the ASEAN Center of Military Medicine (ACMM), while not limit to ASEAN but rather involve other relevant international/regional organizations to seek feedback, inputs and cooperation from/with these sectors.
3. **Develop Standard Operating Procedures (SOPs) and other collaboration tools.** The RCC will develop SOPs for regional collaboration on Disaster Health Management. They will also develop other collaborative tools that would help facilitate the coordination and collaboration such as with the ASEAN (Public Health) Emergency Operation Center (EOC) Network and on standards of ASEAN I-EMT.
4. **Facilitate and provide policy guidance in the development of regional collaboration drills on disaster health management in AMS.** Disaster drills aim to pilot and to test the collaborative tools, as well as to perform after-action reviews for improvement. The drills are expected to involve other health and non-health sectors relevant to the collaboration on disaster health management.
5. **Facilitate and support academic activities related to disaster health management.** The academic activities aim to build up capacity of AMS such as organize academic seminars, establish academic network and co-conducting research, organize training activities and conduct consultations in supporting and assisting the development and implementation of disaster health management activities.
6. **Facilitate the establishment of regional disaster health training centers.** The regional disaster health training centers will be established based on specialty and expertise from ASEAN Member States in Disaster Health Management. The respective centers will develop the standard training curriculum and provide training courses for specialized disaster health-related personnel in ASEAN and establish network with national academic institutions to provide training services to all ASEAN Member States.

The RCC-DHM will be executed under the supervision by and guidance of ASEAN Health Cluster 2 (AHC 2) and Senior Officials Meeting on Health Development (SOMHD).

Endorsed by RCC-DHM on 15 December 2022 and AHC 2 on 18 January 2023

Adopted by SOMHD on 6 February 2023

PROJECT ACTIVITIES	EXPECTED OUTPUTS	INDICATORS	LEAD COUNTRY	INTERPILLAR/ INTERSECTORAL/ INTERCLUSTER	SOURCE OF SUPPORT	TIMELINE
<b>PRIORITY 1: Strengthening and enhancing regional collaborative frameworks on disaster health management</b>						
<i>Objective 1.1 Support the development of regional collaboration mechanisms on disaster health management, including the development of relevant standard operating procedures for regional collaboration on disaster health management.</i>						
a. Develop, review, and update the SOP for the Coordination of the Emergency Medical Teams (EMTs) in ASEAN	<ul style="list-style-type: none"> <li>SOP for the Coordination of the EMTs in ASEAN is developed, enhanced, and updated</li> <li>To integrate SOP for the Coordination of the EMTs into ASEAN SASOP</li> </ul>	<ul style="list-style-type: none"> <li>A review and update of ASEAN SOPs (outputs from ARCH Phase 1) will be conducted once a year</li> <li>To test updated SOP for the Coordination of EMTs in ASEAN in RCD/ARCH Project – Phase 2 and ARDEX before integrating to ASEAN SASOP</li> </ul>	Thailand (ARCH Project- Phase 2)	AHA Centre ACDM ASEAN Secretariat	JICA WHO	2019-2021 (Development phase)  2022-2025 (Periodic review and updating)
b. Conduct annual ASEAN Regional Collaboration Drills (RCD)	<ul style="list-style-type: none"> <li>An activity report is prepared to highlight on evaluation outcomes, good practices, challenges, and recommendations</li> </ul>	<ul style="list-style-type: none"> <li>Conduct RCD once a year</li> <li>An activity report will be prepared after every RCD</li> </ul>	Host of Regional Collaboration Drills  Thailand (ARCH Project- Phase 2)	ACDM / WGPRR AHA Centre	JICA WHO	2022-2025
c. Collaborate with ASEAN sectors and external partners in the conduct of joint exercises to test the inter-operability of ASEAN EMT SOP and other procedures	<ul style="list-style-type: none"> <li>At least one collaboration drill with other sectors and partners, through ARDEX and/or INSARAG conducted <i>[Note: This can be done in phases, such</i></li> </ul>	<ul style="list-style-type: none"> <li>To join collaboration drill at least once a year</li> <li>An activity report will be prepared after every collaboration drill</li> </ul>	RCC-DHM Chair (on rotation following the AHC 2 Chairpersonship)  RCC-DHM Coordinating Secretariat	ACDM / WGPRR AHA Centre	JICA WHO (EMT Initiative Secretariat, SEARO, WPRO)	2022-2025

Endorsed by RCC-DHM on 15 December 2022 and AHC 2 on 18 January 2023  
 Adopted by SOMHD on 6 February 2023
